To the Members of
The Bank of Nova Scotia Jamaica Limited
Kingston

Auditors' Report

We have audited the financial statements set out on pages 37 to 107, and have received all the information and explanations which we considered necessary. These financial statements are the responsibility of the Bank's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, proper accounting records have been kept and the financial statements, which are in agreement therewith, give a true and fair view of the state of affairs of the Group and the Bank as at 31 October 2005 and of the results of operations, changes in stockholders' equity and cash flows of the Group and the Bank for the year then ended in accordance with International Financial Reporting Standards and comply with the provisions of the Jamaican Companies Act applicable to banking companies.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

1. Identification, Regulation and Licence

The Bank of Nova Scotia Jamaica Limited ("the Bank") is incorporated and domiciled in Jamaica. It is a 70% subsidiary of The Bank of Nova Scotia, which is incorporated and domiciled in Canada. The registered office of the Bank is located at the Scotiabank Centre, Corner of Duke and Port Royal Streets, Kingston.

The Bank is licensed and these financial statements have been prepared in accordance with the provisions of the Banking Act, 1992.

The Bank is listed on the Jamaica Stock Exchange.

The Bank's subsidiaries, which together with the Bank are referred to as "the Group" are as follows:

Subsidiaries	Principal Activities	Holding	Financial Year End
Scotia Jamaica Investment Management Limited	Investment and Pension Fund Management and Trustee Services	100%	31 October
The Scotia Jamaica Building Society	Mortgage financing	100%	31 October
Scotia Jamaica Life Insurance Company Limited	Life Insurance	100%	31 December
Scotia Jamaica General Insurance Brokers Limited	Insurance Brokers	100%	31 October
Scotia Jamaica Financial Services Limited	Non-trading	100%	31 October
Brighton Holdings Limited	Non-trading	100%	31 October

All of the Bank's subsidiaries are incorporated and domiciled in Jamaica.

During the year, one of the Bank's subsidiaries, Scotia Jamaica General Insurance Brokers Limited ceased trading and is in the process of surrendering the insurance brokers licence to the Regulator.

These financial statements have been approved for issue by the Board of Directors on 24 November 2005.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

2. Summary of Significant Accounting Policies

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied for all the years presented, unless otherwise stated.

(a) Basis of preparation

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and have been prepared under the historical cost convention, as modified for the revaluation of available-for-sale financial assets and financial assets held for trading.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 3.

Early adoption of revised standards -

In 2005, the Group early adopted the following IFRS, which are relevant to its operations. The 2004 accounts have been amended as required, in accordance with the relevant requirements. The effects of early adopting IFRS on equity previously reported for the Group are detailed in Note 50.

IAS 1 (revised 2003)	Presentation of Financial Statements
IAS 8 (revised 2003)	Accounting Policies, Changes in Accounting Estimates and Errors
IAS 10 (revised 2003)	Events after the Balance Sheet Date
IAS 16 (revised 2003)	Property, Plant and Equipment
IAS 17 (revised 2003)	Leases
IAS 24 (revised 2003)	Related Party Disclosures
IAS 32 (revised 2003)	Financial Instruments: Disclosure and Presentation
IAS 36 (revised 2003)	Impairment of Assets
IAS 38 (revised 2003)	Intangible Assets
IAS 39 (revised 2003 & 2004)	Financial Instruments: Recognition and Measurement

The early adoption of IAS 1, 8, 10, 16, 17, 24, 32, 36, 38 and 39 (all revised 2003) and IAS 39 (revised 2004) did not result in substantial changes to the Group's accounting policies. In summary:

- (i) IAS 1 (revised 2003) has affected disclosures.
- (ii) IAS 8, 10, 16, 17, 32, 38 and 39 (all revised 2003) and IAS 39 (revised 2004) had no material effect on the Group's policies.
- (iii) IAS 24 (revised 2003) has extended the identification of related parties and some other related-party disclosures.

All changes in the accounting policies have been made in accordance with the transition provisions in the respective standards. All standards adopted by the Group require retrospective application other than IAS 39 – the de-recognition of financial assets is applied prospectively.

There was no impact on opening retained earnings as at 1 November 2004 from the adoption of any of the above-mentioned standards.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

2. Summary of Significant Accounting Policies (Continued)

(b) Basis of consolidation

Subsidiaries are all entities over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting shares rights.

The consolidated financial statements include the assets, liabilities and results of operations of the Bank and its subsidiaries presented as a single economic entity. Intra-group transactions, balances and unrealised gains and losses are eliminated in preparing the consolidated financial statements.

(c) Segment reporting

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments.

(d) Foreign currency translation

Assets and liabilities denominated in foreign currencies are translated into Jamaican dollars at the exchange rates prevailing at the balance sheet date, being the mid-point between the Bank of Jamaica's (the Central Bank) weighted average buying and selling rates at that date.

Transactions in foreign currencies are translated at the rates of exchange ruling at the dates of those transactions.

(e) Interest and fees

(i) Income and expense

Interest income and expense are recognised in the statement of revenue and expenses for all interest bearing instruments on an accrual basis using the effective yield method based on the actual purchase price. Interest income includes coupons earned on fixed income investments and accrued discount on treasury bills and other discounted instruments.

Where collection of interest income is considered doubtful, or payment is outstanding for more than 90 days, the banking regulations stipulate that interest should be taken into account on the cash basis. IFRS requires that when loans become doubtful of collection, they are written down to their recoverable amounts and interest income is thereafter recognised based on the rate of interest that was used to discount the future cash flows for the purpose of measuring the recoverable amount. However, such amounts as would have been determined under IFRS are considered to be immaterial.

(ii) Fee and commission income

Fee and commission income is recognised on an accrual basis when service has been provided. Loan origination fees, for loans which are probable of being drawn down, are recognised in the statement of revenue and expenses immediately, as they are not considered material for deferral.

Portfolio and other management advisory and service fees are recognised based on the applicable service contracts. Asset management fees are apportioned over the period the service is provided. The same principle is applied for financial planning and custody services that are continuously provided over an extended period of time.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

2. Summary of Significant Accounting Policies (Continued)

(f) Premium income

Premiums are recognised as earned when due.

(g) Claims

Death claims are recorded in the statement of operations net of reinsurance recoverable.

(h) Reinsurance ceded

The Group cedes insurance premiums and risk in the normal course of business in order to limit the potential for losses arising from large exposures. Reinsurance does not relieve the originating insurer of its liability.

(i) Taxation

Taxation on the profit or loss for the year comprises current and deferred tax. Current and deferred taxes are recognised as income tax expense or benefit in the statement of revenue and expenses except, where they relate to items recorded in stockholders' equity, they are also charged or credited to stockholders' equity.

(i) Current taxation

Current tax is the expected taxation payable on the taxable income for the year, using tax rates enacted at the balance sheet date, and any adjustment to tax payable and tax losses in respect of previous years.

