Dear Mrs. Street-Forrest:

The third quarter of 2010 has been a very difficult period for the TCL Group as construction activity across the region has been severely constrained in the context of the current macroeconomic environment. In the face of weak demand in the Group's domestic markets, there has been a fairly successful export thrust which has resulted in new markets being opened up and significant increases in the volume of cement being exported. Nevertheless, the increase in exports has not compensated for the decline in domestic demand.

Given the uncertainty of the regional economic environment the Group is pursuing specific initiatives in respect of the operations of its subsidiaries which, once they materialize, are likely to have a significant positive impact on the outlook for the short, medium and longer term future.

In reporting to stakeholders on these initiatives as an essential element of their stewardship responsibility, the Board has fixed Friday, December 3rd 2010 as the date for approval of the third quarter results. Accordingly, we wish to request an extension on the 45 day time limit for submission of the Group's third quarter results until Monday, December 6th 2010 in respect of both **Trinidad Cement Limited** and **Caribbean Cement Company Limited**. The third quarter 2010 financial statements for these Companies will be submitted to the exchange by the afternoon of December 3rd and will be published in the regional media commencing Monday December 6th, as is our customary practice.

We thank you for your kind consideration and look forward to your favourable response.

Yours faithfully
TCL GROUP
