NOTICE OF ANNUAL GENERAL MEETING

NOTICE IS HEREBY GIVEN that the annual general meeting of Margaritaville (Turks) Ltd will be held at the Margaritaville Ltd's Board Room, # 16, M19 Southern Cross Boulevard, Freeport, Montego Bay on Thursday March 23, 2023 at 1.00 pm for the following purposes:

1. To receive the report of the Directors and Financial Statements for the year ended May 31, 2022 and the report of the Auditors thereon.
2. To authorize the directors to fix the remuneration of the Auditors for the ensuing year. The Auditors, Messrs HLB Mair Russell, Chartered Accountants, have signified their willingness to continue in office pursuant to section 154 of the companies act.
3. To fix the remuneration of the Directors for the year that commenced June 1, 2022.

A member entitled to attend and vote at the meeting is entitled to appoint a proxy to attend and vote instead of him. A proxy need not also be a member.

By order of the board,

Easthaven Limited
Company Secretary

REGISTERED OFFICE

CHAIRMAN'S REPORT

Ladies and Gentlemen,

After more than 20 months, cruising returned to the Grand Turk Cruise Port in December 2021 and we could not have been happier! Our CEO, Director Ian Dear, as well as the Executive Leadership Team from Carnival Cruise line, were on hand during December to welcome guests arriving at the location. From all indications, the reopening was successful.

For the first 6 months of Fiscal 2021-22 our location remained closed to the public owing to the ongoing COVID-19 pandemic. The skeleton team at the location kept the property clean and in a state of readiness and, in October 2021, we were advised that cruising to the Grand Turk Port would resume in December 2021. All stakeholders came together to get everything in place for the re-opening. Commendations must be given to Mr. David Garcia and his Team for the excellent job they did in maintaining the company's assets during the period of closure... Well Done!

During the period of closure and leading up to the Port's re-opening, Carnival, in partnership with the government, carried out major refurbishing to include the expansion of the dock so that larger cruise vessels can be accommodated. There were also some landscaping and other aesthetic improvements. For us, our Margaritaville location was refreshed, inventory items were replaced, our menus were upgraded and our team was reassembled and trained/re-trained as necessary.

The resumption of cruising has been very measured, tempered by the strict conditions of the Centers for Disease Control out of the USA. This measured impetus is reflected in our revenue of \$2.62 million which was earned for the fiscal year. Passenger count for the six months was 294,028, resulting in a "spend per passenger" of \$8.91. The revenue generated for the six months had to support expenditure for the full year and, as a result, a Net Loss of \$609,138 was posted for the year. There were no cruises/business in the prior year, hence no comparative revenue. The company also continued to invest in its fixed assets.

With the relaxation of more COVID-19 protocols, the company looks forward to improved business results.

We expect that we will also benefit from our geographic location, in relation to our main source market for cruising (USA) and look forward to an improved trajectory in terms of cruise ship arrivals and passenger spend. Currently, passenger numbers are trending at an average of 94% of pre-COVID-19 numbers. It is anticipated that full recovery will be realized during calendar 2024.

Margaritaville (Turks) Ltd. is appreciative of all the support provided by our shareholders and stakeholders since our inception. As we continue with our Mission to provide the BEST DAY EVER for our guests, we hope that you will continue to partner with us.

Best regards,

DIRECTORS' PROFILES

Herrick Winston Russell Dear CLS, JP, CD. CHAIRMAN & INDEPENDENT, NON-EXECUTIVE DIRECTOR

A Commissioned Land Surveyor, City Planner, Entrepreneur and Businessman, Winston Dear has dedicated his life to the development of Montego Bay and Western Jamaica. Since 1966 he has been an integral part of the life of Montego Bay and Jamaica and has played vital roles in Resort Development, Montego Freeport, Rose Hall Development, Montego South Development, Ironshore and The Greater Montego Bay Development Plan. Herrick was also instrumental in forming the Port Authorities, “Montego Bay Freezone” and lobbied for the establishment of the current Montego Freeport Cruise Ship terminal, thereby earning the moniker of “City Father. In the 1980’s he was deeply involved in the 807 garment industry and at the zenith of this industry employed over 3000 workers. Under his watch, the Government established the earth station within the zone which set the course for us to become the leading ICT center of Jamaica.

Herrick Winston Russell Dear currently sits on the Boards of Express Catering Limited and Margaritaville (Turks) Ltd. He is a member of the Montego Bay Chamber of Commerce and Industry and a member of the Tribunal, Ministry of Tourism. Herrick was appointed as a Justice of the Peace for the parish of St. James in 1983 and, in 2010, the Government of Jamaica bestowed the Order of Distinction on him. In 2017 the Government upgraded his honor to the rank of “The Order of Distinction in the rank of Commander Class” CD.

He is married to Denise and together they have three children, eight grandchildren and two great-grandchildren, all living in Jamaica. With over 40 years sail boat racing and cruising experience (one of his most favourite things to do), Herrick holds a Coastal Masters Certificate from the Maritime Authority of Jamaica, and is entitled to use the title “Captain”.

Ian Dear CD, JP CEO & EXECUTIVE DIRECTOR

Ian Dear is the founder and current Chairman and CEO of Margaritaville Caribbean Group (MCG).

MCG is an industry-leading hospitality company which has two subsidiaries publicly traded on the Jamaica Stock Exchange. Under Dear’s leadership the Company portfolio has expanded to include a diverse range of hospitality concepts in 53 locations throughout the Caribbean.