(ii) Deferred income taxes

Deferred tax liabilities are recognised for temporary differences between the carrying amounts of assets and liabilities and their amounts as measured for tax purposes, which will result in taxable amounts in future periods. Deferred tax assets are recognised for temporary differences which will result in deductible amounts in future periods, but only to the extent it is probable that sufficient taxable profits will be available against which these differences can be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the asset will be realised or the liability will be settled based on enacted rates.

Current and deferred tax assets and liabilities are offset when they arise from the same taxable entity, relate to the same Tax Authority and when the legal right of offset exists.

(j) Policyholders' fund

The policyholders' funds have been calculated using the Policy Premium Method (PPM) of valuation. Under this method explicit allowance is made for all future benefits and expenses under the policies. The premiums, benefits and expenses for each policy are projected and the resultant future cash flows are discounted back to the valuation date to determine the reserves.

The process of calculating policy reserves necessarily involves the use of estimates concerning such factors as mortality and morbidity rates, future investment yields and future expense levels. Consequently, these liabilities include reasonable provisions for adverse deviations from the estimates.

An actuarial valuation is prepared annually. The actuarial surplus, net of taxation, is transferred from the policyholders' fund to the statement of revenue and expenses.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

2. Summary of Significant Accounting Policies (Continued)

(k) Financial assets

The Group classifies its financial assets into the following categories: financial assets held for trading; loans and receivables; held-to-maturity; and available-for-sale financial assets. Management determines the classification of its investments at initial recognition.

- (i) Financial assets at fair value through profit or loss
This category includes financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term or if so designated by management.
- (ii) Loans and receivables
Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Group provides money, goods or services directly to a debtor with no intention of trading the receivable.
- (iii) Held-to-maturity
Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Group's management has the positive intention and ability to hold to maturity. Were the Group to sell other than an insignificant amount of held-to-maturity assets, the entire category would be compromised and reclassified as available-for-sale.
- (v) Available-for-sale
Available-for-sale investments are those intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, exchange rates or equity prices.

Purchases and sales of financial assets held for trading, held-to-maturity and available-for-sale are recognised at the settlement date – the date on which an asset is delivered to or by the Group. Loans are recognised when cash is advanced to the borrowers. Financial assets are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or where the Group has transferred substantially all risks and rewards of ownership.

Available-for-sale financial assets and financial assets held for trading are subsequently carried at fair value. Loans and receivables investment is carried at amortised cost using the effective interest method. Gains and losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category are included in the income statement in the period in which they arise. Gains and losses arising from changes in the fair value of available-for-sale financial assets are recognised directly in equity, until the financial assets are derecognised or impaired at which time the cumulative gains or losses previously recognised in equity should be recognised in profit or loss. However, interest calculated using the effective interest method is recognised in the statement of revenue and expenses.

A financial asset is considered impaired if its carrying amount exceeds its estimated recoverable amount. The amount of the impairment loss for an asset carried at amortised cost is calculated as the difference between the asset's carrying amount and the present value of expected future cash flows discounted at the original effective interest rate. The recoverable amount of a financial asset carried at fair value is the present value of expected future cash flows discounted at the current market interest rate for a similar financial asset.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

2. Summary of Significant Accounting Policies (Continued)

(l) Investment in subsidiaries

Investments by the Bank in subsidiaries are stated at cost.

(m) Repurchase and reverse repurchase agreements

Securities sold under agreements to repurchase (repurchase agreements) and securities purchased under agreements to resell (reverse repurchase agreements) are treated as collateralised financing transactions. The difference between the sale/purchase and repurchase/resale price is treated as interest and accrued over the life of the agreements using the effective yield method.

(n) Loans and allowance for impairment losses

Loans are stated net of unearned income and allowance for credit losses.

Loans are recognised when cash is advanced to borrowers. They are initially recorded at cost, which is the cash given to originate the loan including any transaction costs, and are subsequently measured at amortised cost using the effective interest rate method.

An allowance for loan impairment is established if there is objective evidence that the Group will not be able to collect all amounts due according to the original contractual terms of loans. The amount of the provision is the difference between the carrying amount and the recoverable amount, being the present value of expected cash flows, including amounts recoverable from guarantees and collateral, discounted at the original effective interest rate of loans.

A loan is classified as impaired when, in management's opinion, there has been a deterioration in credit quality to the extent that there is no longer reasonable assurance of timely collection of the full amount of principal and interest. As required by statutory regulations, if a payment on a loan is contractually 90 days in arrears, the loan will be classified as impaired, if not already classified as such. Any credit card loan that has a payment that is contractually 90 days in arrears is written-off.

When a loan is classified as impaired, recognition of interest in accordance with the terms of the original loan ceases, and interest is taken into account on the cash basis. Interest income on impaired loans has not been recognised, as it is not considered material.

Statutory and other regulatory loan loss reserve requirements that exceed the amounts required under IFRS are dealt with in a non-distributable loan loss reserve as an appropriation of profits.

(o) Acceptances and guarantees

The Bank's potential liability under acceptances and guarantees is reported as a liability in the balance sheet. The Bank has equal and offsetting claims against its customers in the event of a call on these commitments, which are reported as an asset.

(p) Intangible assets

Costs associated with developing or maintaining computer software programs are recognised as an expense as incurred. Costs that are directly associated with acquiring identifiable and unique software products which are expected to generate economic benefits exceeding costs beyond one year, are recognised as intangible assets. However, such costs have been expensed as they are considered to be immaterial.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

2. Summary of Significant Accounting Policies (Continued)

(q) Leases

(i) As lessee

Leases of property, plant and equipment where the Group has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are recognised at the inception of the lease at the lower of the fair value of the leased asset or the present value of minimum lease payments. Each lease payment is allocated between the liability and interest charges so as to produce a constant rate of charge on the lease obligation. The interest element of the lease payments is charged to the statement of revenue and expenses over the lease period.

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments under operating leases are charged to the statement of revenue and expenses on a straight-line basis over the period of the lease.

(ii) As lessor

When assets are leased out under a finance lease, the present value of the lease payments is recognised as a receivable. The difference between the gross receivable and the present value of the receivable is recognised as unearned finance income. Lease income is recognised over the term of the lease in a manner which reflects a constant periodic rate of return on the net investment in the lease.

Assets leased out under operating leases are included in property, plant and equipment in the balance sheet. They are depreciated over their expected useful lives on a basis consistent with similar owned assets. Rental income is recognised on a straight-line basis over the lease term.

(r) Property, plant and equipment

Land is stated at historical cost. All other property, plant and equipment are stated at historical cost less accumulated depreciation.

Subsequent costs are included in the asset's carrying amount or are recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and renewals are charged to the statement of revenue and expenses during the financial period in which they are incurred.

Depreciation and amortisation are calculated on the straight-line method at rates estimated to write off the assets over their expected useful lives as follows:

Buildings	40 years
Furniture, fixtures and equipment	10 years
Computer equipment	4 years
Motor vehicles	5 years
Leasehold improvements	Period of lease

Property, plant and equipment are reviewed periodically for impairment. Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount.

