The Board of Directors of Kingston Properties Limited ("KPREIT") is pleased to present the Group's unaudited statements of comprehensive results for the Three Months Ended March 31, 2012.

Three Months Ended March 31, 2012

For the three months ended March 31, 2012, revenues comprising rental and maintenance income increased by 111% to \$22 million. This reflects primarily the addition of the Red Hills Road property, the purchase of which was completed in December, 2011.

Operating expenses were \$11.4 million for the three months ended March 31, 2012 compared to \$7.4 million for the similar period a year ago. Operating expenses consist of two primary components:

- 1) Direct property expenses such as condo association fees, property taxes, insurance, broker fees and repair and maintenance costs.
- 2) Corporate expenses

Direct property expenses were \$7.1 million or 32% of revenues in the March quarter. This compares with 40% of revenues in the March 2011 quarter of last year. Corporate expenses were 19.7% of revenues, a significant decline from the 31.2% in the comparable quarter last year.

Operating Profits

Overall operating profits were \$10.6 million, up 255% from the approximately \$3 million generated in the March 31, 2011 quarter. The primary contributor was the addition of a new property to the portfolio.

Net Operating Income

A measure that evaluates the profitability of a real estate company is Net Operating Income or NOI. This is calculated as the recurring property-related rental and maintenance revenues received, less property operating expenses such as utilities, insurance, home owners association fees and real estate taxes, but before financing charges such as interest and corporate overhead.

Kingston Properties Limited

For the three months ended March 31, 2012, NOI improved to 58.2% of revenues from 49.6% year-on-year continuing the upward trend.

Profits after-taxes were \$3.6 million versus \$2.9 million for the comparative period, an increase of approximated 23%.

Total comprehensive income which includes foreign currency translation differences for foreign operations was \$7.4 million for the first three months in 2012 versus \$3.1 million in the comparative period in 2011. This reflects primarily the impact of the depreciation in the Jamaican dollar versus the USD on the company's non-financial USD assets.

Earnings Per Share ("EPS") for the quarter were 5 cents compared with 4 cents for the comparable quarter, an increase of 25%.

Dividends declared in the March 2012 quarter was \$6.1 million and represents \$0.09 per share.

Summary and Outlook

Our property investments in the US continue to do well. Occupancy remains high within a range of 95 to 100%, thus contributing to rental increases. Property valuation has shown gains as well. A recent report from the Miami Association of Realtors showed that a limited supply of properties for sale and heightened demand have been fueling robust price rises in Miami in the first quarter of 2012. The median sales price for condominiums was US\$129,500, a 38% increase year on year.

In Jamaica, our property investments continue to perform as budgeted. Overall, rents are being collected on-time and tenant relations remain strong. We have also seen some increase in valuations.

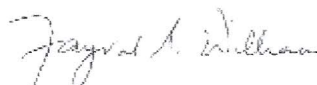

Looking forward, the flow of investment property deals is strong and we continue to do our due diligence in screening a variety of potential transactions.

Once again, thanks to all our stakeholders for your continued support.

Respectfully,

Garfield Sinclair
Chairman of the Board of Directors

Fayval Williams
Executive Director