Ian has been a Justice of the Peace for the parish of St. James since 1996 and maintains active involvement in several community service organizations. He is currently Chairman of the Board of the Tourism Product Development Company Limited (TPDCo.) and a board member of the Tourism Enhancement Fund (TEF) and Trans Jamaican Highway.

In addition to these current appointments, Ian has served as a member and board member for several organizations to include the Jamaica Hotel and Tourist Association, the Private Sector Organization of Jamaica, Young President’s Association, the Montego Bay Chamber of Commerce, the Jamaica Cruise Council and the Attractions Association of Jamaica.

In 2020, Jamaica’s Governor-General appointed Ian Dear to the Order of Distinction in the rank of Commander for his contributions to Caribbean Tourism and Real Estate Development.

John G. Byles CD

INDEPENDENT, NON-EXECUTIVE DIRECTOR

John G. Byles is a graduate of the Florida International University where he attained a degree in Business Administration, with focus in Finance and International Business. Since then, his career has led him through several fields in the Corporate Finance arena. He spent over fifteen years in the banking and finance sector, working with Business Leaders in several growing and successful companies across dynamic industries before joining the tourism field over fifteen (15) years ago.

John currently sits on the Boards of Margaritaville (Turks) Ltd, Chukka Caribbean Adventures Group of Companies, Express Catering Limited, Cargo Handlers Ltd. and Margaritaville Caribbean Group Ltd. He is also a member of the Cruise Council of Jamaica, is the Deputy Chairman of the Jamaica Tourist Board, and Chairman of the Destination Assurance Council – Montego Bay Chapter. In the past, John has also previously served on the Boards of the Jamaica Tourist Board and Jamaica Promotions Corporation.

John brings to the Board his considerable experience in brand delivery in the tourism sector and management experience from the finance industry. He is a committed husband and father of four (4), an avid polo enthusiast in his down time and an active community development stalwart.

Roland Clarke

CFO & EXECUTIVE DIRECTOR

Roland is a Chartered Accountant with over twenty years of experience in Accounting and Finance covering Retail, Manufacturing, and Telecom logistics industries.

Roland joined Margaritaville Caribbean Group in August 2010. Previously he was with Facey Commodity Company Ltd. where he had direct responsibility for the finance functions of the Telecoms Division. During this time he led implementation of financial systems for the group subsidiaries in Germany, Trinidad and Tobago, Honduras, Panama and El Salvador. Roland also spent 18 months in Trinidad and Tobago in the capacity of Financial Controller, while performing other corporate duties.

His experience also includes 10 years in various accounting and finance roles with the ICD Group of companies in Jamaica.

Roland is a Fellow of the Association of Certified Chartered Accountants of England and holds a BSC. (Hons.) in Accounting from the University of the West Indies.

CORPORATE GOVERNANCE

REPORT OF MANagements RESPONSIBILITY AND INTERNAL CONTROLS

The management of Margaritaville Turks is responsible for the fairness and accuracy of the financial statements. The financial statements and the accompanying notes were prepared in accordance with the rules of the International Financial Reporting Standards and include such estimates as management deemed necessary to give a true and accurate view of the financial affairs of the group.

Management has established a system of internal controls over financial reporting that provides reasonable assurance that assets are adequately safeguarded and transactions are recorded accurately, in all material respects. We have a team

of Internal Auditors that is headed by a Vice President for Internal Controls and Systems. This ensures there is adequate representation at the executive level to bolster the effectiveness of our control function. Our internal controls provide for appropriate segregation of duties and responsibilities and there are documented policies regarding utilization of our assets and proper financial reporting. We also maintain a strong audit program that independently evaluates the adequacy of the design and effectiveness of these internal controls.

The Board of Directors provides oversight guidance to the management of the company in fulfilling their financial reporting duties and is assisted in their oversight responsibilities by the Audit Committee of the Board. Currently the Board of Directors meets on a quarterly basis and is prepared to revise the frequency should the need arise. The accompanying Management Discussion and Analysis were prepared under the direction and guidance of the Board of Directors.

The Audit Committee of the Board of Directors

The Audit Committee of the Board of Directors was established to assist the Board of Directors in fulfilling their oversight responsibility. The committee is comprised of four members, three of whom are independent, non-executive directors. The Audit Committee has complete access to the financial records of the group and has direct access to the Vice President of Internal Controls and Systems and our External Auditors.

The Audit Committee meets on a quarterly basis to carry out their roles and responsibilities, inclusive of the following;

- Monitor the financial performance of the company against objectives.
- Ensure that the company is compliant with statutory and regulatory reporting requirements.
- Ensure that the company is compliant with covenants relating to banking and other creditor requirements.
- Monitor and review the effectiveness of the internal audit function.
- Consider, approve and recommend to the board the group's annual operating and capital budgets.
- Review internal and external audit reports
- Assess operational risks and make recommendations to the board for decision.

The Audit Committee will always be a mix of non-executive and executive directors but will at all times be comprised of more non-executive directors and be chaired by one of them. The members of the committee for the year just ended were;

John Byles - Chairman
(Independent, Non-executive director)

Herrick Dear
(Independent, Non-executive director)

Roland Clarke
(Executive director)

The board is very thankful to the Audit Committee for their guidance and wish for them another successful year.