Gains and losses on disposal of property, plant and equipment are determined by reference to their carrying amount and are taken into account in determining operating profit.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

2. Summary of Significant Accounting Policies (Continued)

(s) Employee benefits

(i) Pension obligations

The Group has established a defined benefit pension plan.

The asset or liability in respect of defined benefit plans is the difference between the present value of the defined benefit obligation at the balance sheet date and the fair value of plan assets, adjusted for unrecognised actuarial gains/losses and past service cost. Where a pension asset arises, the amount recognised is limited to the net total of any cumulative unrecognised net actuarial losses and past service cost and the present value of any economic benefits available in the form of refunds from the plan or reduction in future contributions to the plan. The pension costs are assessed using the Projected Unit Credit Method. Under this method, the cost of providing pensions is charged to the statement of operations so as to spread the regular cost over the service lives of the employees in accordance with the advice of the actuaries, who carry out a full valuation of the plan every year in accordance with IAS 19. The pension obligation is measured at the present value of the estimated future cash outflows using estimated discount rates based on market yields on Government securities which have terms to maturity approximating the terms of the related liability.

A portion of actuarial gains and losses is recognised in the statement of revenue and expenses if the net cumulative unrecognised actuarial gains or losses at the end of the previous reporting period exceeded 10 percent of the greater of the present value of the gross defined benefit obligation and the fair value of plan assets at that date. Any excess actuarial gains or losses are recognised in the statement of revenue and expenses over the average remaining service lives of the participating employees.

(ii) Termination obligations

Termination benefits are payable whenever an employee's employment is terminated before the normal retirement date or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits when it is demonstrably committed to either terminate the employment of current employees according to a detailed formal plan without the possibility of withdrawal or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits falling due more than twelve (12) months after the balance sheet date are discounted to present value.

(iii) Other post-retirement obligations

The Group also provides supplementary health, dental and life insurance benefits to qualifying employees upon retirement. The entitlement to these benefits is usually based on the employee remaining in service up to retirement age and the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment, using an accounting methodology similar to that for defined benefit pension plans. These obligations are valued annually by qualified independent actuaries.

(iv) Equity compensation benefits

The Bank has an Employee Share Ownership Plan (ESOP) for eligible employees. The Bank currently pays all the administrative and other expenses of the Plan. The Bank provides a fixed benefit to each participant, which is linked to the number of years of service. This benefit is recorded in salaries and staff benefits expense in the statement of revenue and expenses.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

2. Summary of Significant Accounting Policies (Continued)

(t) Borrowings

Borrowings are recognised initially at fair value, being their issue proceeds (fair value of consideration received) net of transaction costs incurred. Borrowings are subsequently stated at amortised cost. Any difference between proceeds net of transaction costs and the redemption value, is recognised in the statement of revenue and expenses immediately, as they are not considered material for deferral.

(u) Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, if it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

Employee entitlements to annual leave and long-service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long-service leave as a result of services rendered by employees up to the balance sheet date.

(v) Dividends

Dividends are recorded in the financial statements in the period in which they have been approved by the Board of Directors.

(w) Financial instruments

Financial instruments carried on the balance sheet include cash resources, investments, securities purchased under resale agreements, loans and leases and other assets, deposits, other liabilities and policyholders' funds.

The fair values of the Group's and the Bank's financial instruments are discussed in Note 43.

(x) Fiduciary activities

The Group commonly acts as trustee and in other fiduciary capacities that result in the holding or placing of assets on behalf of individuals, trusts, retirement benefit plans and other institutions. These assets and income arising thereon are excluded from these financial statements, as they are not assets of the Group.

(y) Cash and cash equivalents

For the purpose of the cash flow statement, cash and cash equivalents comprise balances which mature within 90 days from the date of acquisition including cash and balances at Bank of Jamaica (excluding statutory cash reserves), amounts due from other banks, investment securities and amounts due to other banks.

(z) Comparative information

Where necessary, comparative figures have been reclassified to conform with changes in presentation in the current year.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

3. Critical Accounting Estimates, and Judgements in Applying Accounting Policies

The Group makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

(i) Impairment losses on loans and advances

The Group reviews its loan portfolios to assess impairment at least on a quarterly basis. In determining whether an impairment loss should be recorded in the statement of revenue and expenses, the Group makes judgements as to whether there is any observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of loans before the decrease can be identified with an individual loan in that portfolio. This evidence may include observable data indicating that there has been an adverse change in the payment status of borrowers in a group, or national or local economic conditions that correlate with defaults on assets in the group. Management uses estimates based on historical loss experience for assets with credit risk characteristics and objective evidence of impairment similar to those in the portfolio when scheduling its future cash flows. The methodology and assumptions used for estimating both the amount and timing of future cash flows are reviewed regularly to reduce any differences between loss estimates and actual loss experience. To the extent that the net present value of estimated cash flows differs by +/-5 percent, the provision would be estimated \$525,514 higher or \$475,465 lower.

(ii) Held-to-maturity investments

The Group follows the guidance of IAS 39 in classifying non-derivative financial assets with fixed or determinable payments and fixed maturity as held-to-maturity. This classification requires judgement. In making this judgement, the Group evaluates its intention and ability to hold such investments to maturity. If the Group fails to keep these investments to maturity other than for the specific circumstances – for example, selling other than an insignificant amount close to maturity – it will be required to reclassify the entire class as available-for-sale. The investments would therefore be measured at fair value, not amortised cost. If the entire class of held-to-maturity investments is compromised, the fair value would increase by \$433,520 with a corresponding entry in the fair value reserve in stockholders' equity.

(iii) Income taxes

Estimates are required in determining the provision for income taxes. There are some transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for possible tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

Were the actual final outcome (on the judgement areas) to differ by 10% from management's estimates, the Group would need to:

- increase the income tax liability by \$8,779 and the deferred tax liability by \$7,338, if unfavourable; or
- decrease the income tax liability by \$8,779 and the deferred tax liability by \$7,338, if favourable.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

3. Critical Accounting Estimates, and Judgements in Applying Accounting Policies (Continued)

- (iv) Estimate of future payments and premiums arising from long-term insurance contracts
- The determination of the liabilities under long-term insurance contracts is dependent on estimates made by the Group. Estimates are made as to the expected number of deaths for each of the years in which the Group is exposed to risk. The Group bases these estimates on standard industry and international mortality tables that reflect recent historical mortality experience, adjusted where appropriate to reflect the Group's own experience. For contracts that insure the risk of longevity, appropriate but not excessively prudent allowance is made for expected mortality improvements. The estimated number of deaths determines the value of the benefit payments and the value of the valuation premiums. The main source of uncertainty is that epidemics such as AIDS, and wide-ranging lifestyle changes, such as in eating, smoking and exercise habits, could result in future mortality being significantly worse than in the past for the age groups in which the Group has significant exposure to mortality risk. However, continuing improvements in medical care and social conditions could result in improvements in longevity in excess of those allowed for in the estimates used to determine the liability for contracts where the Group is exposed to longevity risk.

