Independent Auditor's Report

To the Members of
Paramount Trading (Jamaica) Limited

Our opinion

We have audited the financial statements of Paramount Trading (Jamaica) Limited ("the Company") which comprise the statement of comprehensive income, the statement of financial position as at May 31 2020, the statement of cash flows and the statement of changes in equity for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

In our opinion, the financial statements give a true and fair view of the financial position of the Company as at May 31 2020, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS) and the requirements of the Jamaican Companies Act.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under these standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company within the meaning of the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements. Key audit matters are selected from the matters communicated with the Audit Committee members (those charged with Governance) but are not intended to represent all matters that were discussed with them. These matters are addressed in the context of our audit of the financial statements as a whole and informing our opinion thereon. We do not provide a separate opinion on these matters. During our work, we encountered one key audit matter that required disclosure.

Independent Auditor's Report (continued)

Key Audit Matters (continued)

Impairment provision for receivables

See notes 2 (i), 4 (a) (ii) and 17 to the financial statements for management's disclosures of related accounting policies, judgments, and estimates.

As of May 31 2020, trade receivables amounted to \$243 Million with an impairment provision of \$25 Million, representing 10.3% of the balance. With a profit after tax of \$53 Million, the accounts receivable represents a credit risk.

Effective January 1 2019, the Company adopted the accounting standard IFRS 9, 'Financial Instruments.' The standard introduced new requirements around two main aspects of how financial instruments are treated, namely, measurement & classification and impairment. Concerning impairment, the standard prescribes a new forward-looking expected credit loss ('ECL') impairment model, which takes into account reasonable and supportable forward-looking information and will generally result in the earlier recognition of impairment provisions.

The introduction of the new standard required the Company to build and implement new models to measure the expected credit losses for relevant financial assets, with the most significant impact on loans and receivables and investments. The standard is new and complex, and the determination of the ECL model is subjective and requires management to make significant judgments and estimates.

We obtained the Company's accounting calculations, as they relate to developing the IFRS 9 model, and assessed the reasonableness of estimates and judgments used in the calculations. We also evaluated the methodology used to arrive at the IFRS 9 model, including:

- Model development
- Key assumptions, judgments and forward-looking assumptions used in the ECL model
- We found that these key controls, along with the assumptions used in developing the model, produced reasonable and acceptable results. Therefore, we determined that we could place reliance on the model for our audit.

We focused on the method used by management to determine the necessity for a provision against long outstanding debts and customers who are experiencing financial difficulties. We discussed and reviewed the impaired balances and reviewed correspondence with the customers along with agreements reached and the level of subsequent payments after the year-end.

We assessed and tested the fairness of the receivable balances by positive confirmation of specific customers along with reviewing payment pattern and determined that the reported balances were fairly stated. We reviewed subsequent payments and evaluated the payment arrangements with customers experiencing financial challenges due to the COVID-19 pandemic, and determined that the additional amounts provided against possible bad debts was reasonable.

Independent Auditor's Report (continued)

To the Members of
Paramount Trading (Jamaica) Limited

Key Audit Matters (continued)

Impairment provision for receivables (continued)

Management has implemented several measures to enhance the Company's credit strategy, including strengthening the credit policy in its retail division. We evaluated the performance of the receivables, reviewed the ECL model obtained from management, had discussions with management and reviewed the new policies established along with assessing subsequent receipts to determine whether there was any requirement for further adjustment to the impairment provision.

Based on our work, we consider the impairment provision of \$25 million to be reasonable and additional provision of \$10 million for the current year was considered to be fair.

Responsibilities of Management and the Board of Directors for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view in accordance with IFRS and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or cease operations or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

Independent Auditor's Report (continued)

To the Members of
Paramount Trading (Jamaica) Limited

Auditor's Responsibility for the Audit of the Financial Statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatements, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with International Standards on Auditing (ISA) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit to design audit procedures that are appropriate in the circumstances, but not to express an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves a fair presentation.
- We are not responsible for the direction, supervision, and performance of the Company. We remain solely responsible for our audit opinion.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Independent Auditor's Report (continued)

To the Members of
Paramount Trading (Jamaica) Limited

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

We communicate with the Board of Directors of the Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are, therefore, the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosures about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Information

Management is responsible for the other information. The other information comprises the Annual Report inclusive of the Director's, Chairman of the Board and the Chief Executive Officer Reports but does not include the financial statements and the Auditor's Report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information, and we do not express any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appear to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Independent Auditor's Report (continued)

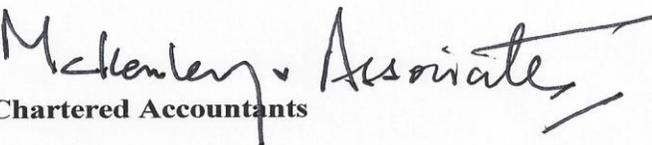

To the Members of
Paramount Trading (Jamaica) Limited

Report on Other Legal and Regulatory Requirements

As required by the Jamaican Companies Act, we have obtained all the information and explanations, which, to the best of our knowledge and belief, were necessary for our audit.

In our opinion, proper accounting records have been kept, so far as appears from our examination of those records, and the accompanying financial statements are in agreement therewith and give the information required by the Jamaican Companies Act, in the manner so required.

The engagement partner on the audit resulting in this independent auditor's report is Wilfred McKenley.

Paramount Trading (Jamaica) Limited
Notes to the Financial Statements
31 May 2020

1. IDENTIFICATION AND PRINCIPAL ACTIVITIES

Paramount Trading (Jamaica) Limited was a private company limited by shares, incorporated in 1991 and domiciled in Jamaica. Effective December 31 2012, the Company's shares were listed on the Junior Market of the Jamaica Stock Exchange (JSE). The registered office of the Company is located at 39 Waltham Park Road, Kingston 13.

The principal activity of the Company is the importation and distribution of chemicals, lubricants, and other related products. The Company also provides haulage services.

The Company acquired a franchise with a recognized international company, Allegheny Petroleum Products to distribute lubricants. Also, the Company entered into arrangements with another international company to distribute "SIKA" branded hardware products. The products include anchoring adhesives and sealants principally distributed to the commercial hardware market.

In January 2018 the Company deepened its relationship with its supplier of lubricants and commenced blending operations at the plant located at 39 ¼ Waltham Park Road. In November 2019, the Company redefined its relationship with Allegheny Petroleum Products Company ("Allegheny") through a License Agreement and Supply and Distribution Agreement. The License Agreement permits the Company to use formulae, trademarks and related know-how exclusively for the manufacture of certain Allegheny lubricants in Jamaica with exclusive distribution rights to all member states of the Caribbean Community.

During the year, the Company also completed an Asset Purchase Agreement with Allegheny to acquire the rights, title and interest for all the assets that were used in constructing and equipping of the plant located and operated at 39 ¼ Waltham Park Road.

Items included in the financials are measured using the functional currency of the primary economic environment in which the Company operates. The financial statements are presented in Jamaican dollars, which is the Company's functional and presentation currency.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") using the accounting policies described herein. These policies have been consistently applied for all the years presented, unless otherwise stated.

