BACKGROUND:

The Jamaica Stock Exchange (JSE) in its effort to facilitate creative, innovative and fun ways to introduce the elements of the stock market trading to all ages, in 2008 introduced and launched a Virtual Stock Market Trading Game (SMG). The JSE Stock Market Game is a simulation game that aids in better understanding the stock market and how it works.

Students

The Stock Market Game for High Schools is aimed at students in 4th to 6th forms. It is designed to strengthen students' critical thinking skills while building confidence and self-esteem. Most importantly, the stock market game will instil an understanding of the need to save and invest at an early age and prepare students leaving high school with the basic knowledge of how to buy and sell shares. The JSE also facilitate the Young Investor Game for All Media Group.

Teachers

This new format of the Game was recently developed to generate interest among high school teachers on how to create wealth through the buying and selling of shares on the market. The SMG has shown potential in motivating teachers to better plan for their future and to engage in financial planning, research, and use of investment products and services.

HERE'S HOW IT WORKS

1) REGISTER

Access to the game is through the JSE's website.

<https://www.jamstockex.com>

The Game is open to four (4) students and one (1) teachers from each secondary school (registered with the Ministry of Education).

2) VIRTUAL CASH

Students/Teachers are challenged to develop a successful investment portfolio by investing a virtual \$100,000 over seven months.

3) PARTICIPATION

User roles are defined to ensure transparency and authorized access. There are two user roles available, Student and Teacher Entrant. Students will work in teams of four to investigate and gather news and data on potential investments.

4) ACADEMIC ENRICHMENT

Students utilize a broad range of informational texts and evaluate current events as an integral part of the Stock Market Game experience. Students/teachers can access company information from the JSE's and Listed Companies' websites, annual reports and newspaper articles.

5) ADMINISTRATION

- The JSE new trading platform is akin to the JSE Online Trading platform in that all trades attract fees as well as General Consumption Tax.
- Administration and monitoring of the game will be done by selected members of the JSE and will be governed by the rules outlined.
- Each participant can view/update their own portfolio.

6) EASY TO LEARN

The JSE and Sagicor Investments will provide an instruction video to assess students and teachers to register and understand how the platform works.

BASIC OPERATIONS AND RULES:

1. The game is open to four (4) students and one (1) teacher from each secondary school (registered with the Ministry of Education).
2. Students registering for the game must be associated with a school and must be supervised by a teacher to be involved in the SMG.
3. Each participant must be a holder of a Sagicor Investment Management Account (SIMA).
4. The following persons are **not eligible** to apply:
 - a. Persons working at the Jamaica Stock Exchange, Member Dealers or any other equity firm
 - b. Relatives of individuals working the any of the above entities
5. The person or persons with the highest portfolio value after seven months from the start date will be declared the winner/s.
6. Individuals can enter by registering on the Jamaica Stock Exchange's website www.jamstockex.com
7. The competition will run for a seven (7) month period; October April, after which the JSE will determine the winner.
8. Each student and teacher is given a portfolio with JA\$100,000 virtual money to invest and the students and teachers with the highest individual portfolio values at the end of the period are declared the winners. The school (students only) with the highest aggregate is crowned as the **JSE Sagicor Investments School Champion**.
9. Stock prices are based on real time market prices during the hours of 9:30 a.m. to the close of the market at 1 p.m.
10. Trading can be done 24/7, however portfolios will be updated when the Market opens.
11. Selection of stocks for the portfolio after the close of the market will be based on the day's Closed Price.
12. The portfolio trading represents 'true' activities in the market.
13. Portfolio value will be based on the end of day real prices.
