

## **SSLVC advises of the sale of a 20% stake in Blue Dot Data Intelligence Limited**

SSL Venture Capital Jamaica Ltd. (SSLVC) advises that it has sold a 20% stake in Blue Dot Data Intelligence Limited to Yes Iyah Limited. The terms of the transaction were not disclosed. Yes Iyah Limited is a company operated by Ryan Reid, Michael Banbury and Sean Shelton.

SSLVC had notified the market on May 1, 2020 that it sold the shares to the Founder of Blue Dot and later notified on August 15, 2021 that the Founder's obligations were not completed. SSLVC exercised its rights, and the Agreement was repudiated. 20% of the shares held by SSLVC were then sold to a third party Yes Iyah Limited on October 06, 2021. SSLVC is in discussions to sell the remaining shares and will notify the market as soon as the transaction is completed. The relationship between SSLVC and the Founder remains positive.

SSLVC wishes the new investors and Blue Dot Data Intelligence well as they seek to grow and expand the company.
