

We're almost there!

JSSE VENTILATOR COVID-19 RELIEF FUND

We thank all our donors and look forward to fully funding this project:

The Jamaica Social Stock Exchange (JSSE) COVID-19 Appeal Fund for Ventilator Repair target of JD\$3,509,200.00 started in late March. With donations from our local and overseas partners, we have raised JD\$2,956,00.00 so far.

The recent donation by Scotia Foundation of US\$5,000.00 has taken us closer to our target!. The recent upsurge in positive cases and the unfortunate deaths of more persons are a clear indication that ventilators are still needed, in the system. Please visit the JSSE website www.jssejamstockex.com and make your contribution to close the gap of JD\$550,579.00 to a very important project to save lives.
