

Q2 2020

Performance Report

DIRECTORS' STATEMENT

On behalf of the Board of Directors of Sagcor Group Jamaica Limited (SGJ or the Group) we present the report on the performance of our Group of companies for the six-months ended June 2020.

OVERVIEW –

The economic downturn caused by the pandemic has been felt around the world, with a decline in global economic output and increasing public debt, as many countries struggle to contain the health effects and consequent reduction in household income. Jamaica has weathered the health effects of the pandemic well in comparison to other countries and in recent weeks has begun a managed re-opening of the economy, however, the challenging environment has forced the Government to delay its targeted reduction in debt to GDP by two years as it seeks to manage the broad-based projected decline in GDP. At Sagcor we continue to endorse and support the cautious approach undertaken by the Government in regard to its finances.

In spite of the difficult environment, the Group's Insurance businesses have continued to show strong performance, most notably with net premium income being 20% higher than prior year. We have seen healthy new business sales and portfolio growth which continues to drive core results. The key metrics of our Commercial and Investment banking businesses have also remained strong and are expected to improve as the economy begins to show greater activity. Our results continue to be impacted by:

- Unrealized capital losses driven by the broad decline in bond and equity prices. In recent months, the local markets have rebounded somewhat and the impact of this has been reduced on a year to date basis;

HIGHLIGHTS

	June 2020 Unaudited	June 2019 Unaudited	% Change	Dec 2019 Audited

2019: \$1.64

- Significant unrealized IFRS 9 Expected Credit Losses (ECL) on loan portfolios and investment securities;
- COVID-19 and the resulting travel restrictions have adversely impacted our investments in hotel operations. The Group recognized:
 - A significant share of loss and impairment charge from its investment in associate (Playa) and
 - An impairment charge relating to the Goodwill that arose on the acquisition of the X-Fund Group in 2018

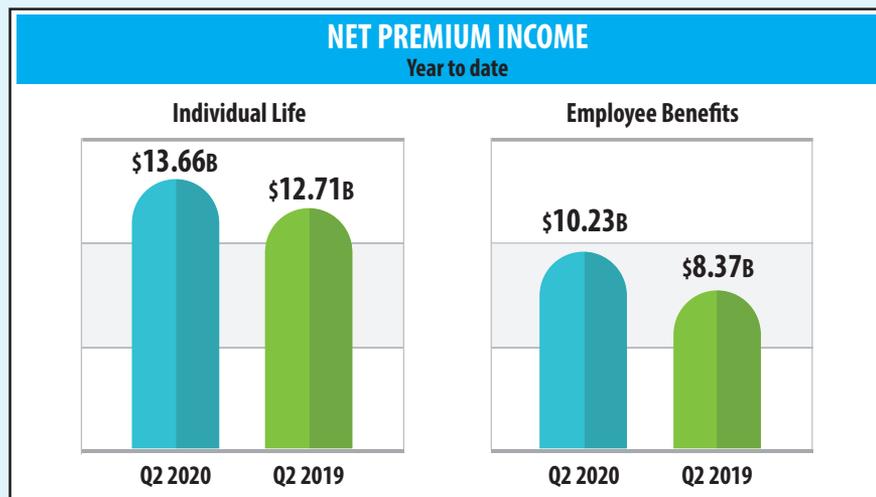

The Group generated net profit attributable to stockholders of \$2.47 billion for the quarter compared to \$1.88 billion for the March quarter and \$3.69 billion for the quarter ended June 2019. For the six-month period profits were \$4.36 billion showing a 32% decline compared to prior year. Profits before results attributed to Associate show a 7% decline compared to prior year. Total revenue before unrealized capital losses increased by 3% or \$1.25 billion. Hotel revenue has been deeply impacted since the worldwide collapse of the Tourism market, resulting in declines in the valuations of our Hotel businesses. The Group's earnings per share was reduced to \$1.12 from \$1.64 in the prior year.

Despite these adverse effects, the operating cash flow of the company has increased by \$2.48 billion and the Group continues to maintain strong liquidity by improving its cash position by \$6.63 billion.