Herrick Dear
Chairman

Ian Dear
Director

MANAGEMENT DISCUSSION & ANALYSIS

OF FINANCIAL CONDITION & RESULTS OF OPERATIONS

The below analysis for Margaritaville (Turks) Ltd. (MTL) should be read in conjunction with the Audited Financial Statements and related Financial Statement Notes. The Company reports on a 12-month basis from June 1 to May 31. Financial data is reported in US Dollars, the currency of the Turks and Caicos Islands. The analysis is based on the financial results for the year ended May 31, 2022 and comparative prior years.

Overview of Operations

MTL is domiciled in the Turks and Caicos Islands, a British Overseas Territory that lies north-east of Jamaica and forms part of the Eastern Caribbean. The company was established to fulfill the food, beverage and entertainment needs of the thousands of passengers that visit the Grand Turk Cruise Port annually. The company is a subsidiary of Margaritaville Caribbean Group Ltd, owners and franchise operators of Jimmy Buffett's Margaritaville Restaurants, Bars, and Retail Shops across the Caribbean. MTL has operated on the Port since it was developed by Carnival Corporation in 2006.

Carnival Corporation built the Grand Turk Port to be a central destination on their Eastern Caribbean cruise itinerary originating off the east coast of the United States. As a result, most of the ships that cruise into that port are owned by Carnival Corporation. MTL maintains

a strong relationship with Carnival Corporation, operators of the Grand Turk Cruise Centre. Carnival Corporation is the world's largest leisure cruise ship travel company, providing travelers around the globe with extraordinary vacations at an exceptional value through their 9 leading leisure brands worldwide which include Carnival Cruises, Princess Cruises, AIDA Cruises, Costa Cruises and Holland America.

Since the outbreak of Covid-19, the Eastern Caribbean and the Caribbean in general, has been in focus for development due to its proximity to North America, (the largest source market for cruising) and the geographic benefits it provides in the planning of shorter cruise itineraries. Shorter cruises are considered as strategic in rebuilding consumer confidence after the long suspension due to Covid-19.

The company was advised in October that cruising would resume in December 2021. In preparation for the resumption of cruising, Carnival, in partnership with the local government, executed major improvements to the Port such as expanding the dock to accommodate larger ships like the Mardi Gras (6,338 passengers) which visited the facility on January 6, 2022.

After more than 20 months, cruising returned to the Grand Turk Cruise Port in December 2021. Holland America's Nieuw Amsterdam was the first to dock on December 13. Our CEO, Director Ian Dear, as well as the Executive Leadership Team from Carnival Cruise line, were on hand during December to welcome guests arriving at the location.

Following the resumption of cruising on December 13, an additional 124 cruises docked at the Grand Turk Port during the fiscal year, carrying a combined total of 294,028 passengers; (see comparative passenger count table below).

Grand Turks Cruise Centre				
Passenger Count				
Period		Passenger Count	Revenue	SPH
2021/22+		294,028	2,618,350	8.91
2020/21***		Nil	48,283	n/a
2019/20 **		862,031	5,943,592	6.89
2018/19		1,064,304	7,594,740	7.14
2017/18 *		818,832	6,020,037	7.35

+ Cruising resumed in December of 2021 - 6 months of fiscal 2022

*** Cruising was suspended for the entire year due to Covid-19

** Cruising was suspended after March 11, 2020 Due to Covid-19

* The Port was closed for 2 Months - Sept. to October - due to Hurricane Damage

The cruise sector of the leisure business industry was the one with the most restrictions. The sector was allowed to resume operations long after other categories such as hotels and attractions. There were even added delays on cruising out of the USA vs other parts of the world, including Europe. Europe made preparation for cruises to resume from as early as May of 2021, while the Center for Disease Control (CDC) in the US was only prepared to allow cruising to resume in the second half of calendar 2021. The heightened restrictions and anxiety caused low occupancy rates on resumption. We are witnessing the gradual return of confidence month by month. Pre-Covid-19 level of cruising is expected to return later in Calendar 2023 and into early 2024. Records indicate that Carnival Corporation registered a record Cyber Monday booking day in November 2022, posting bookings of 50 percent above the volume for Cyber Monday 2019.

Results of Operations for Fiscal 2022 and comparative prior years

With cruising resuming midway into the fiscal year coupled with the detailed and strict conditions of the CDC that the cruise lines had to commit to in order to be allowed to resume, the buoyant return that was expected and the resulting impact on the revenue of the company did not materialize. What we saw instead has been a very measured and gradual return and the implementation of several new measures that

should assist the cruise industry to weather a recurrence of a pandemic or major international health threat.

The operating matrix below illustrates the gap in revenue when compared to fiscal 2020 that must be bridged to return to profitability. Revenue is dependent on total number of cruise passenger so as the numbers increase, we expect the revenue to move in tandem.

