

DIRECTORS' REPORT

On behalf of the Board of Directors of Sagicor Real Estate X Fund Limited (X Fund or the Group), we present the performance of our Group of companies for the quarter ended March 2022.

OVERVIEW

Sagicor Real Estate X Fund produced positive results for the first quarter ending March 2022. The Group posted net profits attributable to stockholders of \$181.61 million, a significant improvement over the prior year's net loss of \$202.11 million. The Group's results were driven by an increase in hotel revenues, amidst the relaxation of local and international travel restrictions. The performance fueled growth in shareholder value and returns, as earning per share was \$0.08 (March 2021: (\$0.09)), whilst X Fund's share price ended the quarter at \$8.33.

EARNINGS

The Group's earnings were influenced by total revenues of \$1.79 billion, a 68% increase against the prior year. Hotel revenues grew by \$995.29 million over the prior year aided by high occupancy levels and increased bookings for corporate and individual events during the first quarter. Notably, the improvement in hotel revenues for the first quarter in 2022, was a 17% increase over pre-pandemic levels. The Group's revenues were also impacted by capital losses of \$1.77 million (2021: \$331.24 million Gain), reflective of the volatility in the foreign exchange market.

X Fund Cash Resources by Quarters

J\$ MILLIONS

X Fund hotel margins doubled to 29% despite a 97% or \$601.89 million increase in hotel expenses over the prior year. The Group also benefited from a \$72.51 million decrease in interest costs, stemming from deleveraging of the Balance Sheet.

DIRECT HOTEL OPERATIONS

DoubleTree Orlando (DTO) results strengthened its robust recovery into the first quarter ending March 2022. The segment recorded profits of \$131.65 million, a \$317.55 million improvement over the prior year's loss. Occupancy levels increased by 8.4% since December 2021 and 21.3% since March 2021 to close at 91.60%. The segment had an increase in hosting of large group conferences, while the average daily rates rose in-line with booking demand. These factors contributed to hotel revenues of \$1.72 billion, a significant increase over prior year's amount of \$721.02 million.

INDIRECT COMMERCIAL OPERATIONS

The Group's indirect commercial operations comprised investments in Jamziv Mobay Jamaica Portfolio Limited (Jamziv) and units in the Sigma Real Estate Portfolio. The segment recorded a loss of \$6.21 million, an \$18.40 million improvement on the prior year. Restructuring of our Indirect Commercial Operations in prior year, through the sale of Playa shares generated liquidity that was used to retire debt facilities and purchase investment securities assigned to Other Operations. This strategic move yielded a positive outcome as the Group benefited from reduced interest cost and higher interest income.

OTHER OPERATIONS

The segment recognised profits of \$56.18 million, a marked improvement over the performance last year. This was due to investing in higher yielding securities, which resulted in interest income of \$67.57 million (March 2021: \$9.22 million) and net capital gains of \$11.07 million (March 2021: 0.53 million).

Liquidity and Solvency

The Group generated positive Cash Flows of \$931.20 million from its operating activities (2021: \$227.87 million). Cash and cash equivalents excluding restricted cash reduced to \$4.80 billion (2021: \$14.19 billion), due to reinvesting in longer term higher yielding securities.

Balance Sheet

The Group's total assets were \$31.58 billion at March 2022 and \$31.32 billion at December 2021. Stockholders' Equity at March 2022 was \$16.73 billion, a slight improvement over the \$16.59 billion as at December 2021. Market capitalization at period end was \$18.68 billion.

OUTLOOK

The start of the year has been tempered with unpredictability, from the emergence of a new variant of the novel Corona virus to the geopolitical conflict in Ukraine. The Federal Reserve Bank of Atlanta has released data which estimates the GDP growth rate for the first quarter 2022 of 1.3%, which has slowed in comparison to 2021's GDP growth rate of 5.7%. The US economy grew by 6.9% in the fourth quarter of 2021, higher than the 2.3% of the third quarter, resulting from higher inventory buildup by manufacturing. The USA also increased its leadership position among the world's economies by 0.3%, which is a strong signal that economic growth is likely in the future despite the uncertainties. USA GDP is projected to be 3.0% year-over-year, which, although slower

than 5.6% in 2021, remains above pre-COVID trend.

International tourist arrivals in Florida more than doubled (+130%) in January 2022. Upcoming quarters are likely to present more opportunities for growth, particular with business travel expected to gain momentum. A recent survey conducted by the USA Travel Association indicated that 77% of business travelers and 64% of employed Americans agreed that it is important to return to business trips. As more and more airlines and States reduce their COVID-19 restrictions, opportunities for recovery and growth become apparent.

X Fund continues to carefully monitor and assess the current economic environment. The Group is committed to the health and wellness of our team, clients, and stakeholders

by implementing a multidimensional approach to safeguard health, minimize risk and ensure business continuity. We remain cautiously optimistic about the future and continue to manage the business accordingly.

We thank our stakeholders for the confidence they continue to place in us.

Basis of preparation

These condensed financial statements have been prepared in conformity with International Financial Reporting Standards (IFRS) and the accounting policies as set out in note 2 of the

December 31, 2021 audited financial statements.

Standards, interpretations and amendments to published standards effective in the current year.

There are several new standards and amendments to published standards that came into effect 1 January 2022. No significant impact to the financial statements has been determined from the adoption of these standards.

Impact of COVID-19

The roll-out of vaccines and progressive relaxation of restrictions have generated optimism and increase in consumer confidence, and key sectors of the economy particularly, tourism, manufacturing, transportation, logistics and related sectors have continued to show growth but are generally below pre-COVID levels. For the quarter ending 31 March 2022, the Group experienced improved performance from its shift in strategy and business model which has cushioned some of the adverse financial results amidst variants and global supply chain issues.
