For the quarter ended March 31, 2023, FESCO recorded Turnover/Revenues of J\$6,400.76 million which reflects a 37.27% or J\$1,737.69 million year over year increase. Several factors affect revenue/turnover with the supply price of fuel being a major component.

On average, this quarter's refinery prices have decreased between J\$12.55 - J\$12.66 per litre for gasoline and J\$12.27 - J\$14.20 for diesel relative to the previous quarter, Q3 ending December 31, 2022. FESCO has no control over the supply price of fuel and, instead, focuses more on quantity of fuel sold and gross profit. FESCO recorded gross profit of J\$242.46 million for the quarter which reflects growth of 66.97% or J\$97.25 million year over year. The Company's year to date gross profit of J\$889.11 million exceeds the gross profit achieved for the year ended March 31, 2022 of J\$391.22 million by 127.27% or J\$497.90 million with a gross profit margin of 3.35% versus 3.09% for the year ended March 2022. The improvement in gross profit achieved reflects both an increase in fuel sold in litres and a margin improvement.

Operating Expenses of J\$109.07 million for the period, and J\$324.62 million for the year, reflects the Company's expanded operations. This includes operating a retail service station, increased expenditure on repairs and maintenance to improve our service station network, and increasing the depth and breadth of our human resources as we prepare for the launch of our LPG offerings. Our operating expenses for the year have increased by J\$188.35 million or 138.22%. Staff costs, bank charges, depreciation, advertising, insurance and security continue to be our main expense items. Other Expenses totalling J\$61.77 million include: registrar fees, secretarial fees, training and professional fees as well as bad debt provisioning among other expenses. Our operations continue to be efficient represented by our total operating expenses consistently being less than 40% of gross profits (March 2023: 36.51% vs. March 2022: 34.83%).

Book Value or Shareholders' Equity as at March 31, 2023, has increased to sum J\$1.297 billion, up from J\$770.60 million as at March 31, 2022.

The Company's current ratio stands at 1.47 (March 31, 2023) down from 1.63 at March 31, 2022. This reflects both the Company's debt raise in December of J\$700 million and our capital expenditure (CAPEX) initiative to expand its fuel distribution network and acquisition of LPG assets. The Company's PP&E balance as at March 31, 2023 of \$2.66 billion is reflective of these expenditures. A look ahead

FESCO continues to monitor the inflationary forces within the economy, such as interest rate increases and nearly full employment in many parishes among other factors. These affect private and/or consumer consumption as well as our allocation of investments. The Company must also navigate industry-related margin contractionary forces and potential consolidation within the industry. The Company remains mindful of opportunities for internal growth and further investment. Internal or self-funding via profit generation, profit retention, at this time, may prove to be the most efficient and cost effective source of capital to fund growth.

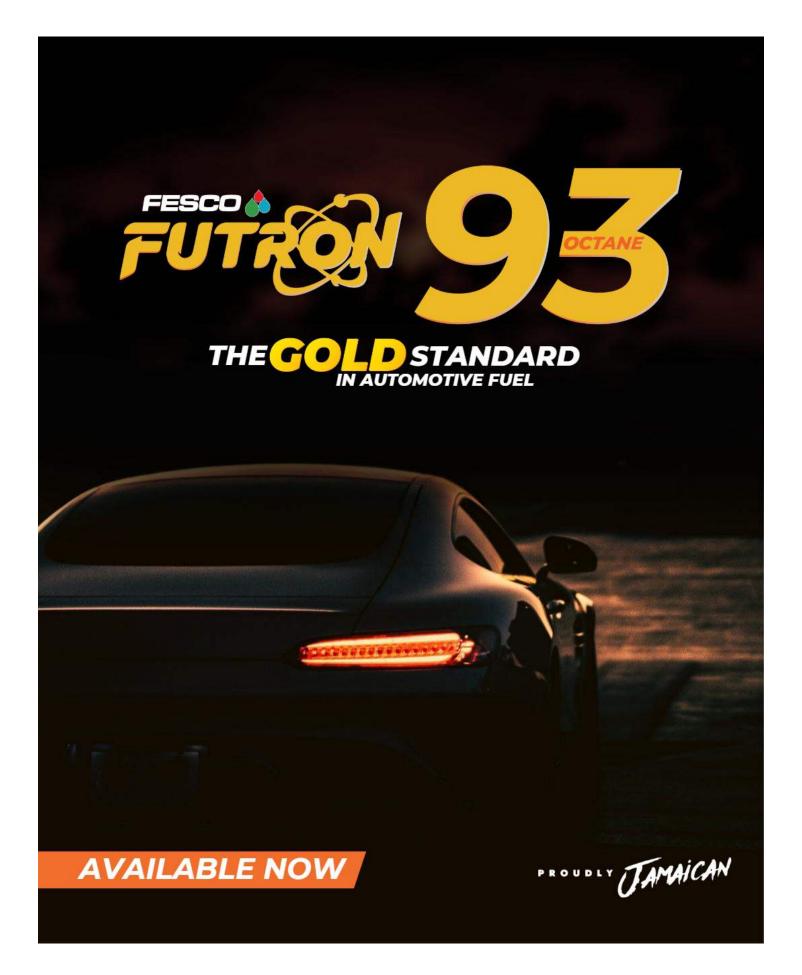

FESCO acquired the LPG assets of Wilson Beck LPG including its Bernard Lodge filling plant on April 5, 2023. The Company is in the process of testing and increasing its capacity, building-out offices, commissioning assets and equipment, and has begun to softly serve small sections of the LPG industry as it prepares for its launch.

This period will see the implementation of lasting structures and innovative tools which will increase the demand for goods and services in the medium term. Additionally, as the Company begins to operationalise its LPG assets, depreciation charges and interest expense may temporarily outpace LPG earnings in the short term. Nevertheless we at FESCO believe that the year ending March 2024 will be another year of growth for the Company.

As FESCO moves forward it is anticipated that along with net profit, EBITDA or earnings before interest, taxes, depreciation and amortisation will be key performance indicators (KPIs).

The Company will continue to make investments in real assets and equipment to support the expansion of the service station businesses, the industrial client business, as well as the promised entry into the LPG industry. FESCO will seek to open at least two (2) service stations in the coming months and quarters.