Going concern

The preparation of financial statements in accordance with IFRS assumes that the Company will continue in operation for the foreseeable future. This means, in part, that the statements of profit or loss and comprehensive income and the statement of financial position are prepared on the assumption that there is no intention or necessity to liquidate or curtail operations. This is commonly referred to as the going concern basis. Management believes that the preparation of the financial statements on the going concern basis continues to be appropriate.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Basis of preparation (continued)

Basis of presentation

The financial statements have been prepared on the historical cost basis, except for the following items, which are measured at fair value:

- Financial instruments at fair value through profit or loss;
- Revaluation of certain property, plant and equipment.

Revenues and expenses

Revenues and expenses are recorded on the accrual basis, whereby transactions and events are recognized in the period in which the transactions and events occur, regardless of whether there has been a receipt or payment of cash or its equivalent.

Judgments and estimates

The preparation of the financial statements in accordance with IFRS requires management to make judgments and estimates that affect:

- The application of accounting policies;
- The reported amounts of assets and liabilities;
- Disclosures of contingent assets and liabilities; and
- The reported amounts of revenue and expenses during the reporting periods.

Actual results may differ from estimates made in the financial statements.

Judgments are made in the selection and assessment of the Company's accounting policies. Estimates are used mainly in determining the measurement of recognized transactions and balances. Estimates are based on historical experience, and other factors, including expectations of future events, believed to be reasonable under the circumstances. Judgments and estimates are interrelated.

Management's judgments and estimates are continually re-evaluated to ensure they remain appropriate. Revision to accounting estimates is recognized in the period in which the estimates are revised and in the future periods affected. The use of estimates is an essential part of the preparation of financial statements and does not undermine their reliability.

The following are the accounting policies that are subject to judgments and estimates that the Management believes could have the most significant impact on the amounts recognized in the financial statements.

Financial assets

Judgment – financial assets are classified and subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss based on (i) the company's business model for managing the financial assets and (ii) the contractual cash flow characteristic of the financial assets. Judgment is required in determining the business model and its objective.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Basis of preparation (continued)

Judgments and estimates (continued)

Revenue from contract with customers

Judgment – is required in (i) identifying performance obligations and determining the timing of the satisfaction of the performance obligations and (ii) the transaction price and the amount allocated to the performance obligations.

Estimation – if the consideration promised in a contract includes a variable amount, the company is required to estimate the amount of consideration to which it will be entitled in exchange for transferring the promised goods or services to the customer.

Impairment of assets

Judgment has been used, at each reporting date, in determining whether there has been an indication of impairment in the carrying amounts of the Company's tangible and intangible assets, which would require impairment testing to determine whether there is any indication that those assets have suffered impairment losses.

Where the carrying amount of an asset exceeds the recoverable amount, the asset is considered impaired and is written down to its recoverable amount. The recoverable amount of an asset is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Impairment losses are recognized in comprehensive income. This is reversed only if there has been a change in the estimates used to determine the recoverable amount and not to exceed the original carrying amount before its impairment. The reversal is also recognized in the statement of comprehensive income.

Inventories

Estimation – Inventories are carried at the lower of cost and net realized value. The estimation of net realized value is based on the most reliable evidence available, at the time the estimates are made, of the amount the inventories are expected to realize. Additionally, estimation is required for inventory provision due to shrinkage, slow-moving, and obsolescence.

Income and other taxes

Judgment – Income and other taxes are subject to Government policies. In calculating current and recoverable income and other taxes, Management uses judgment when interpreting the tax rules and in determining the tax position. There are some transactions and events for which the ultimate tax determination is uncertain during the ordinary course of business

Estimation – Income and other taxes are subject to Government policies, and estimates are required in determining the provision. Management recognizes liabilities for possible tax issues based on estimates of whether additional taxes may be due.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Basis of preparation (continued)

Judgments and estimates (continued)

Receivables – allowance for impairment losses on trade receivables

Estimation –

Allowances are determined upon the origination of the trade accounts receivable based on a model that calculates the expected credit loss (ECL) of the trade receivables. Under the ECL model, the Company segments its accounts receivable in a matrix by the days due. It determines for each age bracket an average rate of ECL, taken into account history, actual credit loss experience over the last 60 months and analysis of potential future delinquency of each customer balance.

The average ECL rate increases in each segment of “days past due” as the days outstanding on the receivable balance increase and is reclassified to another age bracket. The use of future assumptions, based on experience, that is applied to the balance makes uncertainty inherent in these estimates.

Post-employment benefits

Estimation – The accounting for the Company’s post-employment benefit plan requires the use of assumptions. The Individual Retirement Account (“IRA”) requires the Company to match the employees’ contributions to the plan. Management’s best estimates of future salary escalations, retirement ages of employees, employees’ turnover, and contribution rates by employees are required.

Investment property

Judgment – Management applies judgment in determining whether a property qualifies as an investment property. Criteria are developed to allow management to exercise that judgment consistently.

Others

Estimation – Other estimates include determining the useful lives of PPE for depreciation; in accounting for and measuring payables and accruals and in measuring fair values of financial instruments.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Basis of preparation (continued)

Standards, interpretations, and amendments to published standards effective in the current year.

Certain amendments and clarifications to existing standards have been published that became effective during the current financial year. The Company has assessed the relevance of all such new amendments and clarifications and has put into effect the following, which are immediately relevant to the Company's operations. They include:

IFRS 16, Leases

In January 2016, the IASB issued IFRS 16 –Leases, which replace IAS 17 – Leases and related interpretations. IFRS 16 provides a single lessee accounting model, requiring the recognition of assets and liabilities for all leases unless the lease term is 12 –months or less or the underlying assets have a low value. IFRS 16 substantially carries forward the lessor accounting in IAS 17 with the distinction between operating and finance leases being retained.

The Company has been in the process of reviewing all of its leasing arrangements, and IFRS 16 was applied for annual periods beginning on or after January 1 2019. The Company principally accounted for its leases of motor cars as finance leases while the Company owns the buildings and other heavy-duty trucking equipment.

The most significant impact identified by the Company was to recognize new assets and liabilities for its operating leases of factory spaces. In addition, the nature of expenses related to these leases will now change as IFRS 16 replaces the straight-line operating lease expense with a depreciation charge for the right of use assets and interest expense on lease liabilities.

On the date of initial application of IFRS 16, the Company recognized the right of use assets and lease liabilities of approximately \$92.5 Million respectively. See note 14 and 20.

Standards, amendments, and interpretations to existing standards that are not yet effective and have not been early adopted by the Company

Amendment to IAS 1, Presentation of Financial Statements and IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors is effective for annual periods beginning on or after January 1, 2020, and provides a definition of “material” to guide preparers of financial statements in making judgments and information to be included in financial statements.

“Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general-purpose financial statements make based on those financial statements, which provide financial information about a specific reporting entity.”

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Basis of preparation (continued)

Standards, amendments, and interpretations to existing standards that are not yet effective and have not been early adopted by the Company (continued)

Amendments to References to Conceptual framework in IFRS Standards are effective retrospectively for annual reporting periods beginning on or after January 1 2020. The revised framework covers all aspects of standard setting, including the objective of financial reporting.

The main change relates to how and when assets and liabilities are recognised and derecognised in the financial statements.

