1) Nature of Operations and Going Concern

Tree of Knowledge International Corp. ("Tree of Knowledge", or "TOKI", formerly Courtland Capital Inc. or "Courtland") is incorporated under the Business Corporations Act in the Province of British Columbia. TOKI and its subsidiaries (collectively referred to as the "Company") produce and distribute hemp-based cannabidiol ("CBD") products, which includes premium industrial hemp-derived CBD oil, tinctures, capsules and vape pens. The Company also operates a business in the field of medicine focused on chronic pain management serving the Greater Toronto Area. The Company's shares are publicly listed on the Canadian Securities Exchange ("CSE") under the symbol "TOKI" in Canada and on the OTC Markets in the United States under the symbol "TRKWF" (see Note 25(k)). The address of the Company's registered office is 209-5460 Yonge Street, Toronto, ON, M2N 6K7, Canada.

These unaudited interim condensed consolidated financial statements have been prepared on a going concern basis which contemplates the realization of assets and the payment of liabilities in the ordinary course of business. Should the Company be unable to continue as a going concern, it may be unable to realize the carrying value of its assets and to meet its liabilities as they become due.

The Company has a net loss for the nine months ended September 30, 2020 of \$3,903,855 (2019 - \$5,096,693) and negative cash flows from operating activities of 451,178 \$ (2019 - \$1,799,466 of negative cash flow). In addition, as at September 30, 2020 the Company has an accumulated deficit of \$46,049,480 (December 31, 2019 - \$42,145,625 of accumulated deficit) and working capital deficiency of \$3,455,834 (December 31, 2019 - \$2,382,452 of working capital deficiency). These conditions indicate the existence of material uncertainties which cast significant doubt about the Company's ability to continue as a going concern.

The Company's ability to continue as a going concern is dependent upon its ability to attain profitable operations and generate funds therefrom, to resolve its litigation and to continue to obtain financing sufficient to meet current and future obligations and/or restructure the existing liabilities. These consolidated financial statements do not reflect the adjustments or reclassification of assets and liabilities which would be necessary if the Company were unable to continue as a going concern.

2) Basis of Preparation

Statement of compliance

These unaudited interim condensed consolidated financial statements for the three and nine months ended September 30, 2020 and 2019 ("financial statements"), including comparatives, have been prepared in accordance with International Accounting Standard ("IAS") 34, Interim Financial Reporting ("IAS 34") using accounting policies consistent with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standard Board ("IASB") and Interpretations of the International Reporting Interpretations Committee ("IFRIC").

These financial statements were approved and authorized by the Board of Directors on November, 2020.

(formerly Courtland Capital, Inc.)

Notes to the Unaudited Interim Consolidated Financial Statements For the nine months ended September 30, 2020 and year ended 2019

(Expressed in US Dollars unless otherwise stated)

Basis of measurement

These financial statements have been prepared on the basis of accounting policies and methods of computation consistent with those applied in the Company's December 31, 2019 annual financial statements.

These financial statements have been prepared on a historical cost basis. The financial statements are presented in US dollars unless otherwise indicated.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies.

3) Significant Accounting Policies

These financial statements are comprised of the accounts of the Company and its subsidiaries. These financial statements have been prepared using accounting policies consistent with those used in the annual consolidated financial statements.

4) Accounts Receivable

The following is a breakdown of accounts receivable::

As at	Se	ptember 30, 2020	D€	ecember 31, 2019

(i) Intellectual property – Licenses

The Company holds licenses for certain packaging of and dispensing products for CBD oils. The intellectual property is licensed until 2023. Payments of \$150,000 in cash and \$165,000 in shares of the Company's common stock were made in the year ended December 31, 2018.

(ii) Patent

On January 29, 2019, the Company acquired a patent through the issuance of 4,036,362 common shares. The shares were issued at CAD\$0.165 per share for total consideration of \$502,035 (CAD\$666,000).

(iii) Patient Relationships

The Company acquired Asterion's continuing operations including its relationships with patients. The Company utilized a Multi-Period Excess Earnings Method ("MEE Method") in arriving at the fair value of Patient Relationships. Such an approach was deemed appropriate as Asterion has existing recurring revenues from its patient base and is projecting continued revenues and net income going forward. Further, such an approach considers the value of the cash flows that will be available to the Company from the existing patient base.