Were the numbers of deaths in future years to differ by 10% from management's estimate, the liability would increase by \$23,536 or decrease by \$23,466.

For contracts without fixed terms, it is assumed that the Group will be able to increase mortality risk charges in future years in line with emerging mortality experience.

Estimates are also made as to future investment income arising from the assets backing long-term insurance contracts. These estimates are based on current market returns as well as expectations about future economic and financial developments. The average estimated rate of investment return is 13.5%. Were the average future investment returns to differ by 1% from management's estimates, the insurance liability would increase by \$161,110 or decrease by \$195,986.

For long-term contracts with fixed and guaranteed terms, estimates are made in two stages. Estimates of future deaths, voluntary terminations, investment returns and administration expenses are made at the inception of the contract and form the assumptions used for calculating the liabilities during the life of the contract. A margin of risk and uncertainty is added to these assumptions. These assumptions are 'locked in' for the duration of the contract. New estimates are made each subsequent year in order to determine whether the previous liabilities are adequate in the light of these estimates. If the liabilities are considered adequate, the assumptions are not altered. If they are not adequate, the assumptions are altered ('unlocked') to reflect the best estimates assumptions. A key feature of the adequacy testing for these contracts is that the effects of changes in the assumptions on the measurement of the liabilities and related assets are not symmetrical. Any significant improvements or deteriorations in estimates are immediately recognised to make the liabilities adequate.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

3. Critical Accounting Estimates, and Judgements in Applying Accounting Policies (Continued)

(v) Pension and post-retirement benefits

The cost of these benefits and the present value of the pension and the other post-retirement liabilities depend on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumption used in determining the net periodic cost (income) for pension and post-retirement benefits include the expected long-term rate of return on the relevant plan assets, the discount rate and, in the case of the post-employment medical benefits, the expected rate of increase in medical costs. Any changes in these assumptions will impact the net periodic cost (income) recorded for pension and post-retirement benefits and may affect planned funding of the pension plans. The expected return on plan assets assumption is determined on a uniform basis, considering long-term historical returns, asset allocation and future estimates of long-term investments returns. The Group determines the appropriate discount rate at the end of each year, which represents the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the pension and post-retirement benefit obligations. In determining the appropriate discount rate, the Group considered interest rate of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liability. The expected rate of increase of medical costs has been determined by comparing the historical relationship of the actual medical cost increases with the rate of inflation in the respective economy. Past experience has shown that the actual medical costs have increased on average by one time the rate of inflation. Other key assumptions for the pension and post retirement benefits cost and credits are based in part on current market conditions.

Were the actual expected return on plan assets to differ by 1% from management's estimates, the consolidated net income would be an estimated \$145,030 higher or \$145,031 lower. Were the actual discount rate used to differ by 1% from management's estimates, the consolidated net income would be an estimated \$271,846 higher or \$551,209 lower.

4. Responsibilities of the Appointed Actuary and External Auditors

The Board of Directors pursuant to the Insurance Act appoints the Actuary. His responsibility is to carry out an annual valuation of the Group's policy liabilities in accordance with accepted actuarial practice and regulatory requirements and report thereon to the policyholders and stockholders. In performing the valuation, the Actuary makes assumptions as to the future rates of interest, asset defaults, mortality, morbidity, claims experience, policy termination, inflation, reinsurance recoveries, expenses and other contingencies, taking into consideration the circumstances of the Group and the insurance policies in force.

The stockholders pursuant to the Companies Act appoint the external auditors. Their responsibility is to conduct an independent and objective audit of the financial statements in accordance with International Standards on Auditing and report thereon to the stockholders. In carrying out their audit, the auditors also make use of the work of the appointed Actuary and his report on the policy liabilities.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

5. Segmental Financial Information

The Group is organised into five main business segments:

- (a) Retail Banking – incorporating personal banking services, personal customer current accounts, savings, deposits, custody, credit and debit cards, consumer loans and mortgages;
- (b) Corporate and Commercial Banking - incorporating non-personal direct debit facilities, current accounts, deposits, overdrafts, loans and other credit facilities and foreign currency transactions;
- (c) Treasury – incorporating the Bank's liquidity and investment management function, management of correspondent bank relationships, as well as foreign currency trading;
- (d) Investment Management Services – incorporating investments and pension fund management and the administration of trust accounts;
- (e) Insurance Services - incorporating the provision of life insurance and
- (f) Other operations of the Group comprise General Insurance Brokerage and property rental.

Transactions between the business segments are on normal commercial terms and conditions.

Segment assets and liabilities comprise operating assets and liabilities, being the majority of the balance sheet, but exclude items such as taxation, retirement benefit assets and obligations and borrowings.

The Group's operations are located solely in Jamaica.

(expressed in thousands of Jamaican dollars unless otherwise stated)

13. Taxation

(a) Taxation charge

Income tax is computed on the profit for the year as adjusted for tax purposes. The charge for taxation comprises:

	<u>The Group</u>		<u>The Bank</u>	
	2005	2004	2005	2004
Current income tax -				
Income tax at 33 $\frac{1}{3}$ %	2,015,107	1,757,686	1,924,682	1,648,329
Income tax at 30%	119,396	124,766	-	-
Premium income tax at 3%	76,434	83,688	-	-
Investment income tax at 15%	148,293	132,351	-	-
Adjustment for under-provision of prior year's charge	8,313	10,867	36	10,867
Deferred income tax (Note 28)	<u>76,683</u>	<u>207,218</u>	<u>76,857</u>	<u>197,284</u>
	<u><u>2,444,226</u></u>	<u><u>2,316,576</u></u>	<u><u>2,001,575</u></u>	<u><u>1,856,480</u></u>

(b) Reconciliation of applicable tax charge to effective tax charge:

	<u>The Group</u>		<u>The Bank</u>	
	2005	2004	2005	2004
Profit before taxation	<u>8,329,812</u>	<u>8,172,633</u>	<u>6,299,850</u>	<u>6,230,050</u>
Tax calculated at 33 $\frac{1}{3}$ %	2,776,604	2,724,211	2,099,950	2,076,683
Adjusted for the effects of:				
Effect of different tax regime applicable to life insurance and mortgage financing subsidiaries	(213,990)	(168,081)	-	-
Income not subject to tax – tax free investments	(163,358)	(266,238)	(154,583)	(246,588)
Expenses not deductible for tax purposes	2,048	1,206	1,358	1,206
Other charges and allowances	<u>42,922</u>	<u>25,478</u>	<u>54,850</u>	<u>25,179</u>
Income tax expense	<u><u>2,444,226</u></u>	<u><u>2,316,576</u></u>	<u><u>2,001,575</u></u>	<u><u>1,856,480</u></u>

Tax on the life insurance business is charged on investment income, less expenses allowable in earning that income, at the rate of 15% and on premium income less reinsurance premiums at 3%.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

14. Net Profit and Unappropriated Profits Attributable to Stockholders

	2005	2004
(a) The net profit is dealt with as follows in the financial statements of:		
The Bank	4,298,275	4,373,570
The Subsidiaries	1,587,311	1,482,487
	<u>5,885,586</u>	<u>5,856,057</u>
(b) The unappropriated profits are dealt with as follows in the financial statements of:		
The Bank	5,381,703	4,760,659
The Subsidiaries	6,537,034	4,949,723
	<u>11,918,737</u>	<u>9,710,382</u>

15. Earnings per Stock Unit

Basic earnings per stock unit is calculated by dividing the net profit attributable to stockholders by the weighted average number of ordinary stock units in issue during the year. The average number of stock units for the previous year has been adjusted accordingly to take into account the issue of 1,463,616,000 bonus ordinary shares.