- New 'bundle of rights' approach to assets will mean that an entity may recognize a right to use an asset rather than the asset itself.
- Liability will be recognised if a company has no practical ability to avoid it. This may bring liabilities on balance sheet earlier than at present
- A new control-based approach to de-recognition will allow an entity to derecognize an asset when it loses control over all or part of it; the focus will no longer be on the transfer of risks and rewards.

(b) Foreign currency transaction and balances

Foreign currency transactions that require settlement in a foreign currency are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Monetary assets and liabilities denominated in currencies other than Jamaican dollars are translated at the rate of exchange in effect at the statement of financial position date. Non-monetary assets and liabilities measured at historical cost denominated in currencies other than Jamaican dollars are translated at the rate of exchange in effect at the date of the transactions or initial recognition. Non-monetary items in a foreign currency that are measured at fair value are translated using the exchange rates at the date when the fair value was determined.

Gains and losses arising from fluctuations in exchange rates are generally included in profit or loss. However, foreign currency differences resulting from the translation of equity investments are recognised in other comprehensive income, except on impairment, in which case the foreign currency differences that have been recognised in other comprehensive income are reclassified to profit or loss.

Exchange rates are determined by the published weighted average rate at which commercial banks trade in foreign currencies.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Consolidation

A subsidiary is an enterprise controlled by the Company. Control exists when the company has the power, directly or indirectly, to govern the financial and operating policies of an enterprise to obtain benefits from its activities. In assessing control, potential voting rights that are presently exercisable or convertible are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements of companies from the date control commences until the date that control ceases.

At the reporting date, May 31 2020, the Company has no subsidiaries.

(d) Property, plant, and equipment

Property, plant, and equipment are stated at historical cost, less accumulated depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of items. The land is carried at cost and is not depreciated.

Depreciation is calculated on a straight-line method at such rates as will write off the carrying value of the assets over the period of their expected useful lives. Current annual rates of depreciation are:

Buildings	2-6%
Plant, machinery, and equipment	5- 10%
Furniture and fixtures	10%
Mobile equipment and motor vehicles	20%
Computer software and equipment	10%

The assets' residual values and useful lives are reviewed periodically for impairment. Where the assets' carrying amount is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount.

Gains and losses on disposal of property, plant, and equipment are determined by comparing the proceeds with the carrying amount and are recognized in other income in the statement of comprehensive income.

Repairs and maintenance expenditure are included in the statement of comprehensive income during the financial period in which they are incurred. The cost of major renovations is included in the carrying amount of the asset when it is probable that the future economic benefits in excess of the initially assessed standard of performance of the existing asset will flow to the Company.

The cost of self-constructed assets includes the cost of materials, direct labour, and related cost to put the asset into service. Borrowing costs, including but not limited to, interest on borrowings and exchange differences arising on such borrowings, that are directly attributable to the acquisition and/or construction of a qualifying asset are capitalized as part of the cost of that asset.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(d) Property, plant, and equipment (continued)

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying asset for its use are complete. Thereafter, borrowing costs are recognised in profit or loss when they are incurred.

(e) Inventories

Inventories are stated at the lower of cost, determined consistently on the same bases, and net realizable value. The cost of inventories is determined based on weighted average cost and includes costs incurred in bringing the inventories to their present location and condition. Inventories comprised finished goods, work-in-progress, and raw and packaging materials.

Net realizable value is the estimated selling price of inventory during the normal course of business less estimated selling expenses.

(f) Cash and cash equivalents

Cash and cash equivalents comprise cash in hand and at the bank, plus highly liquid instruments including certificates of deposits, where the original maturities of such instruments usually do not exceed three (3) months. The Company does not operate an overdraft facility.

(g) Financial instruments – recognition and measurement

A financial instrument is any contract that gives rise to a receipt or payment in cash or its equivalents and a financial asset of one party and a financial liability or equity instrument of another party. Financial assets and financial liabilities are recognized in the statement of financial position when the Company becomes a party to the contractual provisions of a financial instrument. All financial instruments are measured at fair value on initial recognition. Subsequent measurement of these assets and liabilities is based on fair value or amortized cost using the effective interest method.

Transaction costs that are directly attributable to the acquisition or issuance of financial assets and financial liabilities, other than financial assets and financial liabilities classified as fair value through profit or loss (FVTPL) are added to or deducted from the fair value on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities classified as FVTPL are recognized immediately in net income.

Classification and subsequent measurement.

Financial instruments – assets

The Company classifies financial assets according to its business model for managing the financial assets and the contractual terms of the cash flows. Classification choices for financial assets are:

- Amortized cost
- Fair value through other comprehensive income (FVTOCI)
- Fair value through profit or loss (FVTPL)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(g) Financial instruments – recognition and measurement (continued)

Classification choices for financial liabilities are:

- Amortized cost
- FVTPL

Amortized cost

Financial assets are classified as amortized cost because the financial assets are held within a business model with the objective to hold financial assets to collect contractual cash flows, and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amounts outstanding. These assets are measured at amortized cost using the effective interest method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired.

Fair value through other comprehensive income (FVTOCI)

Financial assets are classified as FVTOCI because the financial assets are held with a business model with the objective to hold financial assets to collect contractual cash flows and selling financial assets. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. These assets are measured at amortized cost using the effective interest method and are subject to impairment. Gains and losses are recognized in other comprehensive income when the asset is modified or impaired and subsequently transferred to profit or loss on derecognition.

Fair value through profit or loss (FVTPL)

Financial assets are classified as FVTPL unless they are classified as amortised cost or fair value through other comprehensive income. Gains and losses are recognized in other comprehensive income when the asset is modified or impaired and subsequently transferred to profit or loss or derecognition.

Derecognition of financial instruments

A financial asset is derecognized when the contractual rights to the cash flow from the assets expire or when the Company transfers the financial asset to another party without retaining control or substantially all the risks and rewards of ownership of the asset. Any interest in transferred financial assets created or retained by the Company is recognized as a separate asset or liability.

A financial liability is derecognized when the contractual obligations are discharged, cancelled or expires.

(h) Trade payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade payables are recorded at amortised cost.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Trade receivables

Trade and other receivables are carried at anticipated realizable value. An allowance for impairment of trade and other receivables is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganization, and default or delinquency in payments are considered indicators that the trade receivable is impaired. The carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognized in bad debt expense in the statement of comprehensive income. When a trade receivable is deemed uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are recognized as recovery and credited to bad debt expense in the statement of comprehensive income.

Credit risk and expected loss

The Company is primarily exposed to credit risk on its trade receivables, and as such, does not provide for any lifetime expected credit loss (LECL). It applies the practical experience of not adjusting the promised consideration receivable because the period is less than 12 months. The Company recognizes a loss allowance on a forward-looking basis at an amount equal to its expected credit model (ECL) that was developed during the year in regards to its financial assets measured at amortized cost.

