

Caribbean Cream Ltd. (KREMI) Second Quarter Unaudited Financial Results

UNAUDITED FINANCIAL RESULTS FOR THE SIX MONTHS ENDED AUGUST 31, 2023

BOARD OF DIRECTORS REPORT TO SHAREHOLDERS for the 2ND quarter ended August 31, 2023.

Revenue for the quarter ended August 31, 2023 was \$646 million up from \$645 million in the corresponding quarter of 2022. Half year revenue amounted to \$1.2 billion which was similar to that of the six-month corresponding period of last year. Sales were hampered by production disruptions due to the ammonia shortage in the previous quarter.

The cost of sales for the half year was \$860 million down from the previous year of \$904 million; a reduction of \$44 million or 5%. The 2nd quarter's result was \$442 million versus \$456 million, a reduction of \$15 million or 3%. The reduction in cost was as result of the lower production levels and savings from lower usage of electricity in the production process.

Gross profit, however, increased by 10% for the half year, realizing \$390 million, an increase of \$37 million over the corresponding period of the previous year. For the quarter, gross profit was \$15 million more than that in the corresponding quarter of 2022, an increase of 8%.

Administrative and other operating expenses for the half year were \$380 million more than the corresponding period last year of \$345 million, an increase of 10%. For the quarter under review, expenses totalled \$201 million versus last year of \$181 million, an increase 11%. The increases were mainly due to higher costs related to staff, security, and bank borrowings associated with the funding of our capital expenditure plan.

Notwithstanding, for the half year ending August 31, 2023, the company achieved higher profits before taxation recording \$12 million versus last year of \$9.7 million or an improvement of 24% over the corresponding period.

The company is focussed on upgrading its property plant and equipment (PPE) with the objective of improving efficiency and profitability. The PPE has grown by 29% over the corresponding period last year increasing by \$382 million. These investments over the course of the year being made within our production facility will garner increase production at lower costs contributing to meeting market demand and customer satisfaction.

Caribbean Cream Ltd. is grateful to all our stakeholders who continue to be integral to the company's growth strategy. Our employees, customers, suppliers, shareholders, and well-wishers have been a tremendous support, and we are thankful to vou as we work to 'serve you' even better.

Christopher Clarke

Notes to the Unaudited Financial Statements Six months ended August 31, 2023

Identification and Principal Activities

Caribbean Cream Limited (the company) is incorporated and domiciled in Jamaica and is listed on the Junior Market of the Jamaica Stock Exchange (JSE). The company's registered office is located at 3 South Road, Kingston 10, Jamaica.

At the reporting date, Scoops Unlimited Limited, a company incorporated and domiciled in Jamaica, and its directors controlled the company by virtue of their direct holding of 73% of the issued shares of the company.

The principal activities of the company are the manufacture and sale of ice cream and frozen novelties, under the 'Kremi' brand, and the importation and distribution of certain types of frozen novelties.

Basis of preparation

Statement of compliance

These Unaudited financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and comply with the provisions of the Jamaican Companies Act. They are prepared on the historical cost basis and are presented in Jamaica dollars, which is the functional currency of the company. The accounting policies used are consistent with those used in the audited financial statements for the year ended 28 February 2023.

Significant accounting policies

Property, plant, and equipment

Items of property, plant and equipment are measured at cost, less accumulated depreciation, and impairment losses. Costs include expenditures that are directly attributable to the acquisition of the assets. The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the company and its cost can be reliably measured. The cost of day-to-day servicing of property, plant and equipment is recognised in profit or loss as incurred.

Notes to the Unaudited Financial Statements Six months ended August 31, 2023

Significant accounting policies cont'd

Cash and cash equivalents

Cash and cash equivalents comprise cash, bank balances and fixed deposits with maturity of three months or less from the date of placement and are measured at cost. For the statement of cash flows, bank overdraft, if any, that is repayable on demand and form an integral part of cash management activities, is included as part of cash and cash equivalents.