MTL Results of Operations Matrix	2022		2021		2020	
	US\$	%	US\$	%	US\$	%
Revenue	2,618,350	100.00%	48,283	n/a	5,943,592	100.00%
Cost of sales	(884,666)	-33.79%	(48,645)	n/a	(1,836,144)	-30.89%
Gross profit	1,733,684	66.21%	(362)	n/a	4,107,448	69.11%
Other income	-		1,446	n/a	1,200	0.02%
Administrative expenses	(2,007,103)	-76.66%	(1,074,210)	n/a	(3,688,447)	-62.06%
Promotional expenses	(24,379)	-0.93%	-	n/a	(56,208)	-0.95%
Depreciation and amortisation	(278,916)	-10.65%	(309,075)	n/a	(291,861)	-4.91%
Operating profit	(576,714)	-22.03%	(1,382,201)	n/a	72,132	1.21%
Finance costs	(32,424)	-1.24%	-		-	
Profit for the year being total comprehensive income for the year	(609,138)	-23.26%	(1,382,201)	n/a	72,132	1.21%

In preparation for the resumption of cruising in December 2021, several initiatives were undertaken by the Company, beginning in October 2021:

- Inventory items that were disposed of over the period of closure had to be replaced plus additional items required had to be sourced and arrangements for shipping to Grand Turk made. This was challenging and at increased costs due to the logistical challenges associated with Covid-19.
- Though we maintained contact with most of our staff, people had to be repatriated due to the extended delays and uncertainty with a re-opening timeline. This meant new applications for work permits had to be initiated. This was a costly exercise because we needed to secure permits for many persons at once rather than continuously over the year and in more manageable batches, as obtained prior to Covid-19.
- In addition to the costs of the work permits, there was also the need for additional administrative efforts as the government had not settled on the path that it would take to manage the re-opening of the tourism sector. Prior to the pandemic, most of the employees in the tourism sector were expatriates. There was no initiative during the pandemic to change this dynamic but the authorities had mixed thoughts on how to approach this subject, especially with the number of citizens that would have been adversely affected by Covid-19. In the end, work permits had to be granted as there were no other options.
- Upgrading our menus and re-organising furniture in our restaurants to be compliant with Covid-19 protocols.
- training for new staff and doing re-orientation for returning team members.

From all indications, the re-opening exercise was successful. There were no reported issues with protocols and guests gave good reviews on the service quality.

REVENUE

\$2.62
MILLION
294,028
PASSENGERS

Revenue

Revenue of \$2.62 million was earned for the year. With passenger numbers of 294,028, this resulted in a spending rate per passenger of \$8.91. This spending rate is the best we have seen for a long time, notwithstanding that price increases had to be introduced during the year to help counter the continuing increases in inventory costs due to logistics challenges relating to Covid-19. There were no cruises in the prior comparative year, hence no comparative revenue.

Cost of Sales and Expenses

Cost of sales reported is a combination of the cost of ingredients sold since the resumption plus cost of ingredients disposed of to avert spoilage. We made every attempt at minimizing inventory loss from spoilage but unfortunately, due to the extended suspension, we still lost some items due to expiration as there was no resale market available for these items. The price of ingredients increased continuously during the year. The company was spared the full effect as our bulk buying arrangement at the group corporate office was able to reduce the effect of some of the increases.

Expenses incurred include Wages and Salaries for key skeleton staff for the first half of the year and near to full complement of staff for the remainder of the year. Utilities and occupancy costs would have a similar pattern of low or no cost in the first half of the year but ramped up as operations resumed. Other expenses include insurance, depreciation and amortization and stock loss due to spoilage. Legal and professional fees to manage the work permit application process had a one-time surge due to the large number of new work permits that had to be processed at the same time to facilitate resumption. All service staff work permits expired during the suspension.

Net Earnings, Earnings Per Share (EPS) and Dividends

With cruising resuming only in December 2021, revenue generated for the six months had to support expenditure for the full year. As a result, Net Loss of \$609,138 was posted for the year. This resulted in a Loss per Share of 0.9 US Cents per share. The Net Loss for the prior year was \$1.38 million for a Loss per Share of 2.05 US Cents per share.

No dividends were considered for the year.

Investments

Investment in fixed assets during the year was just under \$12,000 which was expended to replace fully depreciated furniture and fixtures. The team did an excellent job over the period of the closure in maintaining the furniture and equipment in a state of preparedness.

Future Outlook

Since the resumption of cruising at this location, there is a consistent improving trend towards the 2019 pre-Covid-19 passenger flows. This was interrupted for a while by the passage of Hurricane Fiona that made land fall as a powerful Category 3 hurricane, dumping heavy rains and causing severe damage on September 20, 2022. Damage was sustained to the building, equipment, fixtures and fittings. No efforts were spared in returning the Port and the company to operations, even while the repairs were continuing. Three weeks after the passage of the hurricane, the first cruise vessel docked in the Port on October 11, 2022.

Prior to the hurricane the passenger numbers were trending at 61% of pre-Covid-19 numbers. Since the resumption, the numbers are trending at an average of 94% of pre-Covid-19 numbers. It is hoped that full recovery will be realized by during calendar 2024.

Thanks to all our shareholders and stakeholders for their continued support.

FINANCIALS

Independent auditor's report

To the Members of
Margaritaville (Turks) Ltd

Report on the audit of the Financial Statements

Opinion

We have audited the financial statements of Margaritaville (Turks) Ltd (“the Company”) which comprise the statement of financial position as at May 31, 2022, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended and notes to the financial statements including a summary of significant accounting policies.

In our opinion, the financial statements give a true and fair view of the financial position of the Company as at May 31, 2022, and of its financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that in our professional judgement; were of most significance in our audit of the financial statements of the current period. These matters are addressed in the context of our audit of financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter. We have determined that there are no key audit matters to communicate in our report.