(j) Debt: borrowings and borrowing costs

Debt is classified as current when the Company expects to settle the liability in its normal operating cycle, it holds the liability primarily for trading, the liability is due to be settled within 12 months after the date of the statement of financial position, or it does not have an unconditional right to defer settlement of the liability for at least 12 months after the statement of financial position; Otherwise, it is classified as long-term. After initial recognition, Debt is measured at amortized cost using the effective interest rate method, less any impairment, with gains and losses recognized in net income in the period that the liability is derecognized.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of these assets. Capitalization of such borrowing costs ceases when the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognized in profit or loss in the period in which they are incurred.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(k) Revenue recognition

(i) Sale of goods

Revenue is recognized when the performance obligation, satisfied at a point-in-time to transfer goods and or services to the customer is complete. The completion is assessed when the customer takes control and or obtains the benefits of the goods and /or services, and the company has a present right to payment as evidence by an invoice or the right to invoice.

(ii) Finance income

Finance income comprises interest-earned on invested funds. Interest income is recognised in profit or loss as it accrues, taking into account the effective yield on the asset

(iii) Other operating income

Other operating income includes gains on disposal of assets, recognized when the asset is sold, foreign exchange gains and miscellaneous inflows recognized when received.

(l) Leases

Leases of property, plant, and equipment where the Company has substantially taken over all the risks and rewards of ownership are classified as finance leases. Finance leases are recognized at the inception of the lease at the lower of the fair value of the leased asset or the present value of minimum lease payments. Each lease payment is allocated between the liability and interest charges to produce a constant rate of charge on the lease obligation. The interest element of the lease payments is charged to comprehensive income over the lease period.

Property, plant, and equipment acquired under finance leases are depreciated over the shorter of the useful life of the asset or the lease term.

Prior to June 2019, assets held under other leases were classified as operating leases and were recognized in the Statement of Financial Position. Payments made under operating leases were recognized in the Statement of Comprehensive Income on a straight-line basis over the term of the respective lease.

From June 2019, the company has adopted IFRS 16 and recognized in the Statement of Financial Position right of use assets and lease liabilities.

Right of use assets are measured at cost comprising the following:

- (1) The amount of initial measurement of the lease liability
- (2) Any lease payments made at or before the commencement date less any lease incentives received.
- (3) Any initial direct cost, and
- (4) Restoration cost

Right of use assets is generally depreciated over the shorter of the asset useful life and the lease term on a straight-line basis.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(m) Dividends

Dividends declared, and payable to the Company's ordinary shareholders are recognised as a liability in the statement of financial position in the period in which the Company's Board of Directors approves the dividends.

(n) Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount can be made. Where the Company expects a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is charged to the statement of comprehensive income net of any reimbursement.

(o) Impairment

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating units fair value less costs to sell and its value in use. It is determined for an individual asset unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses are recognized in comprehensive income.

Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of comprehensive income unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase. Impairment losses recognized in relation to goodwill are not reversed for subsequent increases in its recoverable amount.

(p) Pension and employee benefits

The Company does not have a Pension Plan, but it has implemented an Individual Retirement Account (IRA) scheme for some categories of staff operated by Sagicor Limited, a licensed Investment management entity. The Company contributes 5% to the IRA for each participating individual based on their gross salary. The Company recognizes a liability and an expense for its contribution to the IRA.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(p) Pension and employee benefits (continued)

Employees' benefits include current or short-term benefits such as salaries, statutory contributions paid, annual vacation and sick leave, non-monetary benefits such as medical care. Entitlement to annual leave and other benefits are recognized when they accrue to employees.

(q) Related party disclosure

Related parties are identified and disclosed to allow users of the financial statements to be aware of the possibilities that the financial position and profit or loss may have been affected by the existence of related parties and by transactions and outstanding balances, including commitments, with such parties.

A related party is a person or entity that is related to the entity that is preparing its financial statements (referred to as the "reporting entity")

- (a) A person or close member of that person's family is related to a reporting entity if that person:
- (i) Has control or joint control over the reporting entity;
 - (ii) Has significant influence over the reporting entity; or
 - (iii) Is a member of the key management personnel of the reporting entity or a parent of the reporting entity.
- (b) An entity is related to a reporting entity if any of the following conditions apply:
- The Company and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - One company is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - Both companies are joint ventures of the same third party.
 - One company is a joint venture of a third entity, and the other entity is an associate of the third entity.
 - The company is a post-employment benefit plan for the benefit of the employees of either the reporting entity or an entity related to the reporting entity.
 - The company is controlled, or jointly controlled by a person identified in (a) above.
 - A person identified in ((a) (i)) above has significant influence over the company or is a member of the key management personnel of the company (or of a parent of the company).

A related party transaction involves the transfer of resources, services or obligations between a reporting company and a related party, regardless of whether a price is charged.

(r) Investments

Certificate of Deposits, quoted shares and other investments are recognised at fair value. Incomes from these investments are accounted for based on the accrual basis.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(s) Income taxes

The income tax expense for the year comprises a current and deferred tax. Income tax expense is recognized in net income, except to the extent that it relates to items recognized either in OCI or directly in equity.

I. Current taxation

The current tax charge is the expected tax payable on the taxable income for the year, using tax rates in effect at the reporting date plus any over or under the provision of tax in respect of previous years.

II. Deferred taxation

Deferred tax liabilities are recognized for temporary differences between the carrying amounts of assets and liabilities and their amounts as measured for tax purposes, which will result in taxable amounts in future periods. Deferred tax assets are recognized for temporary differences which will result in deductible amounts in future periods, but only to the extent, it is probable that sufficient taxable profits will be available against which these differences can be utilized.

Deferred tax assets and liabilities are measured at tax rates that are expected to apply in the period in which the asset will be realized, or the liability will be settled based on enacted rates.

The Company's shares were listed on the Junior Market of the Jamaica Stock Exchange (JSE) on December 31 2012. Under the Junior Market of the JSE incentive regime, the 100% income tax-free status expired December 31 2017, and the Company is now subject to income tax at 50% of its taxable income until December 31 2022. As a consequence of the expiration of the 100% tax relief, deferred taxation was recorded in the financial statements.

(t) Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses. The operating results are regularly reviewed by the entity's Chief Operating Decision Maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Segment capital expenditure is the total cost incurred during the year to acquire segment assets that are expected to be used for more than one year. Management considers the Company to have five (5) strategic business units, which offer different products and services and principally require different technology and marketing strategies.

Paramount Trading (Jamaica) Limited
Notes to the Financial Statements
31 May 2020

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(t) Segment reporting (continued)

The primary reportable business units are:

Distribution

- of imported chemicals and lubricants
- of SIKA branded construction and adhesive products

Manufacturing

- of branded chemical products
- manufacturing of lubricants
- Sanitizing and surface cleaning products

Haulage

- haulage services provided to external customers

The manufacturing operations are conducted at 6, and 8 East Bell Road, Kingston 11 and the distribution of chemicals is done from both the Company's warehouses at East Bell Road and 39 Waltham Park Road, Kingston 13.

Financial and other transactions between business units have been eliminated, where necessary in preparing the financial statements.

(u) Expenses

- Expenses are recognised on the accrual basis.
- Finance costs comprise interest incurred on borrowings, calculated using the effective interest method, foreign exchange losses and bank-related charges.
- Payments under leases are recognised in profit or loss on the straight-line basis over the term of the lease.

(v) Share capital

Ordinary shares are classified as equity and carried at cost. Incremental costs directly attributable to the issue of ordinary shares, net of any tax effects, are recognised as a deduction from equity.

