

DIRECTORS' REPORT

On behalf of the Board of Directors of Sagicor Real Estate X Fund Limited (X Fund or the Group), we present the performance of our Group of companies for the six-months ended June 2022.

OVERVIEW

In the midst of global economic challenges and adverse market conditions, Sagicor Real Estate X Fund continues on a strong pace of recovery to pre-pandemic performance. The Group recorded net profits attributable to stockholders of \$110.16 million, for the period ending June 30, 2022, a marked improvement over the prior year's net loss of \$47.39 million. The Group's core operations, hotel activities, continue to be the main driver of the results. The performance underlines an increase in earnings per share to \$0.05 (June 2021: (\$0.02)) and X Fund's share price ended the quarter at \$8.22.

EARNINGS

The Group's earnings were driven by a 27% year-over-year growth in total revenues to \$3.42 billion. The increase in occupancy levels and hotel bookings resulted in a \$1.68 billion, or 90% improvement in hotel revenues over the prior year. This outpaced the increase of \$1.09 billion or 76% in hotel expenses, resulting in an improvement in hotel margins from 23% to 29%. An increase in the Group's interest-earning assets and a decrease in finance costs contributed favourably to the Group's performance. However, market volatilities caused by rising interest rates and high inflation generated capital losses of

\$275.15 million (2021: \$803.47 million Gain).

DIRECT HOTEL OPERATIONS

DoubleTree Orlando (DTO) recorded profits of \$290.42 million, a \$408.43 million improvement over the prior year's loss. This was driven by growth in hotel revenues and improvements in hotel margins, against the backdrop of an 11% increase in occupancy levels since December 2021 and 13% since June 2021 to close at 94%. The increase in booking demand and the growth in corporate and group events also gave rise to higher average daily rates. Hotel expenses continued to be efficiently monitored in line with the growth in revenues.

INDIRECT COMMERCIAL OPERATIONS

During the quarter, the Group continued its efforts to optimise operations and improve financial performance, through the wind up of Jamziv Mobay Jamaica Portfolio Limited (Jamziv), which previously held the Playa shares. The Playa shares were sold in 2021. Currently, the segment includes our holdings in the Sigma Real Estate Portfolio. The Sigma units recorded a negligible loss for the period.

OTHER OPERATIONS

The segment recognised losses of \$177.74 million (June 2021: 646.13 million profit), reflective of the adverse market conditions impacting the investment portfolio. This led to significant foreign exchange and capital losses recorded during the period. Nevertheless, the segment experienced significant improvements in net investment income of \$117.55 million due to growth in its interest-bearing securities. Additionally, the retirement of debt facilities resulted in savings of \$154.96 million on finance costs.

Liquidity and Solvency

The Group generated positive cash flows of \$1.33 billion from its operating activities (June 2021: \$328.49 million). Cash and cash equivalents excluding restricted cash were reduced to \$4.87 billion (June 2021: \$6.88 billion), as the funds were reinvested into higher-yielding assets.

Balance Sheet

The Group's total assets were \$25.37 billion at June 2022 and \$31.32 billion at December 2021. This decrease reflects the wind up of Jamziv that resulted in the cancellation of a promissory note issued by the non-controlling interest holder and the removal of the non-controlling interest from the Balance Sheet. Stockholders' Equity as at June 2022 was \$16.50 billion, a decline over the \$16.59 billion as at December 2021, due to translation losses on the foreign operations, recorded to equity reserves. Market capitalization at period end was \$18.44 billion.

OUTLOOK

As the year paces forward, we are able to reflect on the first half of the year, which brought forth unpredictability and new economic challenges. Inflation in the US economy

continues to increase, with another record-breaking inflation rate of 9.1% year-over-year recorded in June 2022, up from of 8.5% in March 2022, the largest year-over-year increase in 40 years. The Federal Reserve in an attempt to curb the elevated inflation, increased interest rates by 75 basis points in June 2022, instead of the 50 basis points initially expected. These factors have contributed to negative growth for the first quarter of the year of 1.5 percent and according to the Federal Reserve Bank of Atlanta, early estimates of the GDP for the quarter 30 June 2022, showed negative growth of 1.9%. This would represent the second quarter of negative growth for the US economy and explains the slow-down in economic activities and expected recession.

Despite inflation, recession concerns and the resultant effects on consumer spending, the latest U.S.

Travel Forecast projects that travel will remain resilient. This is backed by domestic leisure travel spending, which even after being adjusted for inflation, has surpassed pre-pandemic levels. Domestic business travel is showing an improvement and volume is expected to reach 81% of pre-pandemic levels in 2022 and 96% in 2023. International inbound travel remains high, especially with the removal of restrictive pre-flight COVID-19 testing. International travel is projected to grow rapidly through the rest of the year and then slow its pace in 2023-2026.

X Fund continues to carefully monitor and assess the current economic environment. The Group is committed to the health and wellness of our team, clients, and stakeholders by implementing a multidimensional approach to safeguard health, minimize risk and ensure business continuity. We remain

cautiously optimistic about the future and continue to manage the business accordingly.

We thank our stakeholders for the confidence they continue to place in us.

There are several new standards and amendments to published standards that came into effect 1 January 2022. No significant impact to the financial statements has been determined from the adoption of these standards.

Impact of COVID-19

The roll-out of vaccines and progressive relaxation of restrictions have generated optimism and increase in consumer confidence, and key sectors of the economy particularly, tourism, manufacturing, transportation, logistics and related sectors have continued to show growth but are generally below pre-COVID levels. For the quarter ending 30 June 2022, the Group experienced improved performance from its shift in strategy and business model which has cushioned some of the adverse financial results amidst variants and global supply chain issues.
