The Board of Directors of GWest Corporation Limited is pleased to present the company's unaudited financial statements for the quarter ended September 30, 2021 and the six months year to date ended September 30, 2021.

The company reported an operating profit of \$2.8M for the quarter which compares with an operating loss of \$10.1M in the corresponding quarter last year. The results demonstrate encouraging signs and the hope for continued improvement for the future. Finance costs for the quarter were \$9.9M, resulting in an overall net loss of \$7.16M compared to finance costs of 10.1M and overall net loss of \$20.26M for the corresponding quarter to September 30, 2020. This is a 64% reduction in losses for current quarter over the previous quarter to September 30, 2020.

The results for the year to date six months to September 30, 2021 showed an operating profit of \$1.4M. Finance costs for this six month period was \$19.5M, resulting in an overall net loss of \$18.08M compared to finance costs of \$18.9M and an overall net loss of \$37M for the corresponding period in 2020. This is a 51% reduction in losses for the six months to date.

The results were impacted by the following:

Revenue increased by 35% this quarter and 20% for the year to date. The increase in revenue is mainly attributable to the increase in income from patient fees resulting from increased patient count.

Cost of sales increased in line with revenue however we were able to contain our administrative and other operating expenses.

Finance cost increased marginally year to date due to an increase in borrowings to fund the capital expenditure required to complete our surgery centre and overnight in-patient facility.

Financial Position

GWest Corporation Ltd had total assets of \$1.67B at September 30, 2021, compared to \$1.60B at September 30, 2020. This is due to increased property plant and equipment as a result of the capital expenditure on the build-out and associated equipment of our surgery centre and overnight inpatient facility.

Mentor:

Our cash and short term deposits decreased from \$67.93M to \$58.80M over the period due to capital expenditures over the period.

Outlook

During the period we completed the build out of our surgery centre and overnight in-patient facility, which is expected to become operational within the third quarter of our financial year. Our surgery centre consists of two major operating rooms, a minor operating room, recovery rooms and an observation in-patient facility.

With the increased take up of vaccinations and gradual return to some form of normalcy, we remain cautiously optimistic about the future. Our outlook for the coming quarters remains positive as there are signs that there will be further opening up of the economy and a rebound of both stopover tourism and cruise tourism. We have seen increased enquiries in our investment properties and we expect to see improvement in the occupancy level in the upcoming periods.

The management and board will continue to pursue a strategy of steady growth while increasing our efficiency and we are committed to improving our shareholders value.

In closing we which to thank our customers, patients, suppliers and staff for their ongoing support in our continued effort in growing your company.