(w) Earnings per share

Basic earnings per share ("EPS") is calculated by dividing the net income attributable to the shareholders of the Company by the weighted average number of ordinary shares outstanding during the reporting period.

(x) Interest-bearing borrowings

Interest-bearing borrowings are recognised at cost. After initial recognition, interest-bearing borrowings are stated at amortised cost, with any difference between cost and redemption value being recognised in profit or loss over the period of the borrowing on an effective interest basis.

Paramount Trading (Jamaica) Limited
Notes to the Financial Statements
31 May 2020

3. CAPITAL MANAGEMENT

The Company's objectives when managing capital are:

- Ensuring sufficient liquidity to support its financial obligations and execute its operating and strategic plans;
- Maintaining healthy liquidity reserves and access to capital;
- Optimizing the cost of capital while taking into consideration current and future industry, market, and economic risks and conditions; and
- To safeguard its ability to continue as a going concern in order to provide returns for its stockholders and benefits for other stakeholders

The definition of capital varies from company to company, industry to industry, and for different purposes. Management considers the definition of the Company's capital as long-term debt plus total equity.

The Company has a policy in place to manage capital. As part of the overall management of capital, management, and the Audit Committee of the Board of Directors review the Company's compliance with, and performance against, the policy. In addition, periodic review of the policy is performed to ensure consistency with the risk tolerance.

The Company monitors its capital structure by measuring the gearing ratio. This ratio is calculated as total long-term debt divided by total capital under management.

The Company also monitors its fixed obligations to ensure compliance by tracking its interest and other coverage ratios and forecasting cash flows along with reviewing financial and other covenants of the existing debt agreements.

During 2020, the Company's capital management remained unchanged from 2019. The gearing ratios at May 31, 2020, and May 31, 2019, were as follows:

	<u>May 31</u> <u>2020</u> \$	<u>May 31</u> <u>2019</u> \$
Total long-term debts	535,713,738	337,250,570
Total long-term debt plus equity	1,330,102,459	1,078,619,800
	<u>0.40</u>	<u>0.31</u>

4. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Overview and risk management framework

The Company's overall risk management policies are established to identify and analyze the risks faced by the Company and to set appropriate risk levels and controls and to monitor risk and adherence to limits. Derivative financial instruments are not used to reduce exposure to any of the risks.

The Board of Directors is ultimately responsible for the oversight of the Company's risk management and has established committees such as audit and governance committee, along with treasury committee to monitor risks. The Company seeks to minimize potential adverse effects on the Company's financial performance and to manage these risks by close monitoring of each risk factor as noted below.

The Company has exposure to the following risks from the use of financial instruments:

- Market risk (including foreign currency and interest rate risk)
- Credit risk;
- Liquidity risk; and

The Company has exposure to the following risks from its operations:

- Operational risk; and
- Reputational risk

The following presents information about the Company's exposure to each of the above risks and the Company's objectives, policies, and processes for measuring and managing these risks. Further quantitative disclosures are included throughout the financial statements and notes thereof.

Paramount Trading (Jamaica) Limited
Notes to the Financial Statements
31 May 2020

4. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

(a) Financial risk management

(i) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, and equity prices, will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage market risk exposures within acceptable parameters while optimizing the return. The Company's financial risk management policy establishes guidelines on how the Company is to manage the market risk inherent in the business and provides mechanisms to ensure business transactions are executed in accordance with established limits, processes and procedures.

All such transactions are carried out within the established guidelines. The Company does not use derivatives to manage the volatility of market risk.

• **Foreign currency risk**

Foreign currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company conducts business globally and is exposed to these risks arising from various transactions denominated in foreign currencies, primarily the United States (US\$) dollar.

The Company manages its foreign exchange risk by ensuring that the net exposure in foreign assets and liabilities is kept to an acceptable level by monitoring currency positions. The Company further manages this risk by maximizing foreign currency earnings and holding foreign currency balances.

The Company's statement of financial position as at May 31, 2020, includes aggregate net foreign liabilities of approximately US\$2,086,750 (2019 -US\$1,434,633) in respect of transactions arising in the ordinary course of business which was subject to foreign exchange rate changes as follows

The concentration of currency risks:

	<u>2020</u> <u>US\$</u>	<u>2019</u> <u>US\$</u>
Financial assets:		
Cash and cash equivalents	1,147,558	441,376
Financial liabilities:		
Payables and accruals	(3,234,308)	(1,876,009)
Net total liabilities	(2,086,750)	(1,434,633)
Equivalent to Jamaican dollars	J\$(299,427,757)	J\$(190,547,955)

The above assets/ (liabilities) are receivable/ (payable) in United States dollars. The average of the Bank of Jamaica (BOJ) buying and selling rate of exchange applicable at May 31, 2020, is J\$143.49 to US\$1 (2019- J\$132.82 to US\$1), respectively.

4. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

(a) Financial risk management (continued)

(i) Market risk (continued)

- **Foreign currency risk (continued)**

Foreign currency sensitivity

A 5% (2019- 5%) weakening of the Jamaican dollar would have decreased profit for the year by approximately \$14.9 Million (2019 - \$9.5 Million), assuming all other variables, in particular, interest rates, remain constant.

- **Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. Interest –bearing financial assets are primarily cash and cash equivalent, securities purchased under resale agreements and investments. Loans and bank overdrafts represent interest-bearing financial liabilities.

The Company attempts to manage the risk relating to financial liabilities by procuring the most advantageous rates under contracts with interest rates that are fixed for the life of the contract, where possible. A financial asset is primarily managed by investing excess cash in short-term deposits and maintains interest-earning bank accounts with licensed financial institutions.

During the year, the Company experienced a reduction in the rates on certain of its loans. At the reporting date, the interest profile of the Company’s interest-bearing financial instruments was:

	<u>2020</u> \$	<u>2019</u> \$
Fixed-rate instruments		
Financial assets	-	-
Financial liabilities	535,713,738	337,250,570
	<u>535,713,738</u>	<u>337,250,570</u>
Variable-rate instruments		
Financial assets	197,026,677	257,073,664
Financial liabilities	-	-
	<u>197,026,677</u>	<u>257,073,664</u>

Fair value sensitivity analysis for fixed-rate instruments:

The Company does not hold any financial instruments that are carried at fair value. As a consequence, at the reporting date, fluctuation in interest rates, would not affect the profit or other comprehensive income recognized for the year.

4. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

(a) Financial risk management (continued)

(i) Market risk (continued)

- **Interest rate risk (continued)**

Cash flow sensitivity analysis for variable rate instruments:

At the reporting date, a 2% (2019 - 2%) increase/(decrease) in interest rates would have increased/(decreased) profit by approximately \$3.9 Million (2019 - \$5.1 Million) assuming that all other variables, in particular, foreign currency rates, in both the current and prior years remained constant.

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company faces credit risk principally in respect of its receivables from customers and to lesser extent cash at bank and short-term deposits held with financial institutions. There is no significant concentration of credit risk, and the maximum exposure to credit risk is represented by the carrying amount of each financial asset.

There were no significant changes in the Company's approach to managing credit risk during the year.

Cash and cash equivalent

Cash and cash equivalent and investments are managed by maintaining these balances with licensed financial institutions considered to be stable and are deemed to have a low risk of default.

