

Dyoll Group Limited 2000

Auditors Report

We have audited the financial statements as set out, and have obtained all the information and explanations which we required. The financial statements are the responsibility of the directors and management. In preparing the financial statements the directors and management are required to select suitable accounting policies and apply them consistently, make judgements and estimates that are reasonable and prudent, follow applicable accounting standards and apply the going concern basis, unless it is inappropriate to presume that the company will continue in business for the foreseeable future. The directors and management are responsible for keeping proper accounting records, for safeguarding the assets of the company, and for the prevention and detection of fraud and other irregularities. Our responsibility is to express an opinion on the financial statements based on our audit.

We conducted our audit in accordance with Standards on Auditing issued by the Institute of Chartered Accountants of Jamaica. These standards require that we plan and perform the audit to obtain all the information and explanations which we consider necessary to provide us with reasonable assurance that the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by the directors and management, and evaluating the overall financial statements presentation. We believe our audit provides a reasonable basis for our opinion.

As disclosed in note 9, the company provided liquidity support in the amount of \$15,379,825 [net of a write off of \$32,372,259] (1999: \$16,992,434) to an associated company. The company in conjunction with this associated company and one of its subsidiaries has initiated litigation against parties involved in an aborted merger transaction [see note 29(b)] in order to recover amounts advanced on these parties' behalf. The associated company's ability to repay these advances is dependent on the successful outcome of the litigation. We do not express an opinion on the recoverability of these advances and the fair value of these advances as stated in note 30(e).

In our opinion, proper accounting records have been kept and the financial statements, which are in agreement therewith and have been prepared in accordance with generally accepted accounting principles in Jamaica give, except for the effects, if any, of the matter described in the preceding paragraph, a true and fair view of the state of the affairs of the company and the group as at December 31, 2000 and of the profit and cash flows of the group for the year then ended and comply with the provisions of the Companies Act.
