

INTERIM REPORT TO STOCKHOLDERS

Unaudited Group Results for the 6 Months Ended June 30, 2020

Chairman's Statement

The Board of Directors of Kingston Wharves Limited (KWL) presents the unaudited financial results for the period ended 30 June 2020. For the six-month period, the Group achieved consolidated revenues of \$3.4 billion, a 12% or \$450 million decline over the corresponding period in 2019. Net profit attributable to shareholders of \$1.1 billion decreased by 11% or \$136 million relative to the prior year.

Terminal Operations

The Terminal Operations division generated operating revenue of \$2.7 billion for the six-month period, a decrease of 12% over the corresponding period of the prior year. Divisional profits declined by 17% from \$1.2 billion to \$1.0 billion year-on-year.

The effects of the slowdown in the global economy were most apparent in the second quarter of 2020. As an essential service, the Kingston Wharves terminal remained active during the period under review and continued to be a crucial connection in the local and regional supply chain, moving goods to some 30 regional and international ports.

However, the fallout from measures to limit COVID-19 cases in Jamaica as well as in major markets around the world saw a marked reduction in the movement of some cargo types, primarily containers.

Logistics Services

The Logistics Services Division generated revenues of \$980 million, an increase of 2% over the prior year. Divisional profits increased by 2% relative to 2019 from \$296 million to \$302 million.

The Division performed creditably when taken in the context of the adverse market conditions precipitated by the COVID-19 pandemic. The division was deemed an essential service and, as such, undertook proactive measures to maintain our service standards and intensify our overall support for our customer base. These initiatives succeeded in mitigating the worst effects of the pandemic.

KWL's agile and reliable logistics services model continues to be an attractive option for businesses seeking solutions in managing their inventory, storage needs and supply chain challenges that have arisen as a result of the pandemic.

Outlook

Kingston Wharves operates in an industry that is impacted by general economic shocks. Shipping accounts for over 90% of global trade and ports are major players in facilitating the movement of commodities and consumer goods. The COVID-19 pandemic continues to constrict growth in major economies and disrupt goods producing activities and the global supply chain.

Kingston Wharves' diverse cargo handling capacity, its mix of transshipment and domestic cargo, and its range of logistics services on offer, ranging from terminal operations to warehousing and port security, positions it well to manage the current adverse economic conditions. KWL's multi-purpose port handles bulk shipments (including grains and liquid bulk); break bulk shipments (including construction materials and project cargo, motor vehicles and other automotive cargo) as well as containerized cargo. We are well organized to collaborate with shipping lines and owners of cargo on a long term basis to improve our systems infrastructure and technology and drive enhanced productivity and efficiency in these lines of business.

Growing demand for warehousing and logistics services is also a strong prospect, given the rise of e-commerce in changing how goods are moved from manufacturers to market. Businesses are looking for regional warehousing and other solutions closer to consumer markets. KWL is well positioned to take advantage of these emerging opportunities through our investment in port-centric logistics infrastructure, strategic acquisitions and by maximizing the benefits from our Special Economic Zone (SEZ) status.

As Jamaica continues to gradually re-open its economy, we expect improved consumer confidence, and increased import and export related activities. Kingston Wharves, however, remains mindful that the world is still navigating the worst of the COVID-19 crisis. As such, we continue to partner with our Government and private sector partners to implement hygiene and social distancing measures to protect our employees, customers and other stakeholders that will help to stem the spread of the virus in the population. We have also intensified our utilization of technology to promote non-touch payment methods and implemented an online LCL appointment system to streamline operations while enhancing social distancing.

At KWL, we are also fortunate to have a strong and liquid balance sheet. Accordingly, we are confident in our ability to maintain our COVID-19 management protocols and business continuity measures. These will be supported by aggressive cost management, but we will also strike a balance that allows us to continue to implement our medium term growth strategy.

The company has navigated uncertain times throughout its 75-year history and has emerged stronger while acting as a catalyst and facilitator of growth in the wider economy. We have every confidence that we will continue to play this important role. I thank our board, management and staff for their continued commitment to our success.

Jeffrey Hall

Chairman

Kingston Wharves Limited

**Notes to the Financial Statements (Unaudited)
for six months ended 30 June 2020**

Summary of Significant Accounting Policies

1. Identification and Principal Activities

The Company and its subsidiaries (the Group) are incorporated and domiciled in Jamaica. The principal activities of the Company and its subsidiaries comprise the operation of public wharves, stevedoring, logistics services and security services.

The wharfage rates and specified penal charges billed to customers by the Company are subject to regulation by the Port Authority of Jamaica.

The Company's registered office is located at the Total Logistics Facility, 195 Second Street, Newport West, Kingston.

2. Basis of Preparation

The condensed interim financial information for the period ended 30 June 2020 has been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. The condensed interim financial statements should be read in conjunction with the annual audited consolidated financial statements for the year ended 31 December 2019.

