Interim Report to Our Shareholders

The Directors of Jamaica Broilers Group Limited (JBGL) now release the unaudited financial results for the quarter ended August 1, 2020 which have been prepared in accordance with International Financial Reporting Standards (IFRS).

Net profit after tax for the first quarter was \$383 million, an increase of 6% over the corresponding period in 2019. This increase in net profit was primarily as a result of the Best Dressed Chicken (US) acquisition and careful management of our operating expenditures.

Group revenues for the first quarter amounted to \$12.6 billion and a gross profit for the quarter of \$2.9 billion, remaining strong.

We are seeing improved corporate results due to early decision-making, aggressive cost reductions and improved FX positions. There has been a refocussing on the absolute basics to keep the company running profitably due to the challenges brought on by COVID-19. This has translated to a better and deeper foundation for the company.

Jamaica Broilers Group Limited

Interim Report to Our Shareholders (continued)

Three Months ended 1 August 2020

The Best Dressed Chicken, USA products are available in select supermarkets within the United States.

The operating divisions are very well positioned for growth as the various economies learn how to manage the pandemic and begin the steps to reopening. This pandemic has been a sort of reset of the business, making comparisons with previous quarters challenging but the Group has responded with resilience and efficiency to keep us on a solid growth path.

Jamaica Operations reported a segment result of \$730 million. Revenue for the Jamaica segment recorded a decline of 16% as a result of the pandemic but the impact on the segment result was mitigated by the diversification of income streams and enhanced product portfolio management. The team in BDC is highly motivated and understand how efficient they have to be with decision-making in

light of the new operating environment.

Our US Operations reported a segment result of \$316 million. External revenue increased by 31% over the period but was offset by the performance of lower sales of fertile hatching eggs. However, the sales of The Best Dressed Chicken line of products has been very well received and is driving us to increase production at a very aggressive pace. The depth of our investments in the US Poultry industry will certainly be of benefit in these times.

Haiti Operations reported a segment result for the first quarter of \$11 million, which is \$8 million or 40% below last year's segment result of \$19 million. Total revenue reduced by 13% and the current decline in performance is a result of the current political and economic instability being experienced in Haiti.

The Group's operations produced an operating profit of \$851 million, an increase of 25% over the prior year. A combination of many factors have led to this performance, not least of it being the sterling contribution of the staff, employees and contractors of the Group. We all realise that times have changed, and the way we do business has to continue to change, but the team is strong and we are excited and encouraged about the future.

The Staff, Management and the Board of Directors of Jamaica Broilers Group Limited continue to trust in the Lord's guidance for our company and are grateful for His Blessings and Provision.

Jamaica Broilers Group Limited

Notes to the Interim Financial Statements

Three Months ended 1 August 2020

ACCOUNTING PERIODS

The company's financial year consists of 12 accounting periods ending on the Saturday closest to the calendar month end. The accounting year ends on the Saturday closest to April 30.

BASIS OF PREPARATION

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) under the historical cost convention, as modified by the revaluation of biological assets and certain financial assets.

These financial statements are presented in Jamaican dollars unless otherwise indicated.

The accounting policies followed in these interim financial statements are consistent with those used in the audited financial statements for the year ended 2 May 2020.

SEGMENTAL FINANCIAL INFORMATION

Management has determined the operating segments based on the reports reviewed by the President and Chief Executive Officer that are used to make strategic decisions.

Segment information is provided for reportable segments as follows:

- Jamaica Operations
- US Operations
- Haiti Operations
- Other Caribbean Operations

The business is considered primarily from a geographical perspective.

Finance income and Finance costs are not included in the measure of segment results and are not regularly reviewed by the President and Chief Executive Officer.

The Other Caribbean Operations segment includes the net results of the JBGL Stockholders Nominee Limited (JBGLSNL), which represents the unrealised fair value of the Jamaica Broilers Group Limited shares. The results of JBGLSNL are not included in the consolidated financial statements as the movements are eliminated on consolidation.
