**REPORT OF THE BOARD OF DIRECTORS
UNAUDITED FINANCIAL STATEMENTS AS AT 31ST MARCH 2015**

The Board of Directors of Supreme Ventures Limited announces the unaudited financial results for the three-month period, 1st January 2015 to 31st March 2015.

The Group's total revenues grew by 14.61% for the three-month financial period to \$11.775B or a \$1.501B increase, compared to \$10.274B in total revenues for the corresponding period in 2014.

The Group's net profit after tax was \$405.169M for the three-month period, which represents a 19.84% increase, when compared to \$338.085M in net profit after tax for the comparative three-month period of 2014. The increase in net profit after tax was primarily attributable to a steady growth in lottery revenues for the more popular games and the positive contribution of the two newest games to the portfolio, Money Time and Top Draw.

The Group's financial performance for the quarter was also assisted by the containment of operating expenses, which essentially remained in line with the prior year (declining by 0.1%), despite inflation.

Earnings per stock unit for the quarter was 15.36 cents, when compared to 12.82 cents for the corresponding period in 2014.

SEGMENT RESULTS

The Lottery segment results show year-over-year improvement of \$67.989M or 11.1%. This is mainly attributable to the increased revenues from the games and the Cash Pot game liability performing within the game design.

The Sports Betting segment results show an increase in losses of \$12.238M or 37.1%, which was primarily attributable to higher than designed prize payouts at 75%. The prize liability for the corresponding period in 2014 was 61.29%. The popular sporting events during the quarter were related to the NFL playoffs, Super Bowl, English Premier League, UEFA Champions League and the NBA.

The Gaming and hospitality segment results show a \$103.394 or 68.7% reduction in losses due to the net effect of the closure of Acropolis Montego Bay, Odyssey and The Castle gaming lounges.

DIVIDENDS

A total of \$712.059M in dividends was distributed to shareholders, in the quarter under review.

The Board of Directors met on 30th April 2015 and has approved the payment of an interim dividend of \$0.14 to shareholders on record as at 14th May 2015. The distribution will be made on 27th May 2015.

Shareholders will also receive on 27th May 2015, the balance of \$0.04 from the special dividend of \$0.23 that was declared on 2nd March 2015. \$0.19 of this special dividend was distributed on 20th March 2015.

ANNOUNCEMENT

The Company will have its Annual General Meeting on Thursday – 28th May 2015 at the Knutsford Court Hotel in the Grand Caribbean Suite, 11 Ruthven Road, Kingston 10 commencing at 10:00am.

The Board of Directors continues to be thankful to all its stakeholders for the commitment and support they continue to show in Supreme Ventures Limited.

In addition to the entities above, the Group also includes Jamaica Lottery Company Limited, which has been placed into members' voluntary liquidation.

2. Statement of compliance and basis of preparation

(a) Statement of Compliance

These unaudited interim financial statements have been prepared in accordance with IAS 34, *Interim Financial Reporting*. The accounting policies followed in these interim financial statements are consistent with those used in the audited financial statements for the year ended December 31, 2014.

(b) Basis of measurement

The financial statements are prepared on the historical cost basis, except for the inclusion of available-for-sale investments at fair value.

(c) Functional and presentation currency

The financial statements are presented in Jamaica dollars (\$), which is the functional currency of the Group.

2. Statement of compliance and basis of preparation (continued)

(d) Use of estimates and judgements

The preparation of the financial statements to conform with IFRS requires management to make estimates and assumptions that affect the reported amount of, and disclosures relating to assets, liabilities and contingent assets and contingent liabilities at the reporting date. Actual amounts could differ from those estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised, and future years, if the revision affects both current and future periods.

Judgements made by management in the application of IFRS that have a significant effect on the financial statements and estimates with a significant risk of material adjustment in the next financial period are presented below:

(i) Allowance for impairment losses on receivables

In determining amounts recorded for impairment of accounts receivable in the financial statements, management makes judgements regarding indicators of impairment, that is, whether there are indicators that suggest there may be a measurable decrease in the estimated future cash flows from accounts receivable, for example, repayment default and adverse economic conditions. Management also makes estimates of the likely estimated future cash flows from impaired accounts receivable, as well as the timing of such cash flows. Historical loss experience is applied where indicators of impairment are not observable on individual significant accounts receivable and total trade accounts receivable with similar characteristics, such as credit risks.

(ii) Residual value and expected useful life of property and equipment

The residual value and the expected useful life of an asset are reviewed at least at each reporting date, and, if expectations differ from previous estimates, the change is accounted for. The useful life of an asset is defined in terms of the asset's expected value-in-use.