	2005	2004
Net profit attributable to stockholders (\$'000)	5,885,586	5,856,057
Weighted average number of ordinary stock units in issue ('000)	2,927,232	2,927,232
Basic earnings per stock unit (expressed in \$ per share)	<u>\$2.01</u>	<u>\$2.00</u>

The Bank of Nova Scotia Jamaica Limited

(expressed in thousands of Jamaican dollars unless otherwise stated)

23. Impairment Losses on Loans

	The Group		The Bank	
	2005	2004	2005	2004
Total non-performing loans	918,164	1,039,396	818,491	941,490
Provision at beginning of year	500,121	655,350	465,148	612,525
Charged against revenue during the year	272,575	45,878	272,426	56,209
Bad debts written off	(461,583)	(323,469)	(461,435)	(323,315)
Recoveries of bad debts	183,921	122,362	183,920	119,729
At end of year	495,034	500,121	460,059	465,148
This comprises:				
Specific provisions	347,255	357,045	317,079	324,402
General provisions	147,779	143,076	142,980	140,746
	495,034	500,121	460,059	465,148

Allowance for impairment losses

A loan is classified as impaired if its book value exceeds the present value of the cash flows actually expected in future periods – interest payments, principal repayments as well as liquidation of collateral. Provisions for credit losses are made on all impaired loans. Uncollected interest not accrued in these financial statements on impaired loans was estimated at \$79,571 as at 31 October 2005 (2004 – \$71,955) for the Bank and \$84,103 as at 31 October 2005 (2004 - \$77,318) for the Group.

The Group's and Bank's loan loss provisioning requirements amounted to \$1,301,558 (2004 - \$1,306,645) and \$1,225,351 (2004 - \$1,230,440) respectively. This includes the amounts required to meet the Bank of Jamaica loan loss provisioning requirement. The provisions shown in the table above represent provisions based on IAS 39 (Financial Instruments: Recognition and Measurement) requirements. A non-distributable loan loss reserve was established to represent the excess of the Bank's provision over the IAS 39 requirements.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

24. Lease Receivables

	The Group	
	2005	2004
Gross investment in finance leases		
Not later than one year	495	5,177
Later than one year and not later than five years	-	535
	495	5,712
Less: Unearned income	(62)	(612)
Net investment in finance leases	433	5,100
Net investment in finance leases may be classified as follows:		
Not later than one year	433	4,636
Later than one year and not later than five years	-	464
	433	5,100

The provision for uncollectible finance lease receivables amounted to nil as at 31 October 2005 (2004 - \$17,000).

28. Deferred Income Taxes

Deferred income taxes are calculated on all temporary differences under the liability method using an effective tax rate of:

- 30% for The Scotia Jamaica Building Society;
- 15% for Scotia Jamaica Life Insurance Company Limited and
- 33⅓% for the Bank and all other subsidiaries.

The movement on the deferred income tax account is as follows:

	The Group		The Bank	
	2005	2004	2005	2004
Balance as at 1 November	(1,318,392)	(991,463)	(1,290,935)	(989,680)
Charged to statement of revenue and expenses (Note 13)	(76,683)	(207,218)	(76,857)	(197,284)
Available-for-sale investments				
- fair value re-measurement	18,922	(107,631)	5,493	(104,659)
- transfer to net profit	-	(14,892)	-	688
Other differences	(11,345)	-	83	-
Balance as at 31 October	<u>(1,387,498)</u>	<u>(1,321,204)</u>	<u>(1,362,216)</u>	<u>(1,290,935)</u>

Deferred income tax assets and liabilities are attributable to the following items:

	The Group		The Bank	
	2005	2004	2005	2004
Deferred income tax assets -				
Other post retirement benefits	108,687	85,666	108,687	85,666
Interest receivable	1,252	1,582	-	-
	<u>109,939</u>	<u>87,248</u>	<u>108,687</u>	<u>85,666</u>
Deferred income tax liabilities -				
Pension benefits	1,254,791	1,112,419	1,254,791	1,112,419
Accelerated tax depreciation	79,734	82,999	71,599	76,562

Impairment losses on loans	84,323	116,163	73,377	110,908
Other temporary differences	-	4,159	-	-
	<u>1,497,437</u>	<u>1,408,452</u>	<u>1,470,903</u>	<u>1,376,601</u>

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

28. Deferred Income Taxes (Continued)

The deferred tax charge in the statement of revenue and expenses comprises the following temporary differences:

	The Group		The Bank	
	2005	2004	2005	2004
Accelerated tax depreciation	(9,810)	569	(4,963)	3,318
Pensions and other post retirement benefits	119,350	110,524	119,350	110,524
Allowance for loan impairment	(31,670)	96,125	(37,530)	83,442
Interest receivable	(1,187)	-	-	-
	<u>76,683</u>	<u>207,218</u>	<u>76,857</u>	<u>197,284</u>

Deferred income tax liabilities have not been established for the withholding tax and other taxes that would be payable on the unappropriated profits of subsidiaries as such amounts are permanently reinvested; such unappropriated profits totalled \$6,537,034 at 31 October 2005 (2004 - \$4,949,723).

29. Retirement Benefit Asset

Amounts recognised in the balance sheet:

	The Group and The Bank	
	2005	2004
Pension scheme	3,764,372	3,338,827
Other post retirement benefits	(326,062)	(264,634)
	<u>3,438,310</u>	<u>3,074,193</u>

(a) Pension Scheme

The Group has established a pension scheme covering all permanent employees. The pension scheme is a final salary (the average of the best three consecutive years' remuneration, with no salary cap) defined benefit plan and is fully funded. The assets of the plan are held independently of the Group's assets in a separate trustee administered fund. The scheme is valued by independent actuaries annually using the Projected Unit Credit Method. The latest actuarial valuation was carried out as at 31 October 2005.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

29. Retirement Benefit Asset (Continued)

(a) Pension Scheme (Continued)

The amounts recognised in the balance sheet are determined as follows:

	The Group and The Bank	
	2005	2004
Present value of funded obligations	5,124,428	3,916,362
Fair value of plan assets	(14,458,261)	(14,458,261)
Unrecognised actuarial gains	4,165,675	4,206,539
	(5,168,158)	(6,335,360)
Limitation on recognition of surplus due to uncertainty of obtaining future benefits	1,403,786	2,996,533
Asset in the balance sheet	<u>(3,764,372)</u>	<u>(3,338,827)</u>

Pension plan assets include:

- (i) The Bank's ordinary stock units with a fair value of \$1,616,530 (2004 - \$2,026,728).
- (ii) Bank of Jamaica repurchase agreements valued at \$261,107 (2004 - \$2,948,609) with a related company, Scotia Jamaica Investment Management Limited.