Trade receivables credit risk

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the Company's customer base is wide and covers different industries, and there is no significant concentration of credit risk.

Credit risk for receivables is mitigated by stringent credit reviews and approval of limits to customers. The Company also structures the levels of the credit risk it undertakes by placing limits on the amount of risk accepted about a single counterparty. The Company has an established credit process, which involves regular analysis of the ability of customers and other counterparties to meet repayment obligations.

The credit quality of the customer is assessed, taking into account its financial position, experience, and other factors. The utilization of credit limits is regularly monitored.

Customers of the Company principally include wholesalers, retailers, bauxite companies, companies within the construction industry and bakeries. The Company has procedures in place to restrict customer orders if the orders exceed their credit limits. Customers that fail to meet the Company's benchmark creditworthiness may transact business with the Company on a prepayment or cash basis.

Paramount Trading (Jamaica) Limited
Notes to the Financial Statements
31 May 2020

4. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

(a) Financial risk management (continued)

(ii) Credit risk (continued)

Impairment:

The Company establishes a provision for impairment that represents its estimate of possible incurred losses in respect of trade receivables. Impairment is assessed for each customer balance over 90 days. The Company's exposure to this risk is moderate because approximately 60% (2019 - 72%) of its trade debtors are under 90 days.

The Company's credit period on the sale of goods ranges from 7 to 60 days, depending on the relationship with the respective customer. The Company introduced the ECL model in regards to impairment of receivables, and this resulted in the Company providing adequately for all receivables where collectability is deemed doubtful.

Maximum exposure to trade receivables credit risk

	<u>2020</u> \$	<u>2019</u> \$
Credit risk exposures are as follows:		
Trade receivables	243,071,206	335,956,994

Exposure to credit risk by customer sector

The following table summarizes the Company's credit exposure for trade receivables at their carrying amounts, as categorized by customer sector:

	<u>Note</u>	<u>2020</u> \$	<u>2019</u> \$
Manufacturing, wholesalers, and retailers		221,810,269	303,099,625
Sugar industry		-	-
Government		6,937,461	2,911,837
Bauxite sector		14,323,476	29,945,532
	17	243,071,206	335,956,994
Less: provision for impairment		(24,961,014)	(16,269,116)
		<u>218,110,192</u>	<u>319,687,878</u>

As at May 31 2020, the reporting date, there were significant concentrations of credit risk in respect of fourteen (14) major receivable customers of the Company who in aggregate accounted for approximately \$83 Million (2019 - \$114 Million), representing approximately 34% (2019 - 34%) of trade receivables for the Company.

4. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

(a) Financial risk management (continued)

(ii) Credit risk (continued)

Movement on the provision for impairment of trade receivables

The movement on the provision for impairment of trade receivables was as follows:

	<u>2020</u>	<u>2019</u>
	\$	\$
Balance at 1 June 2019	16,269,116	12,663,683
Increase in provision for receivables impairment	10,000,000	3,609,433
Bad debts written off	(1,308,102)	(4,000)
Balance at 31 May 2020	<u>24,961,014</u>	<u>16,269,116</u>

The creation of a provision for impaired receivables has been included in expenses in the profit or loss account. Amounts charged to the allowance account are written off when there is no expectation of recovering the additional cash.

Expected credit loss assessment

The Company allocates each exposure to a credit risk grade based on the data that is determined to be predictive of the risk of loss. Factors that are considered in assessing customers include applying experienced credit judgment, management accounts, cash flow projections, audited financial statements and available creditable press information.

Credit risk grades are defined using qualitative and quantitative factors that are indicative of the risk of default and are aligned to available external credit ratings. Potential loss exposure within each credit risk grade and an ECL rate is calculated for the Company's customer based on delinquency status and actual historical credit loss experience.

The Company uses an allowance matrix to measure ECLs trade receivables. The provision matrix is based on historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates.

Loss rates are calculated based on the probability of a receivable progressing through successive stages of delinquency to write –off, current conditions and the economic conditions over the expected lives of the receivables.

4. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

(a) Financial risk management (continued)

(ii) Credit risk (continued)

Expected credit loss assessment (continued)

The following table provides information about the exposure to credit risk and ECL for trade receivables as at May 31 2020.

<u>Age categories</u>	<u>Weighted average loss rate</u>	<u>Gross carrying amount</u>	<u>Loss allowance</u>
Current (not past due)	1.04%	97,408,324	1,016,896
Past due 31-60 days	4.85%	18,691,218	906,585
Past due 61-90 days	8.27%	27,717,148	2,292,777
More than 90 days	20.90%	99,254,516	20,744,756
		<u>243,071,206</u>	<u>24,961,014</u>

The ECL model of calculating impairment was refined during the year, and when compared to the previous IAS 39 model, based on the incurred loss principle, the ECL model provision figure was considered to be adequate.

4. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

(a) Financial risk management (continued)

(ii) Credit risk (continued)

Financial instruments counterparty credit risk: cash and equivalents and investments

The Company exposure to financial instruments counterparty credit risk is related to its activities with cash and cash equivalent balances and investments. The Company manages this exposure by maintaining these balances with licensed and regulated financial institutions considered to be stable and are deemed to have a low risk of default. Transactions are only undertaken with highly rated counterparties.

Maximum exposure to financial instruments counterparty credit risk

	<u>2020</u>	<u>2019</u>
	\$	\$
Credit risk exposures are as follows:		
Investments, (excluding equity shares)	8,819,892	251,448,923
Cash and short-term equivalents	178,386,497	45,455,080
	<u>187,206,389</u>	<u>296,904,003</u>

The impairment on cash and cash equivalent and investments has been measured on the 12 months expected loss basis and reflects the short maturities of the exposures. The Company considered that cash and cash equivalent s have low credit risk. No impairment allowances were recognised on initial adoption of IFRS 9, and there has been no change during the year.

Due from related parties

At the reporting date, there were no significant concentrations in respect of amounts due from related parties.

(iii) Liquidity risk

Liquidity risk is the risk that the Company might encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, and the availability of funding through an adequate amount of committed credit facilities.

Paramount Trading (Jamaica) Limited
Notes to the Financial Statements

4. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

(a) Financial risk management (continued)

(iii) Liquidity risk (continued)

Liquidity risk management process

The Company manages its liquidity risk by maintaining an appropriate level of resources in liquid or near liquid form. The Company maintains cash and short-term deposits for up to 90 - day periods to meet its liquidity requirements.

The Company's liquidity management process, as carried out within the Company and monitored by the Treasury function, includes:

- i. Monitoring future cash flows and liquidity on an ongoing basis. This incorporates an assessment of expected cash flows
- ii. Maintaining a portfolio of highly marketable assets that can easily be liquidated as protection against any unforeseen interruption to cash flow
- iii. Maintaining committed lines of credit
- iv. Managing the concentration and profile of debt maturities
- v. Optimizing cash returns on investments.

