## Third Quarter (Q3 \& Nine Months) 2023 Interim Report to our Shareholders

The Directors of Margaritaville (Turks) Ltd. take pleasure in presenting this third Quarter report for fiscal 2023.
A total of 283,113 passengers cruised into the Grand Turk Port for the third Quarter on 85 vessels, an average of 3,330 passengers per vessel. Revenue for the Quarter of US $\$ 2.20$ million represents the highest quarterly revenue ever reported by the company and resulted in an average spend rate per passenger of US\$7.78. The highest passenger count total for any previous quarter pre-Covid-19 was 304,190 and the spend rate per passenger for that quarter was US\$6.44. We are closing the gap on the passenger totals and have surpassed all quarterly pre-Covid-19 passenger spend rates. For the similar Quarter in the prior year, 120,876 passengers cruised into the port. Total revenue earned was US $\$ 974,015$ resulting in a spend per passenger rate of US\$8.04.

Net profit earned for the Quarter was US $\$ 725,181$ to provide shareholders with Earnings Per share (EPS) of 1.074 US Cents. This is the highest net profit reported for any previous Quarter in the company's' history. Peril Insurance proceeds relating to Hurricane Fiona contributed $\$ 339,725$ to the net profit for the Quarter. For the similar Quarter in the prior year, cruising only returned midway in the first month of the Quarter. This was after more than 20 months of suspension due to Covid-19 and so passenger confidence was just returning to the cruise sector. Loss for that Quarter was US\$166,861 for a loss per share of 0.247 US Cents.

Total revenue for the 9 months, year to date, was US $\$ 4.98$ million. This was earned from the 626,569 passengers that cruised into the Port over the period. For the comparative period in the prior year, cruising was suspended for the first six months, returning only midway of the seventh month. Revenue earned was US $\$ 975,061$ from the 120,876 passengers.

Net profit for the year to date was US\$1.18 million. This provided shareholders with EPS of 1.75 US Cents. The earnings for the similar period in the prior year returned a net loss of US $\$ 776,593$ for a loss per share of 1.15 US Cents.

Cost of Sales (COS) ratio of $26.06 \%$ for the Quarter is satisfactory given the inflationary environment that the company has been operating in. The year-to-date ratio is marginally higher at $26.64 \%$ but is trending downwards. At the 6 months mark the COS ratio was above $27.0 \%$. The company continues to review prices and ingredients to provide the best ingredients at the best prices for our business. Administrative expenses have increased in total amounts but are necessary to support the increase in revenue. There were no unusual expenditures during the year (to date). The team is doing a good job in managing the relative increase in operating costs in relation to the revenue increase.

The company continues to manage its assets in a most efficient manner and is complying with supplier and other creditor arrangements.

The winter tourist season, to date, has been one of the better ones on record, the passenger counts are nearing pre-Covid19 totals and the spending patterns are much improved. We anticipate that this will continue for the rest of the fiscal 2023 and into fiscal 2024.

The Directors and the Management Team are appreciative of the continued support of all our shareholders and

lan Dear

## 2. Basis of preparation

(ii) Accounting policies.

## 4. Seasonality of Interim Results

The entire operations of the Group are dependent on the Caribbean tourism market. Despite the fairly stable climate, the Caribbean hotel and resort market shows a significant level of seasonality throughout the year. The seasonality is represented by strong occupancies throughout the winter season, typically between December and May. This is offset by lower occupancies between June and November with particularly low occupancies in the months of September and October.

## 5 Effects of Covid 19

The spread of the Coronavirus disease (COVID-19) which was declared a global pandemic by the World Health Organization (WHO) on March 11, 2020, has severely impacted many local economies around the globe. In the Caribbean, as in all regions, businesses were forced to cease or limit operations for long periods of time. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered significant disruptions to businesses worldwide, resulting in an economic slowdown. These measures significantly affected the group's operation and resulted in its temporary closure as of March 2020. Operations resumed in December 2021 and has been continuing since.