Other information

Management is responsible for the other information. The other information comprises the annual report (but does not include the financial statements and our auditor's report thereon), which is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Independent auditor's report (cont'd)

To the Members of
Margaritaville (Turks) Ltd

Report on the audit of the Financial Statements (cont'd)

Responsibilities of Management and those charged with governance for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with IFRS and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Independent auditor's report (cont'd)

To the Members of
Margaritaville (Turks) Ltd

Report on the audit of the Financial Statements (cont'd)

Auditor's Responsibilities for the Audit of the Financial Statements (cont'd)

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that presents a true and fair view.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe the matter in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Karen Lewis.

Margaritaville (Turks) Ltd

Notes to the financial statements

Year ended May 31, 2022

1. Identification and nature of operations

The company was incorporated under the Laws of Turks and Caicos Islands on July 15, 2004 and commenced operations in February 2006. Its registered office is P.O. Box 127, Richmond House, Leeward Highway, Providenciales, Turks and Caicos Islands. The company's shares were listed on the Main Market of the Jamaica Stock Exchange on April 11, 2014.

The company's principal place of business is located at Grand Turks Cruise Centre, White Sands, Turks and Caicos Island. The company is a subsidiary of Margaritaville Caribbean Limited, a company registered under the Bahamas IBC Act of 2000.

Its main activity during the year was the operation of a Margaritaville branded bar and restaurant.

2. Summary of significant accounting policies

The financial statements have been prepared using the significant accounting policies and measurement basis summarised below:

a Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and are expressed in United States Dollars (USD).

b Use of estimates and judgments

The preparation of financial statements in accordance with International Financial Reporting Standards requires management to make estimates and assumptions that affect the amounts reported in the financial statements. These estimates are based on historical experience and management's best knowledge of current events and actions. Actual results may differ from these estimates and assumptions.

There were no critical judgements, apart from those involving estimation, that management has made in the process of applying the company's accounting policies that have a significant effect on the amounts recognised in the financial statements.

The estimates and assumptions which have the most significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are discussed below.

(i) Depreciation of property, plant and equipment

Depreciation is provided so as to write down the respective assets to their residual values over their expected useful lives and, as such, the selection of the estimated useful lives and the expected residual values of the assets requires the use of estimates and judgements. Details of the estimated useful lives are as shown in Note 2(e).

(ii) Fair value measurement

Management uses valuation techniques to determine the fair value of non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible but this is not always available. In that case, management uses the best information available.

Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

Margaritaville (Turks) Ltd

Notes to the financial statements

Year ended May 31, 2022

2. Summary of significant accounting policies (cont'd)

c New standards, interpretations and amendments to published standards that became effective in the current year

Certain new and amended standards came into effect during the current financial year. The adoption of those standards and amendments did not have a significant impact on the financial statements:

Amendments to IAS 1 and IAS 8 on the definition of material. These amendments to IAS 1, 'Presentation of financial statements', and IAS 8, 'Accounting policies, changes in accounting estimates and errors', and consequential amendments to other IFRSs: i) use a consistent definition of materiality throughout IFRSs and the Conceptual Framework for Financial Reporting; ii) clarify the explanation of the definition of material; and iii) incorporate some of the guidance in IAS 1 about immaterial information.

Amendments to IFRS 9 IAS 39, IFRS 4, IFRS 16 and IFRS 7- Interest rate benchmark reform. These amendments provide certain reliefs in connection with interest rate benchmark reform. The reliefs relate to hedge accounting and have the effect that IBOR reform should not generally cause hedge accounting to terminate. However, any hedge ineffectiveness should continue to be recorded in the income statement.

d Standards, interpretations and amendments issued but not yet effective and have not been adopted early by the Company

At the date of authorisation of these financial statements, certain new and amended standards have been issued which were not effective for the current year and which the company has not early-adopted. The company has assessed them with respect to its operations and has determined that the following are relevant:

Amendments to IAS 1, 'Presentation of financial statements', on classification of liabilities, (effective for annual periods beginning on or after January 1, 2022). These narrow-scope amendments to IAS 1, 'Presentation of financial statements', clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (for example, the receipt of a waiver or a breach of covenant). The amendment also clarifies what IAS 1 means when it refers to the 'settlement' of a liability.

A number of narrow-scope amendments to IFRS 3, IAS 16, IAS 37 and some annual improvements on IFRS 1, IFRS 9 and IFRS 16, (effective for annual periods beginning on or after 1 January 2022). Amendments to IFRS 3, 'Business combinations' update a reference in IFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations. Amendments to IAS 16, 'Property, plant and equipment' prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss. Amendments to IAS 37, 'Provisions, contingent liabilities and contingent assets' specify which costs a company includes when assessing whether a contract will be loss-making. Annual improvements make minor amendments to IFRS 1, 'First-time Adoption of IFRS', IFRS 9, 'Financial instruments' and the Illustrative examples accompanying IFRS 16, 'Leases'.

Narrow scope amendments to IAS 1, Practice statement 2 and IAS 8, (effective for annual periods beginning on or after January 1, 2023). The amendments aim to improve accounting policy disclosures and to help users of the financial statements to distinguish between changes in accounting estimates and changes in accounting policies.

Margaritaville (Turks) Ltd

Notes to the financial statements

Year ended May 31, 2022

2. Summary of significant accounting policies (cont'd)

e Basis for measurement

These financial statements have been prepared on the historical cost basis, as explained in the accounting policies below.

f Property, plant and equipment

(i) Carrying amount

Property, plant and equipment are carried at cost less accumulated depreciation.