(iv) Strategic Alliance Agreement

The Company acquired Asterion's existing strategic alliance agreement ("JNMI Agreement") with Jack Nathan Medical Inc. ("JNMI"). With the JNMI Agreement, Asterion has access to a healthcare system across Canada for its education and research platform and to implement specialty pain clinics. Management deemed it appropriate to utilize a MEE Method in arriving at the fair value of JNMI Agreement. Such an approach was deemed appropriate as the Company is projecting continued revenues and net income going forward. Further, such an approach considers the value of the cash flows that will be available to the Company from the JNMI Agreement. At December 31, 2019, the Company wrote off the intangible asset as fully impaired. On August 17, 2020, the Company terminated the JNMI Agreement.

(v) Brand Names

The Company acquired Asterion's subsidiaries' brand names. Management deemed it appropriate to utilize a Relief from Royalty Method in arriving at the fair value of the brand name. The Relief from Royalty Method is based on the proposition that a firm would be willing to pay a royalty in lieu of ownership, to possess the benefits of the brand names.

9) Accounts payable and Accrued Liabilities

Accounts payable and accrued liabilities are as follows:

	\$	223,218	\$ 343,566	\$ 566,784

- (i) In April 2018 the Company had a balance due to two founding shareholders and principals of the Company, Michael Caridi and Brian Main, totaling \$790,906. The amounts due consisted of accrued salary, advances, and expenses paid by them on behalf of the Company. The parties agreed to a settlement whereby 50% of the balance was settled with common shares of the Company and 50% was formalized in promissory notes. Michael Caridi and Brian Main each received 416,318 common shares with an aggregate fair value of \$484,090 to settle \$395,453 which represented 50% of the outstanding balance. A loss on settlement of debt of \$88,637 was recognized in the year ended December 31, 2018 for the difference between the fair value of the common shares and amount of debt settlement. The remaining balance of \$395,453 was formalized in promissory notes of \$197,727 to each of the two shareholders. The notes bear no interest bearing and are due on December 31, 2019. In December 2018, Michael Caridi exchanged the note balance of \$197,727 for 1,181,159 common shares of the Company. As at September 30, 2020, the promissory note payable to Brian Main of \$197,727 remains outstanding and is due on demand.
- (ii) On October 1, 2018, the Company and Michael Caridi and Brian Main (the "Lenders") agreed to separate grid promissory notes (the "Notes") whereby the Company promised to pay the Lenders up to an aggregate amount of \$700,000 (Michael Caridi \$400,000, Brian Main \$300,000) in amounts due the Lenders for compensation, advances, and other amounts due. The Principal Amounts bear no interest and are repayable in increments of twenty thousand (\$20,000) per month starting January 1, 2019, with any remaining amounts due on or before December 31, 2020, or as otherwise agreed with the Lender. The initial note balances due the Lenders on the date of the agreement totaled \$369,057 which represented all amounts owed to the Lenders for compensation and expenses through September 30, 2018. During the nine months ended September 30, 2020, no payments were made on the Notes. As at September 30, 2020, the Note balances were \$223,218 and \$145,839, respectively, to Michael Caridi and Brian Main.

11) Loss per Share

For the nine months ended September 30, 2020, basic and diluted loss per share has been calculated based on the loss attributable to common shareholders of \$3,903,855 (2019 – net loss of \$5,096,693) and the weighted average number of common shares outstanding of 240,041,347 (2019 – 212,788,933) for basic and diluted loss per share. Diluted loss per share did not include the effect of stock options and warrants as they are anti-dilutive.

12) Financial Instruments and Financial Risk Management

The Company is exposed to minimal credit risk attributable to customers. Additionally, the majority of the Company's cash is in major Canadian and US banks in general interest-bearing accounts.

(a) Credit Risk

Credit risk refers to the risk that a counterparty will default on its contractual obligation, resulting in financial loss to the Company. Such risks arise primarily from certain financial assets held by the Company consisting of accounts receivable. The Company's maximum exposure to credit risk is limited to the carrying amount of the financial assets.

(b) Liquidity Risk

Liquidity risk is the risk that the Company will not have sufficient cash resources to meet its financial obligations as they come due. The Company's liquidity and operating results may be adversely affected if the Company's access to the capital market is hindered, whether as a result of a downturn in stock market conditions generally or related to matters specific to the Company. The Company monitors cash on a regular basis and reviews expenses and overhead to ensure costs and commitments are being paid in a timely manner. At September 30, 2020, the Company had a cash balance of \$880,559 (December 31, 2019 - \$63,432).