Trade and other receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less loss allowance. For trade receivables impairment provisions, the company applies the simplified approach permitted by IFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Inventories

Inventories are measured at the lower of cost, determined principally on a first-in-first out (FIFO) basis, and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated selling costs.

Impairment

At each statement of financial position date, the company reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Trade and other payables

Trade and other payables are measured at amortized cost.

Provisions

Provisions are recognized when the company has a present legal or constructive obligation as a result of past events, if it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount of the obligation can be determined.

Notes to the Unaudited Financial Statements Six months ended August 31, 2023

Significant accounting policies cont'd

Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. After initial recognition, interest-bearing borrowings are measured at amortised cost, with any difference between proceeds (net of transaction costs) and redemption value being recognised in profit or loss over the period of the borrowings using the effective interest rate method. Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as property, plant, and equipment.

Share capital

Ordinary shares are classified as equity where there is no obligation to transfer cash or other assets. Transaction costs directly attributable to the issue of shares are shown in equity as a deduction from the proceeds of the share issue.

Dividends

Dividends on ordinary shares and capital distributions are recognized in shareholders' equity in the period in which they become legally payable. Interim dividends are due when declared and approved by the directors while shareholders approve final dividends at the Annual General Meeting. Dividends and capital distributions for the year that are declared after the reporting date are disclosed in the subsequent events note.

Revenue

Gross operating revenue represents the invoiced value of sales, after deduction of returns, discounts allowed, and General Consumption Tax. The company recognises revenue when it transfers control over a good or service to a customer.

Notes to the Unaudited Financial Statements Six months ended August 31, 2023

Significant accounting policies cont'd

Taxation

The company's shares were listed on the Junior Market of the Jamaica Stock Exchange (JSE) on May 17, 2013. Consequently, the company is eligible for remission of income taxes for a period of ten years, provided the following conditions are met:

- (i) The company's shares remain listed for at least 15 years and is not suspended from the JSE for any breaches of its rules.
- (ii) The subscribed participating voting share capital of the company does not exceed \$500 million.
- (iii) The company has at least 50 participating voting shareholders.

The remission will apply in the following proportions:

- (a) Years 1 to 5 (May 17, 2013 May 16, 2018) 100%
- (b) Years 6 to 10 (May 17, 2018 May 16, 2023) 50%

The financial statements have been prepared on the basis that the company will have the benefit of the tax remissions of 50%.

Leases

At inception of a contract, the company assesses whether a contract is a lease. It is a lease if the contract conveys the right to control the use of an identified asset for a period in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the company uses the definition of a lease in IFRS16.

For short-term leases and leases of low-value assets, the company has elected not to recognise right-of-use assets and lease liabilities for short term leases of assets that have a lease term of 12 months or less and lease of low-value assets. The company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Dividend and distribution

Dividends on ordinary shares and capital distributions are recognised in equity in the period in which they are approved. Interim dividends payable to shareholders are approved by the directors while final dividends have to be approved by the equity shareholders at the Annual General Meeting.

Related party transactions

A party is related to the company, if -:

- 1) Directly, or indirectly through one or more intermediaries, the party, is controlled by, or is under common control with, the company (this includes parent, subsidiaries, and fellow subsidiaries); has an interest in the company that gives it significant influence over the company; or has joint control over the company.
- 2) The party is an associate of the company.
- 3) The party is a joint venture in which the company is a venturer.
- 4) The party is a member of the key management personnel of the company or its parent.
- 5) The party is a close member of the family of any individual referred to in (i) or (iv).
- 6) The party is the company that is controlled, jointly controlled or significantly influenced by, or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (iv) or (v); or
- 7) The party is a post-employment benefit plan for the benefit of employees of the company, or of any company that is a related party of the company.

A related party transaction is a transfer of resources, services, or obligations between related parties, regardless of whether a price is charged. The company has a related party relationship with its directors and key management personnel, representing certain senior officers of the company.
