CONSOLIDATED FINANCIAL HIGHLIGHTS

For the three months ended 30 June, 2006

Chairman's Report

I am pleased to report that the Group has achieved another quarter of profitable growth. For the first quarter of the current financial year the Group recorded after-tax profits attributable to shareholders of US\$35 million, an increase of 6.5% over the comparable quarter of the previous year. Diluted earnings per share for the period increased by 6.8% to US 10 cents.

Total assets increased by US\$67 million over the quarter, with

loans and advances increasing by US\$84 million, partially offset by a decline in the investment securities portfolio of US\$18 million. Credit quality remained solid, with non-performing assets as a percentage of total assets improving from 2.2% to 1.9%.

The Group continues to reposition its balance sheet to take advantage of the shifting interest rate environment, and our earnings momentum is expected to increase in the ensuing

quarters as a result of a healthy investment banking deal pipeline, and the consistent growth in loans and advances evident in the current and previous two quarters.

Group Chairman
