

**Disclosure
March 20th, 2014**

This is to confirm that as of September 2013 to the current time, executive salaries were not paid out and therefore did not impact on the company's cash flow.

Due to financial performance, as of October 2013 to the current time, the executive salaries were then reduced by 75% and have been accrued but not paid out.

The compensation committee will meet in due course to discuss the writing off of the total accrued amounts as referred to above.

The Company continues to focus on managing expenses and revenue generation through effective placement and exploitation of its Copyrights.

As per previous advisories, the Company anticipates to recognize improved revenues by the ending of the 2nd quarter of 2014.