(ii) Depreciation

Depreciation is provided on the straight line basis at such rates as will write off the cost of the various assets over the period of their expected useful lives. The useful lives approximate to forty (40) years for buildings, five to ten (5 - 10) years for furniture, fixtures, machinery and equipment, three (3) years for computers and five (5) years for motor vehicle.

Leasehold building and improvements are being amortised over twenty years.

(iii) Repairs and renewals

The costs of repairs and renewals which do not enhance the carrying value of existing assets are written off to profit or loss as they are incurred.

g Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Chief Executive Officer who makes strategic decisions.

h Development cost

These represent amounts spent on the development of new products, processes and systems which is being amortised over 6 years.

i Foreign currency translation

Functional and presentation currency

The financial statements are prepared and presented in United States dollars, which is the functional currency of the company.

Foreign currency transactions and balances

(i) Foreign currency monetary balances at the end of the reporting period have been translated at the rates of exchange ruling at that date.

(ii) Foreign currency transactions are translated into the functional currency at the exchange rate prevailing at the dates of those transactions.

Margaritaville (Turks) Ltd

Notes to the financial statements

Year ended May 31, 2022

2. Summary of significant accounting policies (cont'd)

i Foreign currency translation (cont'd)

- (iii) Foreign exchange gains and losses resulting from the settlement of such transactions and from the remeasurement of monetary items are included in the profit or loss. Non-monetary items are not retranslated at year-end and are measured at historical rates except for those measured at fair value which are translated using the exchange rates at the date when the fair value was determined.

j Revenue recognition

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Company's activities. Revenue is shown net of refunds and discounts. To determine whether to recognise revenue, the Company follows a 5-step process:

1. Identifying the contract with a customer;
2. Identifying the performance obligations;
3. Determining the transaction price;
4. Allocating the transaction price to the performance obligations; and
5. Recognising revenue when/as performance obligation(s) are satisfied.

For Step 1 to be achieved, the following five criteria must be present:

- the parties to the contract have approved the contract either in writing, orally or in accordance with other customary business practices;
- each party's rights regarding the goods or services to be transferred or performed can be identified;
- the payment terms for the goods or services to be transferred or performed can be identified;
- the contract has commercial substance (i.e., the risk, timing or amount of the future cash flows is expected to change as a result of the contract); and
- collection of the consideration in exchange of the goods and services is probable.

The Company derives revenue from sale of goods and rendering of services either at point in time or over time, when (or as) the Company satisfies performance obligations by transferring control of the promised goods or rendering of the promised services to its customers.

A performance obligation is satisfied at a point in time unless it meets one of the following criteria, in which case it is satisfied over time:

- the customer simultaneously receives and consumes the benefits provided by the Company's performance as the Company performs;
- the Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; and,
- the Company's performance does not create an asset with an alternative use to the Company and the entity has an enforceable right to payment for performance completed to date.

Margaritaville (Turks) Ltd

Notes to the financial statements

Year ended May 31, 2022

2. Summary of significant accounting policies (cont'd)

j Revenue recognition (cont'd)

The Company recognises contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as contract liabilities in the statement of financial position. Similarly, if the Company satisfies a performance obligation before it receives the consideration, the Company recognises either a contract asset or a receivable in its statement of financial position, depending on whether something other than the passage of time is required before the consideration is due.

Sale of goods

Sales to customers are recognised at point in time upon delivery of goods and customer acceptance.

Rendering of services

Revenue arising from the provision of island tours, adventure activities and photo shop services is recognised either at point in time or overtime upon the performance of services or the delivery of products and customer acceptance. Revenue arising from the provision of hotel accommodation, restaurant and bar services and activities is recognised upon the performance of services or the delivery of products and customer acceptance. Consideration received in advance to secure hotel room bookings is initially deferred, included in contract liabilities and is recognised as revenue in the period when the service is performed.

Other income

Other income is recognised at point in time on the accrual basis.

k Operating expenses

Operating expenses are recognised in profit or loss upon utilisation of the service or the receipt on the goods or as incurred.

l Inventories

Inventories are stated at the lower of cost determined on the average cost basis, and net realisable value. Cost includes all supplier prices, freight and handling and other overhead costs directly related to goods sold. Net realisable value is the estimated selling price in the ordinary course of business less any related selling expenses.

m Cash and bank

Cash and bank comprise amounts held in current and savings accounts with financial institutions and cash on hand balances net of bank overdraft.

n Trade and other receivables

Trade and other receivables are classified as loans and receivables. These are initially recognised at original invoice amount (which represents fair value) and subsequently measured at amortised cost.

Margaritaville (Turks) Ltd

Notes to the financial statements

Year ended May 31, 2022

2. Summary of significant accounting policies (cont'd)

o Financial instruments

Recognition and derecognition

Financial assets and financial liabilities are recognised when the company becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and substantially all the risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

Classification and initial measurement of financial assets

Except for those trade receivables that do not contain a significant financing component and are measured at the transaction price in accordance with IFRS 15, all financial assets are initially measured at fair value adjusted for transaction costs (where applicable).

Financial assets, other than those designated and effective as hedging instruments, are classified into the following categories:

- amortised cost
- fair value through profit or loss (FVTPL)
- fair value through other comprehensive income (FVOCI)

In the periods presented the company does not have any financial assets categorised as FVOCI.

