## The Jamaica Livestock Association Limited Notes to the Interim Consolidated Financial Statements Quarter ended May 31, 2007

## 1. Group' operations

The principal activities of the group are the sale of animal health products, hardware, lumber, farm equipment and supplies and day-old chicks, transportation and the manufacture and sale of animal feed, the operation of a wharf and grain off-loading facilities.

The operations of JLA Feeds Limited and JLA Hatchery Limited are carried out by the company with effect from September 1, 2005. All of the property, assets and rights of JLA Feeds Limited and JLA Hatchery Limited have been transferred and vested in The Jamaica Livestock Association Limited by virtue of a court order dated November 9, 2006. The Company and its subsidiary are incorporated and domiciled in Jamaica.

### 2. Basis of preparation

These financial statements have been prepared in accordance, and comply with, International Financial Reporting Standards (IFRS) and their interpretations adopted by the International Accounting Standards Board, and have been prepared on the historical cost basis modified for the inclusion of certain available-for-sale investments at fair value.

The accounting policies used in the preparation of the interim consolidated financial statements are consistent with those used in the year-end audited consolidated financial statements.

#### Gross operating revenue

Gross operating revenue represents the invoiced value of sales by the Group net of returns and General Consumption Tax.

### 4. Accounting policies

The following new accounting policies have been reflected in these financial statements in compliance with IFRS.

#### (a) Deferred taxation

Deferred income tax is provided in full, using the liability method, on temporary differences between the tax bases of assets and liabilities and their carrying amounts. A tax asset is reflected for unutilised tax losses only to the extent that reversal can reasonably be expected.

#### (b) Investments

The Group's investments are initially recognized at cost and classified at the time of purchase in accordance with IFRS.

Available for sale investments are subsequently remeasured at fair value. Unrealised gains or losses arising from changes in fair value are taken to investment revaluation reserve.

#### (c) Property, plant and equipment:

Property, plant and equipment are stated at cost or deemed cost less accumulated depreciation and impairment losses.

## The Jamaica Livestock Association Limited Notes to the Interim Consolidated Financial Statements Quarter ended May 31, 2007

### Accounting policies (cont'd)

### (d) Employee benefits

Employee benefits comprise pension and post-retirement life insurance benefits. The group's net obligation in respect of defined benefit pension plan is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and future periods; that value is discounted to determine the present value, and the fair value of the plan assets deducted.

Where the fair value of plan assets exceed the present value of the obligation, a pension asset is is recorded to the extent of economic benefits which can be obtained in the form of reduction in future contributions to the plan. The obligation is calculated using the projected unit credit method.

The obligation in respect of post retirement benefit is computed on a basis similar to that for the defined benefit pension plan.

### (e) Segment reporting

The Group is organised into three business segments which provide products that are subject to risks and returns dissimilar to each other:

- a. Animal feed milling, manufacture and sale of animal feeds;
- b. Poultry production and sale of day old chicks.
- c. Merchandise sale of animal health products, hardware, lumber, and farm equipment.

### Segment results

	\$'000
Sales	
Animal feeds	370,569
Poultry	112,283
Merchandise	149,984
	632,836
Profit before tax	200
Animal feeds	(697)
Poultry	(441)
Merchandise	281
	(857)

#### 6. Taxation

Taxation on the consolidated profit and loss account comprises deferred tax charge for the period.

### 7. Earnings/(loss) per stock unit

The calculation of earnings/(loss) per stock unit is based on the group's net profit/(loss) for the period and 57,452,517 preference stock units in issue.

## The Jamaica Livestock Association Limited Notes to the Interim Consolidated Financial Statements Quarter ended May 31, 2007

### 8. Dividends

These represent amounts paid on  $7 \frac{1}{2}$ % preference stock units of the company. These dividends are an allowable charge for taxation purposes in accordance with the provisions of the Income Tax Act.

On behalf of the Board

John Masterton

Director

Henry Rainford Director