FINANCIAL PERFORMANCE

The consolidated net profit attributable to stockholders of \$4.36 billion was generated from total revenues (including unrealized capital losses of \$5 billion) of \$38.85 billion. When compared to the prior year period, profit attributable to stockholders declined by 32% (an increase of 10% when impairment charges are excluded). The annualized return on stockholders' equity was 10% as against 16% for 2019.

Net premium income of \$25.36 billion increased 20% over 2019, an increase of 16% when normalized for premiums from Advantage General Insurance Company (AGIC) which was acquired in September 2019. Net investment income of \$9.05 billion was 12% better than last year. The Group has recorded substantial Expected Credit Losses (ECL) on its portfolios of loans and domestic and international investment securities. The value of equity investments has shown an improvement during the second quarter of 2020.

Fee and other income of \$6.97 billion was up 2% since last year, primarily from slowed growth of the Credit Cards and Payments business, as well as less corporate financing deals closed during the period. These are both direct results of the impact of COVID-19.

The Group recognized impairment charges of \$2.64 billion (additional \$1.47 billion in Q2), resulting from the lower valuations of our investments in hotel operations, a direct result of the uncertainty surrounding the expected impact of travel restrictions caused by COVID-19.

Despite the effect of unrealized losses on investment securities, the Group's assets showed a 3% increase since December 2019 and significant growth of 11% over prior year.

Stockholders' equity of \$93.73 billion as at June 2020 increased by 13% or \$10.93 billion over the prior year. There were large unrealized foreign currency gains of \$2.92 billion taken through Other Comprehensive Income resulting from translation of our foreign operations.

Individual Insurance

The Individual Life segment posted net profits of \$1.91 billion, 11% lower than 2019. Net premium income of \$13.66 billion was 7% higher than the comparative 2019 period. This was driven by new policy sales, both in Jamaica and Cayman, resulting in a 6% growth of the portfolio to 603,101 policies. There were large unrealized capital losses related mainly to our Segregated Funds and an increase of \$1.94 billion in benefits to policyholders. The increase in benefits is mainly due to withdrawals from Segregated policy funds, primarily driven by a change in the investment stance of our clients. The actuarial liabilities were positively influenced by improvements in morbidity and lapse experience.

Employee Benefits

The Employee Benefits segment produced profits of \$2.46 billion, being 11% more than in 2019. Overall new sales were significantly improved over prior year with annualized new premium income indicating a 29% growth. The segment has also seen improvements in claims ratios when compared with prior year. The increase in actuarial liabilities is higher than prior year driven by additional provisions for expected COVID-19 health claims and the greater level of annuities and health business written during the current year. This segment also recorded higher ECL on its investment securities portfolio.

Commercial Banking

Sagicor Bank contributed net profits of \$0.72 billion for the current period, a 31% reduction when compared to 2019. The results were severely impacted by higher ECL on loans as a result of the impact of COVID-19 on Tourism, Entertainment and Energy sector loans and the slower than expected recovery of the economy. Fee based income of \$1.94 billion was 3% more than prior year despite being limited by Payments channels and Credit Cards business slowing appreciably as a direct result of the decline in activity caused by COVID-19.

Total assets of \$148.92 billion were 13% above June 2019 and 5% higher than the December 2019 amount. Loans and advances, net of provision for loan losses, were \$88.37 billion, 22% higher than the June 2019 balance and \$3.71 billion or 4% ahead of December 2019. Customer deposit liabilities of \$114.48 billion were up 13% on prior year.

Investment Banking

Sagicor Investments showed strong results during the period, contributing \$1.29 billion (excluding the share of AGIC earnings) to the Group, 12% higher than prior year. Fee income for the quarter was down compared to the similar period in prior year as less corporate financing deals were closed. The fluctuating rate of the J\$ to the US\$ during the period also negatively impacted these results as unrealized revaluation gains were significantly below prior year. However, this segment picked-up appreciable trading gains and improvement in its net investment income, contributing to revenue of \$3.11 billion, being 14% above 2019.