(iii) Impairment of intangible assets

Impairment of intangible assets is dependent upon management's internal assessment of future cash flows from these cash-generating units that gave rise to the goodwill. That internal assessment determines the amount recoverable from future use of those units. In addition, the estimate of the amount recoverable from future use of those units is sensitive to the discount rates used.

(e) Where necessary, comparative amounts have been reclassified to conform with changes in the presentation in the current reporting period.

3. Significant accounting policies

(a) Property and equipment

Items of property and equipment are stated at cost, less accumulated depreciation and impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the assets. With the exception of freehold land on which no depreciation is provided, all items of property and equipment are depreciated on the straight-line basis at annual rates estimated to write down the assets to their residual values over their expected useful lives.

No depreciation is provided on freehold land, art and paintings.

The depreciation methods, useful lives and residual values are re-assessed at each reporting date.

(b) Intangible assets

(i) Goodwill

Goodwill represents amounts arising on acquisition of subsidiaries and other business ventures. It comprises the excess of the cost of the acquisition over the fair value of the net identifiable assets acquired.

Goodwill is stated at cost, less any accumulated impairment losses. Goodwill is allocated to cash-generating units and is tested annually for impairment. Negative goodwill arising on acquisition is recognised directly in profit or loss.

(ii) Licences

Licences and permits with finite useful lives are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation methods, useful life and residual value are reviewed at each reporting date and adjusted if appropriate, with the effect of any changes in the estimate being accounted for on a prospective basis. Amortisation is charged on the straight-line basis over its estimated useful life.

Licences and permits with indefinite useful lives are carried at cost less accumulated impairment losses. The useful lives of such assets are reviewed at each reporting date to determine whether events and circumstances continue to support an indefinite useful life assessment for those assets. If they do not, the change in the useful life assessment from indefinite to finite is accounted for as a change in an accounting estimate.

(iii) Other intangible assets

Other intangible assets are stated at cost less accumulated amortisation and accumulated impairment losses. Amortisation is charged on the straight-line basis over its estimated useful life. Amortisation methods, useful life and residual value are reviewed at each reporting date and adjusted if appropriate, with the effect of any changes in the estimate being accounted for on a prospective basis.

(iv) De-recognition of intangible assets

An intangible asset is de-recognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from the de-recognition of an intangible asset, measured as the difference between the net proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is de-recognised.

3. Significant accounting policies (continued)

(c) Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, deposits held at call or on demand with banks. Cash equivalents are short-term, highly liquid financial assets that are readily convertible to known amounts of cash, are subject to an insignificant risk of change in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes. These include certificates of deposits where the maturities do not exceed three months from the date of acquisition. Cash and cash equivalents are carried at amortised cost.

4. Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. An operating segment's results are reviewed regularly to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results are reported to the Group's executive management (collectively considered the chief operating decision maker) which includes items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

All transactions between business segments are conducted on an arm's length basis, with inter-segment revenue and cost eliminated on consolidation. Income and expenses directly associated with each segment are included in determining business segment performance.

5. Contingencies – Litigations

Epsilon Global Equities:

On December 15, 2008 a civil suit was filed by Epsilon Global Equities Limited (Epsilon) citing as defendants the Company and its founding stockholders. The matter was decided in 2011, with a judgment in favour of the stockholders and the Company. Epsilon appealed the judgment. It is expected that the appeal will be heard in April, 2015. Attorneys representing the defendants expect the Company to succeed and that the appeal will not result in a financial liability to the Company.

Talisman Capital Alternative Investment Fund and EGE Limited:

In August 2012, a civil suit was filed in the Courts of Florida, USA, by Talisman Capital Alternative Investment Fund and EGE Limited citing as defendants the Company and certain of its shareholders. This suit is in respect of most of the same issues decided in the Supreme Court in Jamaica in favour of the Company and some of its shareholders (see above).

In April 2013, the Federal Bankruptcy Court in Florida granted a motion by SVL and other defendants to dismiss the complaint. The plaintiffs then filed objections to the dismissal. Subsequently, the court granted a motion by SVL and other defendants to strike the objections. The plaintiffs then moved for reconsideration of the order. The court denied the plaintiffs motion for reconsideration. The plaintiffs have appealed this order. Briefs and supplemental submissions have been filed by all of the parties. It is expected that the Court will rule on the plaintiffs' appeals by the end of the year.

The attorneys representing SVL in the USA expect its position to be continued to be upheld by the Florida Courts.