The amounts recognised in the statement of revenue and expenses are as follows:

	The Group and The Bank	
	2005	2004
Current service cost, net of employee contributions	59,317	(9,117)
Interest cost	553,757	393,402
Expected return on plan assets	(1,522,823)	(1,006,402)
Net actuarial gain recognised in year	(122,600)	(26,400)
Losses on curtailment	395,838	369,849
Income not recognised due to limit	304,743	-
Included in staff costs (Note 9)	<u>(331,768)</u>	<u>(278,668)</u>

The actual return on plan assets was \$1,829,737 (2004: \$4,818,442).

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

29. Retirement Benefit Asset (Continued)

(a) Pension scheme (continued)

Movement in the asset recognised in the balance sheet:

	<u>The Group and The Bank</u>	
	2005	2004
At 1 November	(3,338,827)	(2,977,805)
Total income	(331,768)	(278,668)
Contributions paid	<u>(93,777)</u>	<u>(82,354)</u>
At 31 October	<u><u>(3,764,372)</u></u>	<u><u>(3,338,827)</u></u>

The principal actuarial assumptions used were as follows:

	<u>The Group and The Bank</u>	
	2005	2004
Discount rate	12.5%	12.5%
Expected return on plan assets	10.5%	10.5%
Future salary increases	9.5%	9.5%
Future pension increases	3.5%	3.5%
Average expected remaining working lives (Years)	<u><u>22.5</u></u>	<u><u>22.2</u></u>

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

29. Retirement Benefit Asset (Continued)

(b) Other Post Retirement Benefits

In addition to pension benefits, the Bank offers retiree medical and group life insurance benefits that contribute to the health care and life insurance coverage of employees and beneficiaries after retirement. The method of accounting and frequency of valuations are similar to those used for the defined benefit pension scheme.

In addition to the assumptions used for the pension scheme, the main actuarial assumption is a long-term increase in health costs of 10% per year (2004 – 10%).

The amounts recognised in the balance sheet are as follows:

	The Group and The Bank	
	2005	2004
Present value of unfunded obligations	877,965	394,895
Unrecognised actuarial losses	(551,903)	(130,261)
Liability in the balance sheet	<u>326,062</u>	<u>264,634</u>

The amounts recognised in the statement of revenue and expenses are as follows:

	The Group and The Bank	
	2005	2004
Current service cost	25,374	17,316
Interest cost	51,489	25,744
Net actuarial losses/(gains) recognised in year	3,141	(2,718)
Total included in staff costs (Note 9)	<u>80,004</u>	<u>40,342</u>

Movements in the amounts recognised in the balance sheet:

Liability at beginning of year	264,634	235,183
Total expense, as above	80,004	40,342
Contributions paid	(18,576)	(10,891)
Liability at end of year	<u>326,062</u>	<u>264,634</u>

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

30. Deposits by the Public

	The Group		The Bank	
	2005	2004	2005	2004
Personal	59,812,474	57,117,963	56,057,151	53,703,324

Facility III	1,917,945	-
	<u>4,608,443</u>	<u>3,069,486</u>

- (i) Facility I is a US\$ denominated ten year non-revolving term loan from the parent company, for on-lending. The principal is repayable in ten installments which commenced 31 December 1998. Interest on the loan is at 30 day LIBOR + 1% per annum.
- (ii) Facility II is a US\$ denominated fifteen (15) year non-revolving loan from the parent company, for on-lending. The repayment of the principal commenced 30 June 2003 and is subject to an interest rate of LIBOR + 1% per annum.
- (iii) Facility III is a US\$ denominated five (5) year non-revolving loan from the parent company, for on-lending. The repayment of the principal is to commence 1 June 2006 and is subject to an interest rate of LIBOR + 1% per annum.

The above loan facilities are unsecured.

(expressed in thousands of Jamaican dollars unless otherwise stated)

36. Share Capital

	Number of Units		Total	
	2005	2004	2005	2004
Authorised -				
Ordinary shares of \$1 each	<u>3,000,000,000</u>	<u>1,500,000,000</u>	<u>3,000,000</u>	<u>1,500,000</u>
Issued and fully paid -				
At beginning of year:				
Ordinary stock units of \$1 each	1,463,616,000	1,463,616,000	1,463,616	1,463,616
Movement during the year:				
Bonus issue of ordinary stock				
units/shares of \$1 each	1,463,616,000	-	1,463,616	-
At end of year:				
Ordinary stock units of \$1 each	<u>2,927,232,000</u>	<u>1,463,616,000</u>	<u>2,927,232</u>	<u>1,463,616</u>

The total authorised number of ordinary shares at year end was 3,000,000,000 shares (2004- 1,500,000,000 shares) with a par value of \$1 per share (2004 - \$1 per share). All issued shares are fully paid.

In February 2005, the authorised ordinary share capital of the Bank was increased to \$3,000,000 by the creation of an additional 1,500,000,000 ordinary shares of \$1 each to rank pari passu in all respects with the existing ordinary stocks in the capital of the Bank. Shares totalling 1,463,616,000 units were then issued as fully paid up at par bonus shares by the capitalisation of profits of \$1,463,616 on the basis of one ordinary share for every one ordinary stock unit held.

37. Reserve Fund

	The Group		The Bank	
	2005	2004	2005	2004
Opening balance	1,694,864	1,694,864	1,467,000	1,467,000
Transfer from retained earnings reserve	1,463,616	-	1,463,616	-
Closing balance	<u>3,158,480</u>	<u>1,694,864</u>	<u>2,930,616</u>	<u>1,467,000</u>

In accordance with the regulations under which they operate, certain companies in the Group are required to make transfers of a minimum of 15% or 10% of net profit, depending on the circumstances, to the reserve fund until required statutory levels are attained.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

38. Retained Earnings Reserve

Transfers to the retained earnings reserve are made at the discretion of the Board of Directors. Such transfers must be notified to the Bank of Jamaica and any re-transfer must be approved by the Bank of Jamaica.

39. Cumulative Remeasurement Result from Available-For-Sale Financial Assets

This represents the unrealised surplus or deficit on the revaluation of available-for-sale investments.

40. Loan Loss Reserve

This is a non-distributable loan loss reserve which represents the excess of the loan loss provision over IAS 39 requirements.

