The adjustment in prices is to recover increases in input costs that we have faced over the past months.

As we move forward into a new year, we wish to express our gratitude to you for your support during 2013. Indications are that the Jamaican economy has moved back to positive growth. For the first time since 2010, the US, Japan, the Euro Zone and the UK are all set for synchronised growth. All this augurs well for the New Year, reduced volatility and sustained growth.

On behalf of the Carib Cement family, I want to wish for you and your families a safe and prosperous holiday season.

Regards,

 F.L.A. Haynes