The classification is determined by both:

- the entity's business model for managing the financial asset
- the contractual cash flow characteristics of the financial asset.

All income and expenses relating to financial assets that are recognised in profit or loss are presented within finance costs, finance income or other financial items, except for impairment of trade receivables which is presented within other expenses.

Subsequent measurement of financial assets

Financial assets at amortised cost

Financial assets are measured at amortised cost if the assets meet the following conditions:

- they are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding

After initial recognition, these are measured at amortised cost using the effective interest method. Discounting is omitted where the effect of discounting is immaterial. The company's cash and cash equivalents, trade and most other receivables fall into this category of financial instruments.

Margaritaville (Turks) Ltd

Notes to the financial statements

Year ended May 31, 2022

2. Summary of significant accounting policies (cont'd)

o Financial instruments (cont'd)

Impairment of financial assets

IFRS 9's impairment requirements use more forward-looking information to recognise expected credit losses – the 'expected credit loss (ECL) model'. This replaces IAS 39's 'incurred loss model'. Instruments within the scope of the new requirements included loans and other debt-type financial assets measured at amortised cost and FVOCI, trade receivables, contract assets recognised and measured under IFRS 15 and loan commitments and some financial guarantee contracts (for the issuer) that are not measured at fair value through profit or loss.

Recognition of credit losses is no longer dependent on the company first identifying a credit loss event. Instead the company considers a broader range of information when assessing credit risk and measuring expected credit losses, including past events, current conditions, reasonable and supportable forecasts that affect the expected collectability of the future cash flows of the instrument.

In applying this forward-looking approach, a distinction is made between:

- financial instruments that have not deteriorated significantly in credit quality since initial recognition or that have low credit risk ('Stage 1') and
- financial instruments that have deteriorated significantly in credit quality since initial recognition and whose credit risk is not low ('Stage 2').
- 'Stage 3' would cover financial assets that have objective evidence of impairment at the reporting date.

'12-month expected credit losses' are recognised for the first category while 'lifetime expected credit losses' are recognised for the second category.

Measurement of the expected credit losses is determined by a probability-weighted estimate of credit losses over the expected life of the financial instrument.

Classification and measurement of financial liabilities

The company's financial liabilities include bank overdraft, trade and other payables.

Financial liabilities are initially measured at fair value, and, where applicable, adjusted for transaction costs, unless the company designated a financial liability at fair value through profit or loss.

Subsequently, financial liabilities are measured at amortised cost using the effective interest method except for derivatives and financial liabilities designated at FVTPL, which are carried subsequently at fair value with gains or losses recognised in profit or loss (other than derivative financial instruments that are designated and effective as hedging instruments).

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss are included within finance costs or finance income.

Margaritaville (Turks) Ltd

Notes to the financial statements

Year ended May 31, 2022

2. Summary of significant accounting policies (cont'd)

p Due to/from related parties

Amounts due to/from related parties are classified as financial assets and liabilities measured at amortised cost. These are initially recognised at the original amount received (which represents fair value) and subsequently measured at amortised cost.

q Leased assets

The Company as a lessee

For any new contracts entered into on or after June 1, 2019, the Company considers whether a contract is or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'.

To apply this definition the Company assesses whether the contract meets three key evaluations which are whether:

- the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Company
- the Company has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract
- the Company has the right to direct the use of the identified asset throughout the period of use.

The Company assess whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

Measurement and recognition of leases as a lessee

At lease commencement date, the Company recognises a right-of-use asset and a lease liability on the statement of financial position. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist. At the commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Company's incremental borrowing rate.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments.

When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

Margaritaville (Turks) Ltd

Notes to the financial statements

Year ended May 31, 2022

2. Summary of significant accounting policies (cont'd)

q Leased assets (cont'd)

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in profit or loss on straight-line basis over the lease term.

Operating leases

All other leases are treated as operating leases. Where the Company is a lessee, payments on operating lease agreements are recognised as an expense on a straight-line basis over the lease term. Associated costs, such as maintenance and insurance, are expensed as incurred.

r Impairment

The company's assets are subject to impairment testing.

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). As a result, some assets are tested individually for impairment and some are tested at cash-generating unit level.

Individual assets or cash-generating units are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of fair value, reflecting market conditions less costs to sell and value in use, based on an internal discounted cash flow evaluation. All assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist.

s Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of shares are included in equity as a deduction from proceeds.

Margaritaville (Turks) Ltd

Notes to the financial statements

Year ended May 31, 2022

14. Loss per share

Loss per share is calculated by dividing loss for the year by the weighted average number of ordinary shares in issue for the year:

	2022 US\$	2021 US\$
Net loss attributable to owners	(609,138)	(1,382,201)
Weighted average number of shares	67,500,000	67,500,000
Loss per share	(0.01)	(0.02)

15. Ordinary dividends

Dividends were not declared for 2022 and 2021.

16. Employee benefits

	2022 US\$	2021 US\$
Salaries, wages and related expenses	850,220	366,106
Commission	9,367	-
Medical and other staff benefits	112,267	139,962
Total	971,854	506,068

17. Lease payments not recognised as a liability

The company has variable lease payment not permitted to be recognised as lease liabilities and are expensed as incurred. Under the lease agreement the company pays lease expense based on estimated average cruise passenger arrivals. Lease expense for the year amounted to \$165,385 (2021 - \$NIL).