Cash flows of financial liabilities

The Company's financial liabilities comprise long-term loans and payables and accruals. The table below shows the undiscounted cash flows of non-derivative financial liabilities based on the earliest date on which the Company can be required to settle its liabilities. These amounts are due as follows:

	<u>2020</u>				
	<u>Carrying</u> <u>amount</u>	<u>Contractual</u> <u>cash flows</u>	<u>1 year or</u> <u>less</u>	<u>1-2 yrs</u>	<u>2-5 yrs</u>

4. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

(a) Financial risk management (continued)

(iii) Liquidity risk (continued)

Determination and disclosure of fair value of financial instruments

Fair value is considered as the amount for which an asset could be exchanged, or a liability settled between knowledgeable, willing parties in an arm's length transaction. The market price is used to determine fair value where an active market, such as a recognized stock exchange exists, as it is the best evidence of the fair value of a financial instrument.

Financial instruments are grouped into levels 1 to 3 based on the degree to which the fair value is observed, as follows:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in an active market for identical instruments. The FVTPL and FVOCI instruments in the financial repurchase agreement (reports) are classified as level 1.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within level 1 that are observable for the instrument either directly (i.e., as prices) or indirectly (i.e., derived from prices). There were no financial instruments held by the Company in this category.
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the instruments that are not based on observable market data (unobservable inputs). There were no financial instruments held by the Company in this category.

The following methods and assumptions have been used in preparing the financial statements at the reporting date:

- (i) The carrying value of cash and cash equivalents accounts receivable and accounts payable are assumed to approximate to their carrying values due to their short-term nature
- (ii) Long-term liabilities carrying values approximate fair values as the loans are carried at an amortised cost reflecting their contractual obligations and the interest rates are reflective of market rates for similar loans
- (iii) Related party balances are carried at their contracted settlement values due to their short-term nature.
- (iv) Investments classified as FVOCI or FVTPL are measured at fair value by reference to price quotes as published by established and reputable managers of these instruments.

4. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

(b) Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Company's processes such as personnel, technology, and infrastructure, as well as from external factors, other than financial risks, such as those arising from legal, regulatory requirements and natural disasters.

The management of the Company is responsible for managing operational risk to avoid financial loss and damage to the Company's reputation while at the same time balancing the control procedures to allow innovation and creativity to facilitate the growth of the Company. Management is aware of the many operational risks and continues to implement the necessary strategies to mitigate the negative impact of the different risks associated with the operation of the Company.

(c) Reputational risk

The Company is engaged in a business that distributes chemical raw materials to various industries and manufactures basic inputs for food processing and industrial applications. Its reputation is critical within the marketplace and the Company's management endeavours at all times to be ethical and adopts international best practices in the storage, manufacturing, and distribution of its products.

The Company ensures that the necessary sanitary and quality standards are maintained and has regular audits from the government bodies responsible for the Company's portfolio of products including the government's Bureau of Standards, Public Health Department, Jamaica Customs Department and the Ministry of Industry and Commerce. Also, as a supplier to several multinational and reputable local companies, the Company adheres and complies with their quality standards, and when potential customers conduct their independent audits, the Company is usually approved as a certified distributor to their respective plants.

Rigorous quality checks are integrated into the Company's receiving and delivery processes of its products, and this reduces the level of customer complaints. Management considers the Company's reputation secured as events that may damage the Company's reputation are immediately investigated and the appropriate action taken in a manner that satisfies the complainant.

5. OPERATING SEGMENTS

The Company has five reportable operating segments: Chemicals, Construction and Adhesive, Manufacturing, Transportation, and Lubricants. The reportable operating segments are strategic business units offering different products and services. They are separately managed due to their distinct nature. The following summary describes the operations in each of the Company's reportable segments:

- The distribution of chemicals and chemical products for food and pharmaceutical additives and ingredients.
- The construction and adhesive business is the distribution of the SIKA branded products and adhesive and hardware supplies, i.e., concrete admixtures, waterproofing/moisture protection, sealants, floor and protective coating, and more.
- The manufacturing of technical and industrial-grade chemicals for direct use or as raw materials; solvents, disinfectants, germicides, household laundry and cleaning products, paints resin, and many more.
- Transportation/Haulage business provides island-wide delivery solutions.
- The distributions of oils and lubricants; engine oils and fluids, industrial oils and greases, hydraulic, transmission and other fluids.

Performance is measured based on segment gross profit as included in the internal management reports. Management has determined that this measure is the most relevant in evaluating segment results and allocating resources. Information regarding the results of each reportable operating segment is as follows:

- Chemicals located at 39 Waltham Park Road and 8 East Bell Road, account for over 55% (2019 - 58%) of revenue.
- Construction and Adhesives is a wholesale distribution outlet, trading under the SIKA brand and is located on Bell Road, in Kingston; and accounts for approximately 10% (2019-14%) of revenue.
- Manufacturing operates from both the 39 Waltham Park Road (food grade) and 8 East Bell Road (technical grade) locations and accounts for approximately 17% (2019-3%) of revenue.
- Transportation division operates from 39 Waltham Park Road and accounts for approximately 2% (2019-5%) of revenue.
- Lubricants division began operating from 39 1/4 Waltham Park Road in March 2018 and account for approximately 16% (2019-24%) of revenue.

5. OPERATING SEGMENTS (CONTINUED)

The segment information presented by management to the CEO does not provide a detailed analysis of the assets and liabilities related to the operations of the respective segments. Assets and liabilities are not assigned to each segment in the preparation of the Company's financial statements.

10. FINANCE INCOME AND COSTS

	<u>2020</u>	<u>2019</u>
	\$	\$
Finance income -		
Interest income	2,534,621	1,637,477
Finance costs -		
Interest expenses	40,878,444	10,740,646
Debt financing fees and expenses	7,057,458	12,420,714
	<u>47,935,902</u>	<u>23,161,360</u>

11. TAXATION

- (a) Taxation is based on profit for the year adjusted for taxation purposes and comprises income tax at 25% (2019 – 25%).

	<u>2020</u>	<u>2019</u>
	\$	\$
Taxation for the year comprises:		
Current tax expense	-	9,446,314
Deferred Tax	8,998,751	3,532,207
	<u>8,998,751</u>	<u>12,978,521</u>

Effective 1 January 2018, the 100% tax remission for the first five (5) years after listing on the Junior Market (JM) of the Jamaican Stock Exchange (JSE) expired and the Company was subject to income tax on 50% of its chargeable income for the year ended 31 May 2020. The Company also accounted for deferred tax using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

During the year the company made substantial investments in plant and machinery, resulting in significant capital allowances computed for tax purposes. This resulted in an adjusted taxable loss for the year.

Subject to the agreement of the Commissioner, Tax Administration Jamaica, the Company has tax losses of approximately \$48 million, which may be carried forward against future taxable profits indefinitely. However, the amount that can be utilized in any one year is restricted to 50% of the current year's taxable profit.