LIQUIDITY AND SOLVENCY

Group consolidated cash generated from operating activities was \$9.10 billion compared to \$6.62 billion in 2019. The liquidity of the Group remained strong with Cash and Cash Equivalents at the end of June 2020 being \$25.69 billion (2019: \$19.06 billion). The Group has maintained its strong capital position and continues to exceed regulatory capital requirements across all entities.

CAPITAL RATIOS				
Regulated Entities	Key Regulatory Ratios	Minimum Statutory Requirements	June 30, 2020	June 30, 2019
Sagicor Life Jamaica Limited	Minimum continuing capital and surplus requirements ratio (MCCSR)	150.0%	189.9%	170.4%
Sagicor Bank Jamaica Limited	Regulatory capital to risk weighted assets ratio	10.0%	13.2%	14.0%
Sagicor Investments Jamaica Limited	Regulatory capital to risk weighted assets ratio	10.0%	17.4%	16.5%
Sagicor Life of the Cayman Islands Limited	Minimum capital requirement (MCR)	125.0%	353.5%	485.0%
Advantage General Insurance Company Limited	Minimum capital test ratio (MCT)	250.0%	334.0%	526.0%

2. Sagikor Life Financial advisor, Glenroy Castle visits 90-year-old, Margaret Jones and her daughter and caretaker, Hermine Collins at their home in Greenvale, Mandeville where he donated food items and toiletry to them as part of the Sagikor Life Mandeville branch initiative to assist some of the most vulnerable during the COVID-19 pandemic.

CORPORATE SOCIAL RESPONSIBILITY

During the second quarter of 2020, Sagikor Group Jamaica's corporate social responsibility initiatives were significantly geared towards assistance in the fight against COVID-19.

The Group donated \$20 million towards the Private Sector Organization of Jamaica (PSOJ) COVID-19 Jamaica Response Fund, which helped to procure important critical care equipment. Additionally, during the period, the company invested over \$2 million in providing handwash stations for the markets in the Kingston and St. Andrew Municipal, as well as providing a handwash station at the Bustamante Hospital for Children.

Other COVID-19 related donations included: \$3 million to Ready TV for management and distribution of an E-Homeschool channel which provides educational content daily on local TV for primary level school children, \$2.5 million to Citizens Response Jamaica to help towards COVID-19 response and \$5 million to Edufocal to support over 30,000 students to access study materials online. Several other donations were done at the community level through the company's various branches.

The various renovation and upgrade work for schools under Sagikor Foundation's Adopt-A-School programme were also completed in the second quarter. The foundation donated a printer and desktop computer to each school, in an effort to assist the little ones with preparing schoolwork as they have had to stay home due to the pandemic.

Also, Sagikor Foundation opened its annual Scholarship programme, offering scholarships to students exiting primary school and matriculating to the secondary school level, as well as students pursuing tertiary level education. Over \$25 million dollars will be donated to students towards their tertiary and secondary education.

OUTLOOK

The IMF world economic forecast of April 2020 indicated an unprecedented decline in global activity due to the COVID-19 pandemic and data releases since then suggest even deeper downturns than previously projected for several economies. The outlook for the Jamaican economy has worsened since March 2020 with recovery expected to be more gradual than first thought; the current estimated contraction of GDP for 2020 is 5.6%.

In April 2020 the Government of Jamaica (GOJ) put in place measures to support the country's Balance of Payments account, hard hit by the fall-out in the Tourism and Remittance sectors inflows. The measures implemented by the GOJ supplemented by swift action by the central bank have enhanced liquidity provision and limited the rise in borrowing costs, effectively forestalling significant near-term losses. Jamaica's Consumer Confidence Index fell from 172.9 in March 2020 to 165.2 in June 2020, and investment is expected to be subdued as firms defer capital expenditures amid high uncertainty. Tax revenues are also expected to remain muted due to lower economic activity.