Accounts payable and accrued liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

(c) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is currently not exposed to interest rate risk as all interest bearing instruments are carried at fixed interest rates.

(d) Currency Risk

Currency risk arises on financial instruments that are denominated in a foreign currency, i.e. in a currency other than the functional currency in which they are measured. As at December 31, 2019, the Company had functional currency of Canadian dollars and US dollars. Management closely monitors the fluctuation of the Company's foreign currency, and management believes the foreign currency exchange risk derived from its other activities is low and therefore does not hedge the foreign currency exchange risk arising from these activities.

(e) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices and is comprised of currency risk, interest rate risk, and other price risk. The Company currently does not have any financial instruments that would be impacted by changes in market prices as the equity investments have been fully impaired.

13) Commitments and Contingencies

The Company is committed under several agreements to make future payments for various services and consideration. Minimum annual future payments are approximately as follows:

- (i) As at January 1, 2019, the Company held leases for three premises of its various subsidiaries. On June 1, 2018, the Company entered into a strategic alliance agreement with Jack Nathan Medical Inc. ("JNMI"). The agreement provides the Company the right to operate pain clinics in all JNMI health clinics licensed across Canada. The agreement provides roles and responsibilities for each party in the joint development and implementation of training and education programs. As consideration for entering into this agreement, JNMI was issued 5% of the shares of Asterion, which subsequent to the business combination, resulted in 10,646,693 common shares being issued to JNMI.
- (ii) Implicit within the leases are common area costs for facilities shares between the Company and other tenants of the landlord. Management has elected not to capitalize these amounts as lease payments for right-of-use assets under IFRS 16. For the year ended December 31, 2019, the Company incurred \$66,140 of common area costs. This lease was terminated in September 2020, effective immediately.
- (iii) As of January 15, 2019, the Company entered into a research agreement whereby the Company sponsors the development of new technologies in collaboration with Ryerson University. Under the agreement, the Company has committed to paying \$268,767 over the next two years of which \$32,972 was paid by December 31, 2019.
- (iv) On June 5, 2020, a lawsuit was filed against Kindness and TOK NV in respect of their premises. The companies were evicted from the premises, no longer have access to the property and equipment and effectively ceased operations there. The Company has recognized \$667,421 of impairment of long-lived assets effective December 31, 2019, consisting of the following:

Total	\$ 667,421
Right-of-use assets	205,141
Intangible assets	199,500
Property and equipment	\$ 262,780

The Company also derecognized the lease liability of \$216,893 associated with the premise and recognized a contingency liability of \$324,279.

(v) The Company is subject to litigation, claims and governmental and regulatory proceedings arising in the ordinary course of business. The Company accrues a loss contingency for these lawsuits and claims when it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated. While the outcome of these lawsuits and claims cannot be predicted with certainty, it is the opinion of the Company's management that the loss for any litigation matters and claims that are reasonably possible to occur will not have a material adverse effect, individually or in the aggregate, on its consolidated financial position, cash flows or results of operations.

14) Subsequent Events

The Company has evaluated all subsequent events through November 30, 2020, which is the date the financial statements were available to be issued. Management has determined that except noted below, no events or transactions occurring after the balance sheet date substantially affects the amounts, presentation, and disclosure of the accompanying financial statements.

(a) Since December 31, 2019, the COVID-19 pandemic has caused a widespread health crisis that has affected economies and financial markets around the world resulting in an economic downturn. In response to the outbreak, governmental authorities in Canada and internationally have introduced various recommendations and measures to try to limit the pandemic, including travel restrictions, border closures, non-essential business closures, quarantines, self-isolations, shelters-in-place and social distancing. The COVID-19 outbreak and the response of governmental authorities to try to limit it are having a significant impact on the private sector and individuals, including unprecedented business, employment and economic disruptions. The continued spread of COVID-19 nationally and globally could have an adverse impact on the Company's business, operations and financial results, as well as a deterioration of general economic conditions including a possible national or global recession. Due to the speed with which the COVID-19 situation is developing and the uncertainty of its magnitude, outcome and duration, it is not possible to estimate its impact on the Company's business, operations or financial results, including the Company's ability to secure financing; however, the impact could be material.