- (b) The tax on the Company's profit differs from the theoretical amount that would arise using the applicable tax rate as follows:

	<u>2020</u>	<u>2019</u>
	\$	\$
Profit before taxation	62,018,240	75,621,619
Tax calculation @ 25% (2019 – 25%)	15,504,560	18,905,405
Adjustment for difference in treatment of:		
Depreciation and capital allowances	(11,764,060)	9,883,869
Net effect of other charges for tax purposes	(3,740,500)	(9,896,646)
Adjustment for the effect of remission of tax.	-	(9,446,314)
Tax charged for the year	<u>-</u>	<u>9,446,314</u>

Paramount Trading (Jamaica) Limited
Notes to the Financial Statements
31 May 2020

11. TAXATION (CONTINUED)

(c) Remission of income tax:

By notice dated 13th August 2009, the Minister of Finance and the Public Service, issued and gazetted the Income Tax (Jamaica Stock Exchange Junior Market) (Remission) Notice, 2009. The Notice effectively granted a remission of income tax to eligible companies that were admitted to the Junior Market of the Jamaica Stock Exchange (JMJSE) if certain conditions were achieved after the date of initial admission.

Effective 31 December 2012, the Company's shares were listed on the Junior Market of the JSE. Consequently, the Company is entitled to a remission of income taxes for ten years in the proportion set out below;

Years 1 to 5 (1 January 2013 - 31 December 2017) – 100%

Years 6-10: (1 January 2018 - 31 December 2022) – 50%

Provided the following conditions are met:

- (i) The Company remains listed for at least 15 years and is not suspended from the JSE for any breaches of its rules.
- (ii) The Subscribed Participating Voting Share Capital of the Company does not exceed J\$500 million
- (iii) The Company has at least 50 Participating Voting Shareholders

The financial statements have been prepared on the basis that the Company will have the full benefit of the tax remissions.

12. EARNINGS PER SHARE

Basic EPS is computed by dividing the net profit for the year attributable to shareholders by the weighted average number of ordinary shares in issue for the year.

	<u>2020</u>	<u>2019</u>
	\$	\$
Net profit attributable to shareholders	53,019,489	62,643,098
Weighted average number of ordinary shares in issue	1,542,467,080	1,542,467,080
Basic earnings per share	0.034	0.040

13. DIVIDENDS

No dividend was declared or paid during the year.

(vi) Lease liability	85,565,121	-
Less current portion	(7,394,545)	-
	<u>78,170,576</u>	<u>-</u>

The details of the loan are as follows:

- (i) This represents a vendor's mortgage from Allegheny in acquiring the lubricant plant. It is payable over five years at 4% interest and is paid in 10 instalments of US\$78,754 per period. This loan mature December 2024.
- (ii) This loan represents the principal balance which is repayable in monthly instalments of \$ 527,813 over 96 months. The loan is secured by a lien on a motor vehicle and matures in November 2024.
- (iii) This represents the principal loan balance which is repayable in monthly instalments of \$ 263,829 over sixty (60) months. The loan is secured by a lien on a motor vehicle and matures May 2022.
- (iv) This loan represents loan financing for a motor truck and is repayable in 84 monthly instalments of \$69,099. A lien secures the loan on the truck and matures in January 2026.

20. LONG-TERM BORROWINGS (CONTINUED)

(v) The lease obligations relate to motor vehicles and are payable as follows:

	<u>2020</u>	<u>2019</u>
	\$	\$
Due from the reporting date as follows:		
Within one (1) year	5,221,545	5,140,118
Within two to five (2-5) years	16,999,331	24,955,446
Total future minimum lease payments	<u>22,220,876</u>	<u>30,095,564</u>
Less: future interest charges	(6,716,502)	(10,071,008)
Present value of minimum lease payments	<u>15,504,374</u>	<u>20,024,556</u>

(vi) **Lease Liability**

Right-of-use Asset, blended principal and interest payments (rent payments) are made monthly in the amount of US\$7,500, and interest is charged at 6%, maturing in 2029

Principal amounts payable

- Current portion	\$ 7,394,545
- Long term	<u>\$78,170,576</u>
	<u>\$85,565,121</u>

Principal repayments for each of the next four years along with the period 2025-2029 are as follows:

2021	\$7,394,545
2022	\$7,850,625
2023	\$8,334,834
2024	\$8,848,908
2025-2029	\$53,136,209

Preference shares:

	<u>2020</u>	<u>2019</u>
	\$	\$
8.75% - Cumulative Redeemable Preference shares	<u>288,295,644</u>	<u>276,591,289</u>

The 8.75% Cumulative Redeemable Preference Shares were issued in March 2019 and will be redeemed in March 2021. The proceeds were used to finance expansion, improvements and bolster liquidity of the business.

21. SHARE CAPITAL

	<u>2020</u> \$	<u>2019</u> \$
<u>Authorized:</u> 1,620,000,000 (2018 – 1,620,000,000) ordinary shares of no-par value		
<u>Issued and fully paid:</u> 1,542,467,080 (2018 – 1,542,467,080) shares of no par value	<u>77,492,243</u>	<u>77,492,243</u>

22. DEFERRED INCOME TAXES

During the year, deferred income taxes are calculated in full on temporary differences under the liability method using a principal tax rate of 25%.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities. The amount determined after appropriate offsetting are as follows:

	<u>2020</u> \$	<u>2019</u> \$
Deferred tax liability	<u>17,639,599</u>	<u>8,640,848</u>

Deferred taxation charged to profit or loss comprises the following temporary differences:

	<u>2020</u> \$	<u>2019</u> \$
Balance brought forward -	8,640,848	5,108,641
Amount charged to profit and loss	8,998,751	3,532,207
Deferred tax liability at year-end	<u>17,639,599</u>	<u>8,640,848</u>

Deferred income tax liabilities are recognised as the Company will be subject to income tax at 50% of the tax rate (25%) of its earnings for the next four (4) years, if the Company remains listed on the Junior Market of the Jamaica Stock Exchange.

23. RELATED PARTIES TRANSACTIONS AND BALANCES

The statement of comprehensive income includes the following related party transactions

	<u>2020</u> \$	<u>2019</u> \$
Key management compensation		
Salaries:	<u>17,936,319</u>	<u>19,166,664</u>

24. CONTINGENCIES AND COMMITMENTS

- (i) The Company's attorneys reported in their letter dated 16 July 2020 that as of 31 May 2020:
- they were instructed as attorneys to represent the Company in a private and confidential matter.

They further reported that in their capacity of attorneys for the Company as at the date of their letter, 16 July 2020, they were:

- not aware of any matter that may result in any claim against the Company as at 31 May 2020
- they had no fees or disbursements invoiced to the Company that are outstanding or that are yet to be invoiced either prior to or after 31 May 2020.

25. EVENTS AFTER STATEMENT OF FINANCIAL POSITION DATE

In December 2019, a novel strain of Coronavirus was reported in Wuhan, China. The World Health Organization has declared the outbreak to constitute a "Public Health Emergency of International Concern." The COVID-19 outbreak is disrupting supply chains and affecting production and sales across a range of industries. The extent of the impact of COVID-19 on the Company's operational and financial performance will depend on certain developments, including the duration and spread of the outbreak, impact on customers, employees and especially foreign suppliers of the Company, all of which are uncertain and cannot be predicted.

At the point of signing and authorizing the financial statements, although the COVID-19 has negatively impacted the operations of the Company during the 4th quarter to the year ended 31 May 2020, management is confident that the Company remains strong and its long-term future is secure. The Company continues to innovate in its manufacturing segment by producing personnel protective products such as bleach and hand sanitizers and surface cleaners that are essential in the fight against the spread of COVID-19. Management does not anticipate any going concern challenges over the next 12 months.
