DIRECTORS' STATEMENT

PERFORMANCE

The Group's performance for the first half of 2008 was consistent with the prior year period, despite the challenges associated with global increases in energy costs, freight rates and other input costs. Notwithstanding these challenges, sales volume for the six months grew by 4% over the corresponding prior year period, resulting in increased revenue of \$119.3 million or 12% reflecting a continuation of favourable market conditions.

Trinidad Cement Limited and Readymix (West Indies) Limited surpassed their 2007 performances, while Caribbean Cement Company Limited (CCCL) maintained its level of profitability. However, Arawak Cement Company Limited (ACCL) continued to face rising input costs, amplified by the removal of the petroleum subsidy by the Barbados Government in April 2008. In addition, issues centred around the new petcoke fuel system negatively affected production. These factors undermined ACCL's ability to meet its targets for the half year and as a consequence the Group's earnings per share for the period was negatively impacted by approximately 7 cents earnings per share. The technical issues relating to the new fuel system at Arawak Cement Company Limited have been corrected and a price adjustment will be implemented from August 2008.

For the half year, the Group generated cash from operations of \$249.3 million and invested \$237 million, mainly in its expansion project at CCCL in Jamaica. Our debt to equity ratio at the half year was 87 percent which represented an improvement over the 93% reported for the first quarter.

OUTLOOK

Price adjustments will be implemented in all our markets where deemed necessary to mitigate the rising input costs. Commissioning of CCCL's Kiln 5 process commenced on 11th July, 2008 and clinker production is expected during the first week of August. Construction works for the new Mill 5 are progressing smoothly and the completion date for this plant is now scheduled for the first quarter of 2009. With these developments, we fully expect to exceed our first half performance in the second half of 2008.

Notes:

1. Accounting Policies

Accounting policies used in the preparation of these financial statements are consistent with those used in the audited financial statements for the year ended December 31, 2007.

2. Earnings Per Share

Earnings per share (EPS) is calculated by dividing the net profit attributable to shareholders of the Parent by the weighted average number of ordinary shares outstanding during the period. The weighted average number of ordinary shares in issue for the period has been determined, by deducting from the total number of issued shares of 249.765M, the 4.617M (2007: 5.087M) shares that were held as unallocated shares by our ESOP.