Margaritaville (Turks) Ltd

Notes to the financial statements

Year ended May 31, 2022

18. Risk management policies

The company's activities expose it to a variety of financial risks in respect of its financial instruments: market risk (currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The company seeks to manage these risks by close monitoring of each class of its financial instruments as follows:

a Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The company is exposed to market risk through its use of financial instruments and specifically to currency risk, interest rate risk and certain other price risk, which result from both its operating and investing activities.

i Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The company is not exposed to currency risk.

ii Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates

Interest rate sensitivity

Interest rate on the company's lease obligation is fixed up to the dates of repayment and interest on the company's bank accounts is immaterial. As such, there would be no material impact on the results of the company's operations as a result of fluctuations in interest rates.

iii Other price risk

Other price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all instruments traded in the market. The company's financial instruments are substantially independent of changes in market prices.

b Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

The company faces credit risk in respect of its receivables and cash and cash equivalents held with financial institutions. It is the company's policy to deal only with credit worthy financial institutions and other counterparties, to control credit risk.

Margaritaville (Turks) Ltd

Notes to the financial statements

Year ended May 31, 2022

18. Risk management policies (cont'd)

b Credit risk (cont'd)

Cash and cash equivalents

Credit risk for cash and cash equivalents is managed by maintaining these balances with licensed financial institutions considered to be stable and creditworthy.

Receivables

The company applies the IFRS 9 simplified approach to measuring expected credit losses using a lifetime expected credit loss provision for receivables. To measure expected credit losses on a collective basis, receivables are grouped based on similar credit risk and aging.

The expected loss rates are based on the company's historical credit losses experienced over the two year period prior to the period end. The historical loss rates are then adjusted for current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The company experienced no credit losses over the past two years and does not expect to incur any credit loss based on its current business model.

The maximum credit risk faced by the company is limited to the carrying amount of financial assets recognised at end of the reporting period, as summarised below:

	2022 US\$	2021 US\$
Trade and other receivables	254,351	91,814
Due from related companies	273,108	-
Cash and cash equivalents	62,906	7,992
Total	590,365	99,806

The age of trade and other receivables past due but not impaired is as follows:

	2022 US\$	2021 US\$
Not more than 30 days	137,159	91,814
Total	137,159	91,814

The company does not require collateral or other credit enhancements in respect of trade and other receivables.

c Liquidity risk

Liquidity risk is the risk that the company will encounter difficulty in meeting its commitments associated with financial liabilities.

The company manages its liquidity risk by carefully monitoring its cash outflow needs for day-to-day business and maintaining an appropriate level of resources in liquid or near liquid form to meet its needs. The company maintains cash and cash equivalents for up to three months or less to meet its liquidity requirements.

Margaritaville (Turks) Ltd

Notes to the financial statements

Year ended May 31, 2022

18. Risk management policies (cont'd)

c Liquidity risk (cont'd)

The company's financial liabilities comprise lease obligation and trade and other payables.

As at May 31, 2022 the company's financial liabilities have contractual maturities (including interest payments where applicable) as summarised below:

	Current Within 12 Months \$
Borrowings	306,449
Trade and other payables	1,658,494
Total	1,964,943

This compares to the maturity of the company's financial liabilities in the previous reporting period as follows:

	Current Within 12 Months \$
Due to related companies	253,723
Trade and other payables	909,591
Total	1,163,314

The above contractual maturities reflect the gross cash flows, which may differ to the carrying values of the liabilities at the end of the reporting period.

19. Fair value of financial instruments

Fair value is the amount for which an asset could be exchanged, or liability settled, between knowledgeable willing parties in an arm's length transaction. Market price is used to determine fair value where an active market (such as a recognised stock exchange) exists as it is the best evidence of the fair value of a financial instrument.

Financial instruments that, subsequent to initial recognition, are measured at fair value are grouped into levels 1 to 3 based on the degree to which the fair values are observable, as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities. (Level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is derived from prices). (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs). (Level 3).

The amounts included in the financial statements for cash and cash equivalents, trade and other receivables, related companies and trade and other payables reflect their approximate fair values because of the short-term maturity of these instruments.

The fair value of the lease obligation of capital leases approximate their carrying values because interest rates at the year-end were at market rates.

Margaritaville (Turks) Ltd

Notes to the financial statements

Year ended May 31, 2022

20. Summary of financial assets and liabilities by category

The carrying amount of the company's financial assets and liabilities as recognised at the end of the reporting periods under review may also be categorised as follows:

	2022	2021
	US\$	US\$
Financial assets measured at amortised costs		
Current assets		
Loans and receivables		
Trade and other receivables	254,351	91,814
Due from related companies	273,108	-
Cash and cash equivalents	62,906	7,992
	590,365	99,806
Financial liabilities measured at amortised costs		
Current liabilities		
Due to related companies	-	253,723
Trade and other payables	1,658,494	909,591
Borrowings	300,000	-
	1,958,494	1,163,314

21. Segment information

Management has determined the operating segments based on the reports reviewed by the Chief Executive Officer (CEO) that are used to make strategic decisions.

The two operating segments are food and beverage and gift shop. However, the revenue from the sale of gift shop items is not considered material and therefore no segment reporting is disclosed in these financial statements.

22. Capital management, policies and procedures

The company's capital management objectives are to ensure the company's ability to continue as a going concern and to provide adequate return to shareholders by pricing products commensurately with the level of risk and current market conditions.

The company is not subject to any externally imposed capital requirements.