41. Other Reserves

	The Group	
	2005	2004
Opening and closing balance:		
Capital reserve arising on consolidation, net	67	67
Reserves of subsidiary capitalised		
through bonus issue of shares	16,548	16,548
General reserve	10,099	10,099

(expressed in thousands of Jamaican dollars unless otherwise stated)

42. Financial Risk Management

By their nature, the Group's activities are principally related to the use of financial instruments. The Group accepts deposits from customers at both fixed and floating rates and for various periods, and actively manages its interest rate exposures with the objective of enhancing net interest income within prudent risk tolerances.

The Group also seeks to raise its interest margins by obtaining competitive margins, net of provisions, through lending to commercial and retail borrowers with a range of credit standing. Such exposures involve not just loans and advances; the Group also enters into guarantees and other commitments such as letters of credit.

The Group also trades in financial instruments where it takes positions to take advantage of short-term market movements in securities prices and in foreign exchange and interest rates. The Board places trading limits on the level of exposure that can be taken in relation to both overnight and intra-day market positions.

(a) Cash flow and fair value interest rate risk

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. The Group takes on exposure to the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. Interest margins may increase as a result of such changes but may reduce or create losses in the event that unexpected movements arise. The Board sets limits on the level of mismatch of interest rate repricing that may be undertaken, which is monitored daily.

The Group is exposed to various risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. The following tables summarise carrying amounts of balance sheet assets, liabilities and equity in order to arrive at the Group's and the Bank's interest rate gap based on earlier of contractual repricing or maturity dates.

Average effective yields by the earlier of the contractual repricing or maturity dates:

- (1) Yields are based on book values and contractual interest adjusted for amortisation of premiums and discounts. Yields on tax-exempt investments have not been computed on a taxable equivalent basis.
- (2) Yields are based on book values, net of allowance for credit losses and contractual interest rates.
- (3) Yields are based on contractual interest rates.
- (4) The calculation of the average yields includes statutory reserves at Bank of Jamaica at 0%.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

42. Financial Risk Management (Continued)

(b) Credit risk

The Group and the Bank take on exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due. Impairment provisions are provided for losses that have been incurred at the balance sheet date. Significant changes in the economy, or in the health of a particular industry segment that represents a concentration in the Group's portfolio, could result in losses that are different from those provided for at the balance sheet date. Management therefore carefully manages its exposure to credit risk. Positions in tradeable assets such as bonds also carry credit risk.

The Group and the Bank structure the levels of credit risk they undertake by placing limits on the amount of risk accepted in relation to one borrower, or groups of borrowers, and industry segments. Such risks are monitored on a revolving basis and subject to an annual or more frequent review. Limits on the level of credit risk by product and industry sector are approved quarterly by the Board of Directors.

The exposure to any one borrower including banks and brokers is further restricted by sub-limits covering on and off-balance sheet exposures. Actual exposures against limits are monitored daily.

Exposure to credit risk is managed through regular analysis of the ability of borrowers and potential borrowers to meet interest and capital repayment obligations and by changing these lending limits where appropriate. Exposure to credit risk is also managed in part by obtaining collateral and corporate and personal guarantees, but a significant portion is personal lending where no such facilities can be obtained. Other than exposure on Government of Jamaica securities, there is no significant concentration of liquid funds.

Credit-related commitments

The primary purpose of these instruments is to ensure that funds are available to a customer as required. Guarantees and standby letters of credit, which represent irrevocable assurances that the Group will make payments in the event that a customer cannot meet its obligations to third parties, carry the same credit risk as loans. Commercial letters of credit, which are written undertakings by the Group on behalf of a customer authorising a third party to draw drafts on the Group up to a stipulated amount under specific terms and conditions, are collateralised by the underlying shipments of goods to which they relate and therefore carry less risk than a direct borrowing.

Commitments to extend credit represent unused portions of authorisations to extend credit in the form of loans, guarantees or letters of credit. With respect to credit risk on commitments to extend credit, the Group is potentially exposed to loss in an amount equal to the total unused commitments. However, the likely amount of loss is less than the total unused commitments, as most commitments to extend credit are contingent upon customers maintaining specific credit standards. The Group monitors the term to maturity of credit commitments because longer-term commitments generally have a greater degree of credit risk than shorter-term commitments.

(c) Currency risk

The Group and the Bank take on exposure to effects of fluctuations in the prevailing foreign currency exchange rates on its financial position and cash flows. The Board sets limits on the level of exposure by currency and in total for both overnight and intra-day positions, which are monitored daily. The main currencies giving rise to this risk are the United States dollar, Canadian dollar and the British pound. The Group ensures that the net exposure is kept to an acceptable level by matching foreign assets with liabilities as far as possible.

The table below summaries the Group's and the Bank's exposure to foreign currency exchange risk at 31 October.

	The Group		The Bank	
	2005	2004	2005	2004
United States dollar (\$ thousands)	11,627	13,386	10,503	12,004
Canadian dollar (\$ thousands)	484	296	484	296
Pound Sterling (£ thousands)	539	2,242	537	2,240

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

42. Financial Risk Management (Continued)

(d) Liquidity risk

The Group and the Bank are exposed to daily calls on their available cash resources from overnight deposits, current accounts, maturing deposits, loan draw downs and guarantees. The Group does not maintain cash resources to meet all of these needs as experience shows that a minimum level of reinvestment of maturing funds can be predicted with a high level of certainty. The Board sets limits on the minimum proportion of maturing funds available to meet such calls and on the minimum level of inter-bank and other borrowing facilities that should be in place to cover withdrawals at unexpected levels of demand.

The tables below analyse assets and liabilities of the Group and the Bank into relevant maturity groupings based on the remaining period at balance sheet date to the contractual maturity dates.

The matching and controlled mismatching of the maturities and interest rates of assets and liabilities is fundamental to the management of the Group and the Bank. It is unusual for banks to be completely matched, as transacted business is often of uncertain term and of different types. An unmatched position potentially enhances profitability, but can also increase the risk of loss.

The maturities of assets and liabilities and the ability to replace, at an acceptable cost, interest-bearing liabilities as they mature, are important factors in assessing the liquidity of the Group and its exposure to changes in interest rates and exchange rates.

Liquidity requirements to support calls under guarantees and standby letters of credit are considerably less than the amount of the commitment because the Group does not generally expect the third party to draw funds under the agreement. The total outstanding contractual amount of commitments to extend credit does not necessarily represent future cash requirements, as many of these commitments will expire or terminate without being funded.

(expressed in thousands of Jamaican dollars unless otherwise stated)

42. Financial Risk Management (Continued)

(e) Market risk

Market risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices whether those changes are caused by factors specific to the individual security, its issuer or factors affecting all securities traded in the market. The Group manages its risk through the Assets and Liabilities Committee which carries out extensive research and monitors the price movement of securities on the local and international markets.

(f) Insurance risk

The Group issues contracts that transfer insurance risk or financial risk or both.

The risk under any one insurance contract is the possibility that the insured event occurs and the uncertainty of the amount of the resulting claim. By the very nature of an insurance contract, this risk is random and therefore unpredictable.