Accounting policies used are consistent with those used in the consolidated financial statements. Presentation of the condensed interim financial information is consistent with the annual financial statements. Where necessary the financials have been reclassified or extended from the previously reported condensed interim financial information to take into account any presentational changes made in the annual consolidated financial statements or in those condensed financial statements.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. Although these estimates are based on management's best knowledge of the current events and action, actual results could differ from those estimates. The procedures in determining these estimates are disclosed in Note 3.

3. Critical Accounting Estimates and Assumptions in Applying Accounting Policies

The Group makes estimates and assumptions that affect the reported amounts of the assets and liabilities within the next financial year. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Kingston Wharves Limited

**Notes to the Financial Statements (Unaudited)
for six months ended 30 June 2020**

4. Fixed Assets

All fixed assets are initially recorded at cost. Freehold land, plant and building are subsequently shown at market value, based on periodic (triennial) valuations by external independent valuers, less subsequent depreciation of plant and building. All other fixed assets are carried at cost less accumulated depreciation.

5. Leases

The Group has adopted IFRS 16 retrospectively from 1 January 2019, but has not restated comparatives for the 2018 reporting period, as permitted under the specific transitional provisions in the standard. The reclassification and the adjustments arising from the new leasing rules are therefore recognized in the opening balance sheet on 1 January 2019.

On adoption of IFRS 16, the group recognised a lease liability in relation to a lease, which had previously been classified as 'operating leases' under the principles of IAS 17 Leases. The liability is measured at the present value of the remaining lease payments, discounted using a weighted average incremental borrowing rate applied on 1 January 2019. The associated right-of-use asset for the property lease is measured at the amount equal to the lease liability.

The lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Assets and liabilities arising from a lease are initially measured on a present value basis. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee's incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment.

During the prior year the Group prepared its unaudited quarterly financial information on the basis of best available information and certain interpretations of IFRS16 guidelines. At 31 December 2019, in conjunction with our auditors, we performed a further detailed technical review which resulted in a revision to our original estimate of the value of the lease liability and associated right of use assets. This revision reduced the Group's assets and liabilities in equal measure and as such had no impact on the total shareholders equity or the net profit and comprehensive income recorded in the quarterly financial statements. We have not restated the prior year unaudited quarterly information for this change.

Kingston Wharves Limited

**Notes to the Financial Statements (Unaudited)
for six months ended 30 June 2020**

6. Intangible Assets

Separately-acquired rights and benefits under third party contracts with a finite useful life are shown at historical cost less subsequent amortisation. This is tested annually for impairment and carried at cost less accumulated losses. Other intangible assets which include computer software licenses are shown at historical cost and amortised over their estimated useful lives.

7. Investment Property

The investment property is carried at cost less accumulated depreciation. It is leased to tenants under long-term operating leases with rentals payable monthly.

8. Cash & Cash Equivalents

Net cash and cash equivalents at the end of the period represents cash and bank and short term deposits.

9. Deferred Tax

Deferred income taxes are calculated on all temporary differences under the liability method using a tax rate of 12.5% (2019 - 10.9%) for the parent and 25% (2019 - 25%) for subsidiaries.

10. Segment Reporting

Segment information is presented in respect of the Group's strategic business segments. The identification of the business segments is based on the Group's management and internal reporting structure. Segment results, assets and liabilities include items directly attributable to a segment, as well as those that can be allocated on a reasonable basis.

The Group's business segment reflect its current strategy and focus. The profit or loss before finance cost and taxation is used to measure the segment result. The Group is organised into the following business segments:

- (a) Terminal Operations - This incorporates the operation of public wharves and the stevedoring of vessels.
- (b) Logistics Services - This incorporates the provision of logistics facilities, port security services and refrigerated services.

11. Employee Share Ownership Trust

The company established an Employee Share Ownership Trust and earnings per share is calculated by dividing profit attributable to the group by the number of ordinary shares in issue excluding those held by the ESOP during the period.

Kingston Wharves Limited

**Notes to the Financial Statements (Unaudited)
for six months ended 30 June 2020**

12. COVID 19 Pandemic

During March 2020, the World Health Organisation declared the Coronavirus to be a global pandemic. The pandemic has resulted in a significant downturn in global commercial activity; as there is currently no cure the most recommended means of managing the contagion is social distancing. During the quarter the Jamaican Government implemented nightly island wide curfews, schools and businesses were temporarily closed, entertainment events have either been cancelled or suspended, local and global travel restrictions have been implemented, all of which have negative economic consequences. As a provider of terminal and logistics services for the domestic and transshipment market, the Group's operations are at varying stages of the impact cycle. The Group is continuing to monitor and manage the impact of the pandemic and the global economic downturn on its financial position, financial results and cashflows.