A high degree of uncertainty exists with the possibility of a second wave of infection having a longer and more debilitating effect on economies worldwide. We continue to carefully monitor and assess the economic conditions. We remain committed to the health and wellness of our team, clients and stakeholders by implementing a multidimensional approach to safeguard health, minimize risk and ensure business continuity. Sagikor Group Jamaica remains cautiously optimistic about the future but feels it prudent to take a conservative view of the potential impact of COVID-19 and manage our businesses accordingly.

ACKNOWLEDGEMENT

We would like to express our deep gratitude to our Team members, Financial Advisors and Brokers for being able to adapt to serving our customers in these difficult times, and continuing to embody Sagikor's Values. To our customers for the trust and confidence they have placed in us, we will continue to protect you during these difficult times. Thank you to our supportive business partners and to our stockholders for their continued confidence. Particularly in these difficult times, we recognize our Directors for their diligence and wise counsel.

Explanatory Notes
1. Identification and Principal Activities

Sagikor Group Jamaica Limited (SGJ), the company) is incorporated and domiciled in Jamaica and is listed on the Jamaica Stock Exchange. It is 32.45% (2018 - 32.45%) owned by LOJ Holdings Limited (LOJH) which is also incorporated and domiciled in Jamaica and 16.66% owned by Sagikor Life Inc. (SLI) which is domiciled in Barbados. Both LOJH and SLI are wholly owned by Sagikor Financial Company Limited (Sagikor), the ultimate parent company, which is incorporated and domiciled in Bermuda. Sagikor has an overall interest of 49.11% (2018 - 49.11%) in the company. The other significant shareholder in SGJ is Panjam Investment Limited with a 30.20% (2018 - 31.55%) holding.

The registered office of the Sagikor Group Jamaica Limited is located at 28 - 48 Barbados Avenue, Kingston 5, Jamaica.

Sagikor Group Jamaica comprises many companies offering a wide range of financial products and services. These include life and health insurance; property and casualty insurance; annuities; pensions administration; investment services; commercial banking; investments banking; captives management; property management and real estate sales and rentals.

2. Basis of preparation

These condensed consolidated financial statements should be read in conjunction with the accounting policies and other disclosures as set out in the full audited financial statements with disclosure notes for the year ended 31 December 2019.

3. Impairment of Goodwill

The containment of COVID-19 has been a global priority, resulting in quarantine measures, travel bans and border closures worldwide. The outbreak has brought the international tourism sector to a standstill, causing a sharp drop in tourist arrivals and significant loss in revenues. These factors, coupled with the high level of uncertainty surrounding the virus, triggered the impairment assessment.

For the period ended 30 June 2020, the Group recorded impairment charges of \$853.50 million in respect of goodwill arising on consolidation of the X-Fund Group. These impairment charges are recognized in the consolidated income statement. The recoverable amount used for X-Fund's cash generating units (CGUs) was based on the higher of fair value less cost of disposal and value in use.

Assumptions used in determining the recoverable amounts of the CGUs of the X-Fund Group included discount rates, projected capital expenditure, growth rates and management forecasts as well as the ability to obtain sufficient funding to remain as going concerns.

4. Accounting estimates and judgements

Certain amounts recorded in these unaudited consolidated financial statements reflect estimates and assumptions made by management about insurance liability reserves, investment valuations, interest rates and other factors. Actual results may differ from the estimates and assumptions made. Interim results are not necessarily indicative of full year results.

The carrying value of our Investment in Associate has been impacted by issuance of US\$204 million of additional debt financing and the sale of US\$20 million of its ordinary shares in a private transaction.

5. Impact of COVID-19

Since the start of 2020, bond yields, equity prices and oil prices have fallen sharply and on the local side, so too has the Jamaica Stock Exchange (JSE) combined index. Key sectors of the Jamaican economy particularly, tourism, remittances, manufacturing, transportation, logistics and related sectors have experienced significant disruption. Sagikor Group Jamaica continues to experience the impact from the economic downturn. These financial results have been adversely impacted in multiple areas including: actuarial reserves, ECL, unrealized capital losses, hotel operations and impairment of goodwill.