For a portfolio of insurance contracts where the theory of probability is applied to pricing and provisioning, the principal risk that the Group faces under its insurance contracts is that the actual claims and benefit payments exceed the carrying amount of the insurance liabilities. This could occur because the frequency or severity of claims and benefits are greater than estimated. Insurance events are random and the actual number and amount of claims and benefits will vary from year to year from the estimate established using statistical techniques.

Experience shows that the larger the portfolio of similar insurance contracts, the smaller the relative variability about the expected outcome will be. In addition, a more diversified portfolio is less likely to be affected across the board by a change in any subset of the portfolio. The Group has developed its insurance underwriting strategy to diversify the type of insurance risks accepted and within each of these categories to achieve a sufficiently large population of risks to reduce the variability of the expected outcome.

Factors that aggravate insurance risk include lack of risk diversification in terms of type and amount of risk and type of industry covered.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

43. Fair Value of Financial Instruments

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. Market price is used to determine fair value where an active market exists as it is the best evidence of the fair value of a financial instrument. However, market prices are not available for a significant number of the financial assets and liabilities held and issued by the Group. Therefore, for financial instruments where no market price is available, the fair values presented have been estimated using present value or other estimation and valuation techniques based on market conditions existing at balance sheet dates.

The values derived from applying these techniques are significantly affected by the underlying assumptions used concerning both the amounts and timing of future cash flows and the discount rates. The following methods and assumptions have been used:

- (i) financial investments classified as available-for-sale are measured at fair value by reference to quoted market prices when available. If quoted market prices are not available, then fair values are estimated on the basis of pricing models or other recognised valuation techniques;
- (ii) the fair value of liquid assets and other assets maturing within one year is assumed to approximate their carrying amount. This assumption is applied to liquid assets and the short-term elements of all other financial assets and liabilities;
- (iii) the fair value of demand deposits and savings accounts with no specific maturity is assumed to be the amount payable on demand at the balance sheet date;
- (iv) the fair value of variable rate financial instruments is assumed to approximate their carrying amounts; and
- (v) the fair value of fixed rate loans is estimated by comparing market interest rates when the loans were granted with current market rates offered on similar loans. For match-funded loans the fair value is assumed to be equal to their carrying value, as gains and losses offset each other. Changes in the credit quality of loans within the portfolio are not taken into account in determining gross fair values as the impact of credit risk is recognised separately by deducting the amount of the provisions for credit losses from both book and fair values.

The following tables present the fair value of financial instruments based on the above-mentioned valuation methods and assumptions. The following financial assets and liabilities are not carried at fair value.

The Bank of Nova Scotia Jamaica Limited

46. Fiduciary Activities

The Group provides custody, trustee, corporate administration, investment management and advisory services to third parties which involve the Group making allocation and purchase and sale decisions in relation to a wide range of financial instruments. Those assets that are held in a fiduciary capacity are not included in these financial statements. At the balance sheet date, the Group had investment custody accounts amounting to approximately \$34,163,056 (2004 - \$26,506,433).

47. Related Party Transactions and Balances

The Group is controlled by The Bank of Nova Scotia, a company incorporated and domiciled in Canada, which owns 70% of the ordinary stock units. The remaining 30% of the stock units are widely held.

A number of banking transactions are entered into with related parties. These include loans, deposits, investment management and foreign currency transactions. The volumes of related party transactions, outstanding balances at the year end, and relating expenses and income for the year are as follows:

	Directors and key management personnel

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

47. Related Party Transactions and Balances (Continued)

A number of banking transactions are entered into with related parties including companies connected by virtue of common directorship in the normal course of business. These include loans, deposits, investment management and foreign currency transactions. The volumes of related party transactions, outstanding balances at the year end, and relating expenses and income for the year are as follows:

	Connected companies	
	2005	2004
Loans		
Loans outstanding at 1 November	5,376,149	5,808,120
Net loans issued/(repaid) during the year	(483,551)	(431,971)
Loans outstanding at 31 October	<u>4,892,598</u>	<u>5,376,149</u>
 Interest income earned	490,333	655,575
Average repayment term (Years)	5	5
Average interest rate (%)	10.26	11.84
 Deposits		
Deposits outstanding at 1 November	5,566,310	5,766,378

Deposits outstanding at 31 October	<u>5,411,668</u>	<u>5,566,310</u>
 Interest expense on deposits	<u>260,793</u>	<u>247,595</u>

No provisions have been recognised in respect of loans given to related parties.

Pursuant to Section 13 (1), (d) and (i) of the Banking Act, 1992, connected companies include companies with common directors of the Bank and its subsidiaries.

Related credit facilities in excess of the limits of Section 13(1), (d) and (i), subject to the maximum of the limits in Section 13 (1) (e) of the Banking Act are supported by guarantees issued by the parent company.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

48. Litigation and Contingent Liabilities

- (a) The Bank and its subsidiaries are subject to various claims, disputes and legal proceedings, in the normal course of business. Provision is made for such matters when, in the opinion of management and its legal counsel, it is probable that a payment will be made by the Group, and the amount can be reasonably estimated.

In respect of claims asserted against the Group which have not been provided for, management is of the opinion that such claims are either without merit, can be successfully defended or will result in exposure to the Group which is immaterial to both financial position and results of operations.

- (b) On 7 April 1999, a writ was filed by National Commercial Bank Jamaica Limited ("NCB") in which they set out a claim for payment of the sum of US\$13,286,000 in connection with an alleged undertaking given to NCB by Scotia Jamaica Investment Management Limited (formerly Scotiabank Jamaica Trust and Merchant Bank Limited). Legal opinion has been obtained which states that the subsidiary has a strong defence to the claim. Consequently, no provision has been made for this amount in these financial statements.

49. Dividends

At the Board of Directors meeting on 24 November 2005, a dividend in respect of 2005 of \$0.25 per share (2004 - actual dividend \$0.50 per share) amounting to a total of \$731,808 (2004 - \$731,808) is to be proposed. The financial statements for the year ended 31 October 2005 do not reflect this resolution, which will be accounted for in stockholders' equity as an appropriation of retained profits in the year ending 31 October 2006.

The Bank of Nova Scotia Jamaica Limited

Notes to the Financial Statements

31 October 2005

(expressed in thousands of Jamaican dollars unless otherwise stated)

50. Effects of Early Adoption of Revised IFRS

The Group early adopted revised IFRS. The financial statements for the years ended 31 October 2003 and 31 October 2004 (the immediately preceding comparative period) have been restated to reflect the financial position under the revised IFRS. The financial effects of early adoption are set out as follows:

(i) Effect on stockholders' equity as at 31 October 2003:

	Previously stated 2003	Effect of early adoption	Restated 2003
ASSETS			
Cash resources	35,343,233	-	35,343,233

Financial assets previously classified as originated debts in the two preceding years were reclassified to the available-for-sale category. The fair value measurement, as a result of the reclassification, was recognised in the cumulative re-measurement result from available-for-sale financial assets, net of deferred taxation.
