

EVERYTHING FRESH

WHERE SERVICE COUNTS

October 16, 2020

Dear Valued Shareholder,

Consistent with our vision when Everything Fresh Jamaica Limited completed its IPO, the company has sought to replicate its operations and its success in other islands of the Caribbean region.

In early 2019 with the blessing of the Board, the Company began exploring a transaction that would accomplish this critical diversification goal. Now with the completion of the transfer of a 60% stake of Everything Fresh Bahamas Limited to the parent company Everything Fresh Jamaica Limited, the listed company takes this opportunity to update all shareholders via this JSE and related communications.

Everything Fresh Bahamas Limited is focused on supplying food products to supermarkets and the retail trade in the Bahamas. It has realized remarkable growth from a standing start, propelled by a knowledgeable, vibrant and logistics savvy blend of Bahamian and Jamaican staff.

Despite the challenges of the COVID-19 pandemic however, we expect to see it continue to deliver value to the market and grow further in the near term.

Please look for additional information on the performance and impact of this new subsidiary in our financial statements to come.
